

The Truth

about women's ills can be frankly told by one woman to another.

Remember that Mrs. Pinkham is a woman. Remember that her advice and medicine have cured a million women of weaknesses peculiar to their sex.

Remember that no man ever sees a letter written to Mrs. Pinkham for advice, that the letter is opened, read and answered by women, and no testimonial ever published without special permission.

Remember that Lydia E. Pinkham's Vegetable Compound is the recognized safeguard of woman's health.

Remember those things when some other remedy is suggested, and remember them when you want advice. Mrs. Pinkham's address is Lynn, Mass.

"If Any Man Will Do His Will." These are days of intense intellectual activity. To be accepted a proposition must be backed by incontestable scientific proof. Because of this many earnest souls seem to find themselves hindered in that spiritual growth and fellowship for which they long and strive. It is well to remember that logic cannot decide everything; that the truths to be gained by faith are still the transforming truths; and that only those who live in the spirit can talk of proving or disproving the things of the spirit. We must seek to find. We must seek to know.

Try Allen's Foot-Ease. A powder to be shaken into the shoes. At this season your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures ingrowing nails, swollen and sweating feet, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. We have 30,000 testimonials. Try it today. Sold by all druggists and shoe dealers for 25c. Trial package FREE. Address Allen B. Olmstead, LeRoy, N. Y.

The mayor of Philadelphia says that hundreds if not thousands of women in that good old Quaker city, women of position and respectability, are addicted to the opium habit. "To this end," says Mayor Ashbridge, "our laws need to be radically amended."

Did You Ever Run Across an old letter—ink all faded out? Couldn't find even Carter's Ink for it doesn't fade. Put a tobacco victim into a hot bath, says Metha Lander, and let him remain there until he prespires freely; then drop a fly into the water, and instant death will ensue.

The supreme court of Michigan has refused a unanimous decision to the effect that villages have the right to prohibit the sale of intoxicating liquors in every form if they choose.

There was an increase of 185 in the commitments to jail for drunkenness in the province of Ontario during 1899. The increase amounted to over 150 per cent.

HEALTHY WOMEN.

Mary J. Kennedy, manager of Armour & Co.'s exhibit at the Trans-Mississippi Exposition, at Omaha, Neb., writes the following of Peruna as a cure for that common phase of summer catarrh, known as indigestion. Miss Kennedy says:

"I found the continual change of diet incidental to eight years' traveling completely upset my digestive system. In consulting several physicians they decided I suffered with catarrh of the stomach. 'Their prescriptions did not seem to help me any, so, reading of the remarkable cures effected by the use of Peruna I decided to try it and soon found myself well repaid. 'I have now used Peruna for about three months and feel completely rejuvenated. I believe I am permanently cured, and do not hesitate to give unstinted praise to your great remedy, Peruna.'"

The causes of summer catarrh are first, chronic catarrh; second, derangement of the stomach and liver; third, impure blood.

Such being the case anyone who knows anything whatever about the operations of Peruna can understand why this remedy is a permanent cure for summer catarrh. It eradicates chronic catarrh from the system, invigorates the stomach and liver, cleanses the blood of all impurities, and therefore permanently cures by removing the cause—a host of maladies peculiar to hot weather. The cause being removed the symptoms disappear of themselves. 'Summer Catarrh' sent free to any address by the Peruna Medicine Co., Columbus, Ohio.

Science and Invention

Recent experiments by Monsieur Janet show that the temperature of the carbon filament in an electric lamp is between 2,900 degrees and 3,000 degrees Fahrenheit.

For the extraction of rubber from the rubber tree a new process consists in cutting up the bark and roots and soaking in dilute sulphuric acid. This decomposes the woody portions without affecting the India rubber. In this way the rubber and bark and roots are separated.

An extensive building has recently been opened in Leeds (England) to be devoted to the development of clothworkers' research, dyeing, etc. It is the intention of the Clothworkers' company of London that this college should become the leading and most complete example of a textile and dyeing school in the world.

