Why trifle with health when the easiest and surest help is the best known medicine in the world?

Lydia E. Pinkham's Vegetable Compound

is known everywhere and thousands of women have been cured of serious kidney derangements by it.

Mrs. Pinkham's methods have the endorsement of the mayor, the postmaster and others of her own city.

Her medicine has the endorsement of an unnumbered multitude of grateful women whose letters are constantly printed in this paper. Every woman should read these letters.

Mrs. Pinkham advises suffering women free of charge. Her address is Lynn, Mass.

During the year ended May 31 the home circulation of the Chicago public library was 1,749,775 volumes, which the Chicago papers say, exceeds the record anywhere else in the world.

## DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the Eustachian Tube. When this tube gets inflamed, the hearing is lost, and when it is entirely closed, deafness is the result, and unless the inflammation is undertaken speedily and executed conformably with right and justice.

## Bryan's Two-Faced Platform.

It is a pity for Bryan that there is no way of having expurgated or censored for reading in the West, his Eastern speeches about the paramountcy of "imperialism." Free silver believers in the Western states cannot relish the Democratic Eastern talk that the 16 to 1 plank in the platform does not mean anything, except a trick for catching votes in the silver states. And if anti-expansion is paramount to free silver, these same people well wonder what their own place can now be in the Democratic party, expansion being a policy they themselves view with paramount favor.

In this age of easy communication between localities, it is not possible for principles of a party to be confined to one part of the country secreted from other parts. In the wholesale desertions from Bryan of Silver-Republicans like Senator Stewart, of Nevada, and ex-Senator Maudslowi, of Montana, there is interesting proof that a modern Janus-faced statesman cannot stand much show of success. He cannot talk from face No. 1 without the impudent telegraph instrument telling it to those for whom the words from face No. 2 were meant, and vice versa.

**Silver and Savings Banks.**  
The volume of savings banks' bank deposits and what free silver would mean in reference to them, is a boundless subject. Take, for instance, the state of New York and read what the New York World, a leading Democratic organ, says upon the subject: "From the annual report on the savings banks of this state it appears that 415,370 new depositors took out books last year. The total deposits were increased by \$15,853,004 over the total of the previous year.

The savings banks of New York report 2,036,017 depositors. They are creditors of the banks for money on deposit at interest amounting to the huge sum of \$858,443,277.

This shows that there are 858,443,277 reasons, every one of them worth a sound dollar, why the vote of New York will not be easily secured for the proposition to pay back 100 cents deposited 'as good as gold' with 50 cents' worth of silver.

Teacher (after some explanation)—Now, children, what is an epidemic? Bright Scholar—It's where everybody gets sick and we don't have to go to school for ever so long.

## Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and healthy nourishment which every sufferer requires. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Keil, of 707 Ninth street, N. E., Washington, D. C., writes as follows: "A few months ago I had a severe attack of rheumatism in its worst form. The pain was so intense that I was unable to get up. I was completely prostrated. The attack was unusually severe, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having filled twelve bottles without receiving the slightest benefit, I declined to continue his treatment any longer. Having heard of S. S. S. (Swiss Specific) recommended for Rheumatism, I decided, almost in despair, to give the medicine a trial, and after I had taken a few bottles I was able to get up and about. The next day I was cured. I am happy to be able to give my name and address as a testimonial to the great vegetable purifier and tonic, S. S. S. It is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

## WHAT WE HAVE PROMISED.

The Philippine Policy Is Fully and Succinctly Stated.

As Against Bryan's General Idea of a Stable Government, the Republicans Place Their Programme in Full.

Certain Democratic and semi-Democratic papers are much troubled by an alleged lack of an affirmative Republican policy in the Philippines. It is true that the Republican party now occupies pretty much the position Lincoln held at the time of his death in respect to reconstruction, namely: that it is not absolutely and irrevocably committed to any policy. It is a considerable extent feeling its way, and the policy in the Philippines will be not to deal with some events and problems until they arise. At the same time the administration has announced and declared a general policy of a clear and comprehensive character.

