Houston, Tex., Sept. 17 .- The Post today prints a list of 2,701 names of the Galveston dead, compiled from various sources, but believed to be authentic. There were hundreds of bodies burned and buried in the sea and in the sand, where no identicfication was possible. Other hundreds were buried on the beach of the mainland, few of whom have been identified. Some bodies are still in the ruins of Galveston and scattered along the beach of the mainland and in the marshes. where they were thrown by the water. Some of these bodies have been sent 20 miles inland along small water courses by the rush of high waters. Taking all things into consideration there seems no longer any doubt that the number of dead will reach beyond the and in the Southern islands. INTENTIONS OF KRUGER.

Ne York, Sept. 17 .- A dispatch to the Tribune from London says:

The Mail's correspondent in Lourenco Marques learns that Mr. Kruger has resigned the presidency of the Transvaal, but remains a member of the executive. General Botha is said to have been so incensed at the cowardly conduct of his forces that he has resigned now commandant-general. According to a Lisbon message to the Express, Mr. Kruger proposes to set up the seat

of his government at Mozambique. Ian Hamilton is returning to the, railway from Lydenburg; Pole-Carew is pushing east towards Nelspruit: French is making for Barberton. and Buller has divided both his forces and cut off a portion of them from communication with the commandos between Nelspruit and Komatipoort. Lydenburg apprently was abandoned as soon as it was captured, and the British forces are in hot pursuit of the remnant of the Boer army, and driving it eastward to the Portuguese frontier. These tactics are bold, but in accordance with Lord Roberts' strategy since February. Komatipoort is the new objective point, and when it is captured Lord Roberts will be credited with having taken possession of the last Dutch railway line and closed the door into neutral territory. The work of pacification will not have been thoroughly worked out, but the main object will have been secured, as was done when Blomefontein and Pretoria

NATIVE TROOPS.

Question of Replacing Volunteer Troops

Manila, Sept. 17 .- As the time approaches for the volunteers to leave hese islands and return to the United States, in order that all may be mustered out there by June 30 next year, the question of how to replace the departing troops has brought the matter of an armed native militia to general

For more than a year there has been in the service of the United States a detachment of native Macabebe scouts, and their work has in the main been satisfactory. It is argued that other native fighting-organizations can be used with as good a result as the Macabebes, especially if the authorities take advantage of existing tribal hatreds and jealousies in selecting native soldiery to operate against the Tagals.

In many of the village garrisons throughout the islands, native inhabitants are being employed as a local police force to protect their own villages against depredation and attack from robbers and other malefactors. These local police are in some cases given firearms and uniforms, and they have at times done effective work in the limited field of action allowed them, namely the protection of their homes. They have also been used in operations against the insurgents, both in Luzon when they helped eight American soldiers repel a persistent insurgent attack upon their town, and two weeks ago, near Lips, 20 native policemen went out alone against 40 insurgents, scattered the enemy, killing one, and returned proudly to their town with two

of their number wounded. These are the beginnings of what must eventually come to pass in the Philippines, namely the organization and use of native soldiers to preserve order in the county. Just how these men will be organized and officered is not yet decided; but Major Allen, of the Forty-third regiment, on Samar island, has lately been given permission by General MacArthur to organize two companies of Visayans for use against the insurgents, and Colonel Kennon, of the Thirty-fifth regiment, now stationed in Cabanatuan in the Nueva Ecja, province of Luzon, has been experimenting along the same lines with Ilocanos from the northern

pertion of Luzon island. In December of last year, about 600 Ilocanos came to Colonel Kennon, at Cabanatuan, and asked to enlist under the American flag. Colonel Kennon at once opened negotiations with the corps headquarters in Manila in the matter, and June 1 he was granted permission to enlist 50 Ilocanos as scouts. During this intrim of six months the 600 men were employed as far as possible as road builders, ration carriers and guides. The success of this first detachment in the service will probably soon lead to the enlishtment of other Ilocanos tribesmen.

No Violence Has Thus Far Been Re ported-Strike Extends Over a Large Territory.

Hazleton, Pa., Sept. 19.-The great struglge between the anthracite coal miners of Pennsylvania and their employers was begun today. Each side is confident of winning, and neither of the contending forces shows any disposition to yield. The contest thus far has been devoid of any violence.

The exact number of men who struck cannot at this time be told. Reports received by the United Mineworkers' officials from the entire anthracite region were to them most satisfactory. In this territory, known as district No. 7, there are 16,000 men employed in and about the mines. Of this number, it is conseravtively estimated that about 50 per cent obeyed the order of President Mitchell to quit work. Five or renting of any building within the thousand of these belong to the collieries which did not work at all, and the remaining 3,000 to mines which work short-handed. The district south of this place, known as the South Side, was tied up completely with the exception of Coleraine, Beaver Meadow and Carson's Washeries. In this territory the United Mineworkers are yery strong. On the north side, the Upper Lehigh, Minesville, Eberale and Drifton No. 1 collieries, employing about 1,500, are shut down. The mines at Lattimer and Pond Creek, employing 1,200, are wroking full, but every other mine in that big territory is working with badly crippled forces. Three of the Markle mines, over which there has been so much contention. worked all day with abbut 65 per cent of the men. On the West Side every colliery started up today minus its union men, except at the Hazle mines,

where the union miners went to work in consequence of a misunderstanding. Hazleton today presented an animated appearance, strikers from all the surrounding mining towns coming in early in the day and gathering in The Sixth United States cavalry, it groups on the street corners and disis rumored here, has been ordered to cussing the situation. It was a most camp at Yang Tsum, up the Pei Ho, orderly crowd. Around strike headquarters, at the Valley hotel, there was more or less of a crowd of men all day. Messengers bringing information to him from near-by points kept coming regu-

force a passage of the French bridge Mr. Mitchell decided an important point today in the matter of arbitration. Last week the miners employed by G. B. Markle & Co. decided not to strike until the firm had passed upon a set of their own grievances, which differ somewhat from those of the Unitter of Costa Rica at Washington, Sened Mineworkers. The firm has an agreement with its men that if any from the minister of Costa Rica at differences fail of adjustment, then the grievances shall be arbitrated. John Markle, of the firm, yesterday agreed to have Archbishop Ryan, of Philadelphia, arbitrate the differences, if the mediators already decided upon by the firm and the men cannot come to a satisfactory agreement. President Mitchell, however, stated today that he should ask the men employed by Markle to cease work. The men might gain concessions through arbitration. he said, but it was now a case of securing a uniform settlement throughout

the anthracite region. About 100 foreign-speaking miners left Hazleton today, and will take a steamer for Europe. These men expect a long strike, and, rather than remain idle here, they preferred to go to

their former homes. President Mitchell tonight gave out the following statement:

"Information received up to tonight shows that 112,000 mineworkers are on strike in the anthracite region. Of this number, 72,000 are in district No. 1: 30,000 in district No. 3, and 10,000 in district No. 7. Reports received are to the effect that a large number of those who went to the mines today will join in the suspension tomorrow. The number of men now out on strike exceeds that of any other industrial con-

test in the history of our country.