In Strasbourg an engineer has invented a substitute for gutta serena. In ordinary temperature the mass is hard like pitch, and while not being brittle is firm against pressure. It does not break when hammered, even at the freezing point. Thin plates were subjected to the action of sea water with good results.

As the result of twenty-nine years of experiments at Rothamsted, England, it is shown that in the winter months more than half of the amount of rain that falls penetrates into the soil, and becomes available for the supply of springs, while in the summer only one-quarter of the rainfall is absorbed by the soil. The maximum quantity of water in the soil is at a depth of about forty inches.

At a recent meeting of agriculturists in France, the question was debated whether spiders should be suffered to spin their webs on fruit walls. The general opinion seemed to be that the webs were more useful than objectionable. It was remarked that they prevent the incursions of earwigs and similar insects, and also interfere with the operations of noxious flies whose larvae ravage leaves and fruits.

A remarkable effect of the great hurricane of 1898 in the West India Islands was the complete disappearance from the island of St. Vincent of a species of humming bird, which, previous to the storm, had been one of the commonest and tamest birds that inhabited the island. Other species of humming birds, of a larger size, survived the tempest, and are yet to be seen in St. Vincent, but the little bronze-green birds with erected crests, which formerly attracted much admiration, are all gone.

L. M. Loomis, the Californian ornithologist, who has been studying the question of bird migration on the Pacific coast, concludes that those which he has observed shape their course by landmarks, and possess no mysterious superhuman faculty for determining direction, such as some persons have imagined that birds are endowed with. When a fog prevails the birds are bewildered and lose their way. In brief, Mr. Loomis thinks that bird migration is a habit evolved by education and inheritance, and owing its origin to the failure of food in winter.

No one knows just what happens when one drops a lump of salt or sugar into a bowl of water. We may believe with Prof. Ostwald and his followers, that the molecules of sugar merely glide everywhere between the molecules of water, without chemical action; or, on the other hand, dismissing this mechanical explanation, we may say with Mendeleef that the process of solution is the most active of chemical phenomena, involving that incessant interplay of atoms known as dissociation. But these two explanations are mutually exclusive, and no one can say positively which one, if either one, is right.

GENTLENESS IS NOT A VIRTUE.

Some Cases in Which it is Singularly Out of Place.

A young man at the art school had just finished painstakingly sharpening three or four sticks of charcoal for one of the girl students. "Anything more I can do for you?" he asked lingeringly.

"No, I thank you; it was just splendid of you to do this for me."

With a bow and a timid smile of pleasure the young man moved away.

"Isn't he a real nice boy?" asked the girl who had been favored of her friend who sat at the next easel.

"No," was the uncompromising answer of the next girl, who was older and possessed of more vigorous views.

"Why—why—"

"No; he's not a nice boy; he's a real nice girl. He's the most negative specimen of a young man I ever saw. Why, if another fellow stepped purposely on his toes he'd apologize for being in the way."

"It hasn't had that effect. He isn't of the bullying kind. He's muscular now, though his build is so slight that one would not suspect him of strength. He's gaining in firmness and quickness of decision, and his mother tells me that her conscience doesn't trouble her a bit. One of the greatest parental crimes, she thinks, is to turn a girl-boy up into the world. He's only imposed upon now by boys who don't know him—and they never try it a second time. I'm in love with that mother, and her son, whom I used to secretly detest, now challenges my admiration."

"I don't know," said the younger girl dubiously. It is a doubtful matter, to be sure. But there is no doubt that most women like a man or a boy who can fight on occasion.—Boston Transcript.

CRUEL RAILWAYS IN RUSSIA.

They Kill Ten Times More People than Those of Any Other Country.

It appears from railway statistics, recently given to the public in Russia, that the Russian railways kill ten times more persons each year than those of any other country. By similar statistics printed some years back the United States led the other countries in this respect, but since 1893 Russia has had the bad pre-eminence of leading the world as respects the numbers killed yearly in proportion to the numbers carried on its railways. Out of 500,000,000 passengers on the American railways the fatalities are 6,900, including employees; while out of 32,000,000 passengers on the Russian railways the fatalities are 6,107. Including the Siberian railway Russia's mileage is about 25,000 miles, while that of the United States is about 186,000 miles.