The Philippine commission in its proclamation to the people of the islands gave a clear and comprehensive outline of the general policies of the administration. They were in substance as follows:

- (1.) The supremacy of the United States to be recognized throughout the islands.
- (2.) The fullest self-government to be granted which is compatible with a just, stable, effective and economical administration and with the sovereign authority of the United States.
- (3.) The civil and religious rights of the Filipinos to be assured with the equal standing of all before the law.
- (4.) An honest civil service with the natives preferred. No exploitation of the people.
- (5.) Honest collection and disbursement of taxes. Local funds not to be used for other than local purposes.
- (6.) A pure, speedy and effective administration of justice in the courts with protection for the rights of all.
- (7.) The promotion of railroads and other means of communication and transportation.
- (8.) Domestic and foreign trade and commerce and the promotion of native industry to be the constant purpose of the United States.
- (9.) Ample provisions for free schools for all the children of the people will be educated. Appropriate facilities also for higher education.
- (10.) Reforms in all departments of government, all branches of the public service and in all corporations closely touching the common life of the people, to be undertaken speedily and executed conformably with right and justice.

Pledged to these purposes the United States warned the rebellious Filipinos, who are estimated to constitute less than five per cent of the population, that they could accomplish nothing by their resistance except their own ruin.

It is a pity for Bryan that there is no way of having expurgated or censored for reading in the West, his Eastern speeches about the paramountcy of "imperialism." Free silver believers in the Western states cannot relish the Democratic Eastern talk that the 16 to 1 plank in the platform does not mean anything, except a trick for catching votes in the silver states. And if anti-expansion is paramount to free silver, these same people well wonder what their own place can now be in the Democratic party, expansion being a policy they themselves view with paramount favor.

In this age of easy communication between localities, it is not possible for principles of a party to be confined to one part of the country secreted from other parts. In the wholesale desertions from Bryan of Silver-Republicans like Senator Stewart, of Nevada, and ex-Senator Maudslowi, of Montana, there is interesting proof that a modern Janus-faced statesman cannot stand much show of success. He cannot talk from face No. 1 without the impudent telegraph instrument telling it to those for whom the words from face No. 2 were meant, and vice versa.

## What Democracy Means in 1900.

Join the Democrats and what does it mean?  
Answers—Helping to cheat American labor with 42-cent dollars. Helping to close mills and put honest workmen out of jobs. Helping to "bust" banks and wipe away savings. Sympathizing with the shooting of "singles" and the stuffing of ballot boxes. Helping to haul down the American flag over the Philippines. Helping to throw away the fruits of the most remarkable naval victory in history. Helping to withdraw troops from Manila so that the horrors of Peking may be repeated and the native allies of the United States be slaughtered by thousands that Aguinaldo may have his revenge. Helping to give away our markets and our territory to other nations. Helping to restore the spoils system in the civil service. Helping to degrade the supreme court of the United States.

## Labor Has Steady Employment.

The prosperity of Chicago at the present time is admirably reflected in the "want advertisement" columns of the newspapers of that city. Of course a relative increase in the number of advertisements for "help wanted" means that there is a tendency for positions to seek men instead of men seeking positions—in other words that the opportunities for employment are more abundant.

## GERMANS STANDING FIRM.

They Supported Lincoln Once as They Support McKinley Now.

Mr. Bryan has opened a Pandora box in quoting so profusely from Lincoln. Not only was Lincoln arraigned by the Democrats in 1864 as acting the part of an emperor and "sitting enthroned in the White House," but he was denounced specifically as McKinley is now for violating the Declaration of Independence and governing without the consent of the governed; and as if to make the parallel absolute complete, there was also a determined movement in 1864 to turn the German Republicans against Lincoln.

Lincoln, of course, could only expect the denunciation of the copperheads who thought the consent of the governed doctrine forbade the suppression of the rebellion. The mainstay cut off all was that Republicans should go off into opposition against him, but there were Buttrits in that day. They held a "liberty convention" and nominated Fremont, because forsooth, Lincoln was not a good enough Republican for them. This was bad enough, but there are always some cranks, extremists and malcontents. The worst defection threatened—the one most trying to Lincoln and his supporters—was one projected in the name of the German Republicans.