The United States commercial agent in Vladivostok reports to the State Department that experiments have been made on the St. Petersburg and Warsaw road with an invention designed to give warning and lessen the deadly effects of railroad collisions. Two wrecking railroads were provided; on the first the sleepers were displaced, on the second the rails were displaced. In both cases the stoppage was immediate by the aid of this device, without outside help and without injury to the moving trains. The essential feature of the invention is an iron tube, of usual construction, connected with the general system of brakes and placed in front of the wheels. At the least irregularity in the movement of the train the tube, in consequence of certain cuts made on it at intervals, breaks, and thus produces the immediate stoppage of the train, locomotive as well.

Posted.

She had met her city cousin at the train, and as they rode down Grand River avenue on the street car she took a prideful pleasure in pointing out the objects and buildings of interest.

He evinced the proper appreciation, making highly complimentary remarks and no belittling comparisons with institutions in his own city. Passing the corner of Grand River avenue and Cass street, where the new G. A. R. structure is approaching lines of architectural beauty, she rapturously exclaimed:

"Now that will be one of our grandest buildings. Don't you think it will be a beauty?"

"What building is it?" he inquired.

"That," she said, with becoming pride, "is the Gar building."

"What's that?"

"What's the Gar building, and it will be just too beautiful for—"

"What is it—a hotel?"

"No-o, not a hotel; it's just a private residence. Mr. Gar, who is immensely rich, is going to live there, I believe."

A faint suspicion of a smile hovered about the mouth of the city cousin as he glanced sideways at his intelligent guide.—Detroit Free Press.

Indians Gave It the Name.

M. Perrault gives an ingenious explanation of the origin of the word "Canada." Giovanni Gaboto, who is also known as Cabot, landed in that country in 1497, being the first European to arrive there.

After him came some Spanish vessels, and in 1506 Denys, a Frenchman, and Verazzani, a Venetian, took possession of the country in the name of France. At that time, says M. Perrault, the French often heard the natives use the Spanish words "Acana," which signify, "nothing here." The natives had picked up these words from the Spaniards who had searched for gold and silver, and who, because they had found nothing, had speedily departed. The French came to the conclusion that the words so often used by the natives were the original name of the country. Another explanation is that Canada means a village or a town.—Review Scientific.

Ungallant.

There is a suggestion of ungallantry in the latest telephonic invention adopted in Paris. Hitherto, in the French capital, as elsewhere, the central exchange has been managed—or, as French telephone users alleged, mismanaged—by women. But when busy men have called up other firms and offices they have often been delayed by the conversational tendencies of the young ladies at the exchange. It is decidedly maddening to have an important telephonic interview punctuated with "He's awfully handsome!" or, "I'm going to wear my pink blouse," and they have determined to put a stop to it in France by superseding the telephone exchange girls by an automatic apparatus.

Heating in Uruguay.

Bits for Bookworms

"A Manifest Destiny," by Julia Ma-gruder, will appeal especially to girls of about 16, as the heroine, Bettina Mowbray, is of the old-fashioned type.

"The Seekers," by Stanley Waterloo, points out the "recrudescence of superstition in the United States," as exemplified in faith cures and similar fads.

"Old Madame, and Other Tragedies," by Harriet Prescott Spofford, is a collection of five stories, all intensifying human agony and replete with dramatic effects.

Within the last year, three of J. M. Barrie's books, "The Little Minister," "A Window in Thrums," and "Margaret Ogilvy" have been translated and published in Germany.

Alan McAnuly, a Scottish writer comparatively unknown in this country, has written a romance of Edinburgh and Scotch rural life, called "The Rhymer," having Robert Burns for the central figure.

James A. Wickersham, a professor of modern languages, who lives in Terre Haute, Ind., has published "Enoch Willoughby: A Novel of the Middle West," dealing with characters of a generation ago.

One million, six hundred and ten thousand copies of the novels of Linn Boyd Porter—"Albert Ross"—have already been sold. He is at work on his twenty-third, the title of which will be "A Sugar Princess."