As late in the campaign as September 21, Horace Greely said in the New York Tribune:

"Until a short time ago it seemed as though nearly the entire vote controlled by the German National clubs would be lost to the Republican party. But the keen-sighted Greely now saw how the Germans had been misrepresented. He now made bold to predict that Lincoln would get an overwhelming majority of German voters and a few weeks later in November, that prophecy was made good. The men who predicted a great German defection from Lincoln had reckoned without their host. The Germans instead of being carried off on a tangent had coolly and calmly reviewed the situation. They saw the folly and fraud in the cry of imperialism against Lincoln and the preposterous dogmas about the consent of the governed and the Declaration of Independence. They dismissed the utter folly, the charge of Lincoln 'sitting enthroned at the White House' and setting himself up as an emperor. They rallied to Lincoln's support in November, and indeed it is to be said that without the help they gave, Lincoln could not have been re-elected. He had no truer or firmer friends than the Germans at home and the boys who 'fought mit Sigel' in the field, and sent their Lincoln ballots home to be counted."

**Morgan's Straight Talk.**  
Senator John T. Morgan, of Alabama, though a leading member of the party which is trying to prove that Republican policies are "imperialistic," is not afraid to give the McKinley administration policies credit for being the opposite of "imperialistic."

An interviewer for a Southern paper asked him: "Do you approve of Secretary Hay's policy in negotiating with the Chinese?"

"Thoroughly," came the emphatic reply. "Mr. Hay has been wise and statesmanlike, and his course has been beyond criticism. He has reflected credit in a remarkable manner on this government abroad and has excelled the achievements of the foreign chancelleries."

**Oriental Trade Growing.**  
It is especially interesting to note that our exports to Asia and Oceania are gaining with a greater proportionate rapidity than to any other part of the world, our total in 1890 amounting to \$857,828,684, and in 1900, were \$1,394,479,314, an increase of 63 per cent; to Europe our exports in 1890 were \$688,736,397, and in 1900 were \$1,040,167,312, an increase of 52 per cent; to North America our exports in 1890 were \$94,100,410, and in 1900 were \$187,209,318, an increase of 100 per cent; to Oceania our exports in 1890 were \$1,460,265, as against \$47,390,927 in 1900, or an increase of 164 per cent; while to Asia our exports in 1890 were \$19,698,820 as against \$64,913,984 in 1900, or an increase of 234 per cent.

The silk worm was originally found in China, and fabrics of this material were made in that country about 2,700 B. C. About 900 yards of silk are produced by a single worm, and there are nearly 13 pounds of waste silk, designated as "thrown silk," for every pound of good silk.

The average annual total of water which falls as rain or snow in the United States is 1,407 cubic miles. This amount of rain would more than twice fill Lake Ontario. **Righteousness Versus Rights.**  
The golden rule is not a "bill of rights." Rather does it represent the will to do right. It is the teaching of Christ the word "rights" finds no place; but the word "right" or "righteousness" occurs with exceeding frequency. True, no man ever did so much as Jesus to secure the rights of every member of the human race. Woman's rights, children's rights, the rights of servants and masters, the rights of the poor and the weak and the ignorant, all have found an increasingly clear recognition and respect with the spread of the gospel. Yet this has come about by the persistent inculcation of the principle of right and the equally persistent restraining of the spirit which demands "my rights."

**French Style of Starting Foot Races.**  
In an American sprinting race the starter orders the runners on their marks, then tells them to "get ready," then calls out "set" and a couple of seconds later fires the pistol. At the Paris races the starter ordered the men on their marks, called out "attention" and fired the pistol so soon afterward that the Americans could not get into a crouching position. After the first heat or two the Americans were always set by the time attention was called and started at the word instead of pistol, thus gaining a yard or two.

**A Much-Married Centenarian Turk.**  
In the village of Bodra a Turk named Imail, aged 120 years, is in such good health that he frequently takes to Berlin, six hours distance, to sell eggs, for he is a poultry dealer. He has had 84 wives, the last of whom he married only a few days ago. The bride is 60 years his junior, and the marriage was celebrated with much solemnity in the sound of drums and fifes and of volleys from firearms. The whole village was in fetes. The wedding procession included all the male progeny of the patriarch bridegroom, consisting of 140 sons, grandsons and great-grandsons. The number of his female progeny is not stated.

It always has been the one for indigestion, dyspepsia or kidney troubles.

The storage and keeping of apples is a matter of great importance where there is a large crop. The main point is to keep them cool. It is warmth, not cold, that injures them. Some one who has tried it states that apples can be kept in water at a few degrees above the freezing temperature. The majority of growers pack them in barrels and store them in a cool cellar, first picking out every imperfect specimen.