"Geber: A Tale of the Reign of Harun al Raschid," by Mrs. Kate A. Benton, is said to be a remarkable book—the author's first prose work. It is pronounced worthy to be a companion volume to "The Arabian Nights."

A historical romance, by Mary E. Wilkins, called "The Heart's Highway," has its scene laid in Virginia, in the seventeenth century, though the writer keeps to the realistic style so well known in her New England stories.

A favorite subject of Kipling's was the possibilities of what might happen to a man in a London fog. The idea also struck Robert Barr forcibly, and when I was lunching with him one day he got so carried away by it as to plan a story in which a highly respectable man who hated another highly respectable man was to walk up behind No. 1 in the fog and percolate him with a bowie knife. Then the ghost of the murdered man was to dog the other in the fog and make him "sunking to hisself." I don't know whether the story was ever written. Barr probably got all about it.

LAW AS INTERPRETED.

Publication of charges against a candidate for judge is held, in State vs. Hoskins (Iowa), 47 L. R. A. 223, not to be privileged when they are published outside of the judicial district for which the judge is to be elected.

Right to a mechanic's lien for the improvement of grounds by enrichment of the soil, planting flowers, shrubs, trees, etc., without making any structure thereon, except a rustic bridge of slight importance, is denied in Nanz vs. Cumberland Gap Park Company (Tenn.), 47 L. R. A. 273, where the statutes clearly contemplate such liens shall be created only by the erection of some building.

Authority to set apart a portion of a public highway for a bicycle path is held, in State vs. Bradford (Minn.), 47 L. R. A. 144, to be granted by implication when a statute makes it unlawful to drive animals on such bicycle path, but it is held that this act must be restricted to bicycle paths which are public, and that it would be invalid as to those constructed on private grounds for private use.

Judgment against a solvent garnishee which the plaintiff fails to collect, without any excuse, is held, in Bowen vs. Port Huron E. and T. Co. (Iowa), 47 L. R. A. 131, to constitute a satisfaction of the claim against the original debtor for the amount of such judgment. With this case there is a note collating the other authorities on the effect of a judgment against a garnishee to merge or satisfy the liability of the principal debtor.

Ejection of a trespasser from the footboard of a locomotive, though his presence there does not interfere with the manipulation of the machinery by the engineer, whose position is inside the cab, is held, in Galveston E. & S. A. R. Co. vs. Zantlinger (Texas), 47 L. R. A. 282, to be within the authority of the engineer, when he has possession and control of the engine, so that the railroad company is liable for the wrongful exercise of his authority.

A provision of an insurance policy to the effect that none of its terms can be modified, nor any forfeiture under it waived, save by agreement in writing signed by the president or secretary, is held, in Cole vs. Union Central Life Insurance Company (Wash.), 47 L. R. A. 201, to be inoperative on a person who made a contract for insurance with the general agent and manager of a foreign company and who did not assent or have any knowledge of such a provision or any information that it would be contained in the policy to be issued.

Full and Explicit Directions.

Two bicyclists passing through a small town on the Long Island shore decided to take the train from there home. Being unfamiliar with the place they stopped to inquire of a colored woman the way to the railway station.

"We are strangers," they said; "would you kindly direct us to the station?"

"Certainly, sub," she replied; "Keep a goin' right on till yo' comes to de corner wha de ole postoffice used ter be, den yo' is to 'let' an' yo'll go right to de station."

As they rode off she beamed with pride, but with amusement; and although they found the station they have yet to discover the "corner wha de ole postoffice used ter be."—New York Sun.

Many a man's shattered fortune is due to his negligence in mending his ways.

INSOMNIA

"I have been using CASCARETS for insomniacs for some time, and I can say that Cascarets has given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented to be."—THOS. GILLARD, Eagle, Ill.

REGULATE THE LIVER
CANDY CATHARTIC
CASCARETS

Pleasant, Palatable, Potent, Taste Good, Do Good, Never Sicken, Weaken, or Grip. No. 26, 60c. CURE CONSTIPATION. Suffering Remedy Company, Chicago, Montreal, New York, 218 No. 70-TO-BAG Sold and dispensed by all druggists to 4 U. S. Dispensary House.

Phases of Hunger.

The kinds of hunger are described, and are told, by Drs. Mathieu and Beauchant, and have been named "painful hunger" and "agonizing hunger." The need of taking food generally produces secretion of the gastric juice, and with some persons the excess of acid in this fluid causes pain, which may be allayed by taking an alkali to neutralize it. The variety of hunger referred to above as "agonizing hunger" is characterized by painful anxiety of mind. Those who suffer from it fear that some terrible accident is about to happen to them; they break out into perspiration, tremble, and sometimes lose their reason. If food is taken, all these symptoms disappear.

HOIT'S SCHOOL.

Menlo Park, San Mateo County, Cal., with its new buildings, newly furnished and complete laboratories, beautiful surroundings and home influences, is one of the best equipped schools for the training of boys and young men on the coast. It is in charge of Dr. F. G. Hoit and is accredited at the universities. Send for catalog. Tenth year begins August 6, 1900.

The ordinary string bean, the pods of which are eaten, is a good crop to grow for seed, provided the seed is ground and used for stock. It produces but little vine, but the seed can be broadcasted and when the beans are dry the vines should be pulled up and thrown on the barn floor to be beaten until which may be postponed until winter if preferred.

Reserve of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous membrane, such ointments should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Clark & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Clark & Co. Testimonials free. Sold by Druggists, price 75c. per bottle. Hall's Family Pills are the best.

Every time a rain comes the crab grass will get a start. When very young it can be easily destroyed with a rake or weeder, but give it two or three days' start after rain, with the weather very warm, and considerable labor will be required to get rid of it. It is not difficult to conquer it if taken in time, but the work must not be postponed.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Sensitiveness of Fish.

Most fishes are very sensitive to external touch and some possess special organs for this sense. The seat of greatest sensitiveness is about the snout, but this sensitiveness in fish does not appear to go to the limit by causing it to feel pain from a wound.

Pure Blood Means Perfect Health.

The blood carries all material for repairing the system. Bad blood means bad repairs. Cascarets mean pure, wholesome blood. Druggists, 10c, 25c, 50c.

Mexico's Prosperity.

Mexico in the past nine years has doubled its revenues, doubled its exports, doubled the number of its factories and multiplied by three its banking capital—and the continuance of this great prosperity is now quite as pronounced as ever during the decade.

I do not believe Piso's Cure for Consumption has an equal for coughs and colds.—J. B. Boyer, Trinity Springs, Ind., Feb. 15, 1900.

A Sure Thing.

"Time will tell," said Mr. Wiseman, in oracular tones.

Mr. Soudrop sniffed and observed: "If Time doesn't, some woman will."

It is hardly consistent to say that interest in the Bible is declining while 2,500,000 copies of it are being printed every year.

Worthily of Sin and Suffering.

If there is no sin, sorrow and pain in the world—if it is all an illusion—why did Jesus weep? If there were no pain in His death on the cross, why did He cry: "Father, if it be possible, let this cup pass from Me." If there was no atonement needed, why did He die? He was a man of sorrows and acquainted with grief—how could He sorrow over imaginary afflictions and be acquainted with griefs which had no reality?

Bees may be planted as late as July for a successive table crop. Ground that has been well limed suits well. For stock the sugar beet is considered one of the best. Mangel wurzels grow to large size, but contain more woody fiber and are coarser than sugar beets, though they give larger yields.

Millions for Baseball.

A million of dollars are spent every year for baseball, but large as this is, it cannot equal the amount spent in search of health. We urge those who have spent much and lost hope to try Hostetter's Stomach Bitters. It strengthens the stomach, makes digestion easy, and cures dyspepsia, constipation, biliousness and weak kidneys.

Qualified.

"Do you know anything about drilling?" asked the sergeant.

"Faith, I know all about it," replied the raw recruit. "I worked in a quarry for munny years before I 'lined' the army."

Tired, Weak

This is the condition when the blood loses its vitality. Appetite fails because food cannot be assimilated. Then the strength rapidly declines. Hood's Sarsaparilla corrects matters at once—enriches and vitalizes the blood, creates an appetite and restores health and vigor. Get a bottle of Hood's today and let it do you the same good it is doing others.

Hood's Sarsaparilla is America's Greatest Medicine. Price \$1. Hood's Pills cure liver ills, the non-irritating and only cathartic to take with Hood's Sarsaparilla.

Sweet corn may be forced at the start by using a little nitrate of soda around each hill after the plants are up, but plenty of manure should be used before the seed is planted. It is not difficult to have sweet corn until late in the season if plantings are made once a month, even as late as the first of August, with the dwarf varieties. Stowell's Evergreen is still one of the favorites for a standard crop.

Duty.

Every good deed will find recognition from God, if not from man. God knows when to do it and how to do it. Let us do our duty, and, if the reward does not come, let us not be discouraged. The essence of duty is richer than any reward, and it is vastly better to win it than any reward.

CASTORIA

The Kind You Have Always Bought has borne the signature of Dr. H. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but Experiments, and endanger the health of Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought Bears the Signature of
Chas. H. Fletcher
In Use For Over 30 Years.

(The Famous German Wood Preserver)
..AVENARIUS CARBOLINEUM.. WHICH PERMANENTLY DESTROYS ..CHICKEN LICE AND VERMIN..

One application is all that is required. It lasts for years. If your dealer cannot supply you, write for circulars and information to the following distributing agents: Perfection Pile Preserving Co., Seattle, Wash.; Fisher, Thorsen & Co., Portland, Oregon.; Whittier, Coburn & Co., San Francisco, Cal.

Mitchell Wagons

Are the best that can be made. Nothing is or can be superior to a Mitchell Wagon, because it is made of the best material—by experienced workmen—which, coupled with 65 years' experience in building wagons, during which time the manufacturers have had but one aim, and to produce the best possible to build, is a guarantee of quality. If you buy a Mitchell Wagon, you get the best that can be made. AGENTS EVERYWHERE.—If none in your vicinity, we will sell to you direct. Send for circular.

MITCHELL, LEWIS & STAVEL CO. PORTLAND, OREGON. Branches at Spokane, Seattle, Salem, McMinnville, Medford and La Grande. Mention this paper.

DON'T LET YOUR HARVEST SEASON FIND YOU WITHOUT A STUDEBAKER WAGON.

Made of the Best Materials, thoroughly seasoned, by competent workmen. It stands without an equal. Call on our Agent, or address STUDEBAKER BROS. MANUFACTURING CO., 320-330 East Morrison Street, Portland, Oregon.

Here's a Proposition

Isn't it reasonable to suppose that a firm of 30 years experience could tell you the best way to get good value for your money? If you are making improvements in your house, or building a new house, no matter how small or large the sum you wish to spend in electrical or gas fixtures, fireplaces, mantle furniture, etc., you will save money and be well suited if you consult THE JOHN B. BARRETT CO., 91 First Street, Portland, Oregon.

Dayton's Fly Killer

Used a few minutes evening, will rid your house of Flies and Mosquitoes. No mark or stain left on the ceilings or walls. Works like magic. Price 25 cents. Write for circulars. Dayton Hardware Co., Portland, Oregon.

CLAIMANTS FOR PENSION

Write to H. H. HAWKINS, SICKFORD, Washington, D. C. they will receive quick replies. R. 5th N. H. V. 1st Regt Corps. Prosecuting claimants since 1878.

HARD WORKING WOMEN

Can find quick and permanent relief for serious and strength destroying troubles in Moore's Revealed Remedy. Thousands have used it and thousands now praise it. It cures permanently. \$1 per bottle at your druggist's.

SURE CURE FOR PILES

ITCHING Piles produce moisture and cause itching. They are cured by Dr. Bosanko's Pile Remedy. It cures itching and bleeding tumors. 25c a jar at druggists or sent by mail. Treatise free. Write now about your case. Dr. BOSANKO, Ft. La. La.
