It does not now seem at all probable that any improvement can be made on the Philomath road this winter. Hon. Wallis Nash addressed the citizens of this community at the court house Saturday evening. While the meeting was hastily arranged and little opportunity was had to advertise it, the court house was comfortably filled. Mr. Nash's effort was scholarly, and his handling of the various subjects marked the student rather than the exhorter. Reason, not prejudice, was appealed to, and the audience put on its thinking cap and kept it there during the evening. This was Mr. Nash's last speech of the campaign, and he returned home Monday after an absence of three weeks.

What is said to have been the most successful and enthusiastic political meeting ever held in that precinct, occurred at Oak Grove school house Friday evening. The voters were out in force and the speakers and quartet were applauded to the echo. Nothing was said to offend the most ardent Bryan man, and if there were any supporters of the Nobsaskan in the audience they gave the speakers respectful hearing and joined the republicans in having a good time. Short addresses were made by Messrs. J. B. Irvine, O. E. Woodson and Geo. L. Paul, and numerous selections were rendered by the quartet, Messrs. Johnson, Prichard, Colvig and Baker. Indications are that Fairmount precinct will be carried by the republicans this election.

Land Grants to be Opened.

Mr. Wallis Nash was in Corvallis, Saturday, and was prevailed upon to deliver the last address of the campaign at the court house in the evening. Mr. Nash's home is at Nashville, Oregon. He says that in the last two years there have been 1000 new settlers located in Lincoln county.

"The county is having a marvelous growth, from 10 to 20 new people arriving every day. They are mostly Scandinavians from Minnesota and Wisconsin, and they make the best kind of settlers. There is but little government land which has not been taken up by this time. All of the good timberland has been located on, but agricultural land can be bought at a low figure. The new settlers are for the most part going into dairying and stockraising, and they are clearing up the land at a great rate. One thing of importance which has not been made public to any extent is the fact that the land grants on the Corvallis & Eastern line are about to be opened up, and the land placed on the market. There are between 70,000 and 80,000 and it will sell all the way from \$2 to \$4 an acre. It is all agricultural and grazing land, and much of it can be used for orchards. The fruit we have raised is of the finest, and few of the ordinary diseases which bother the orchardists are apparent. There are no codlin moths on the western slope, and the apples are of the best quality. There is a large tract of barren land between that slope, and the Willamette Valley, and the codlin moths have not crossed it." Mr. Nash has a large stock ranch, with which he has been doing well. Steers were sold this year for \$40 that were not worth \$22 four years ago.

Mr. Nash has been in Josephine and Lane counties the past two weeks, in the interests of the republican party, and says the outlook is promising for McKinley. He says the republican managers in Josephine county hope to reduce the majority of 350 which Bryan received in 1896. In Lane county Mr. Nash visited fishermen and loggers west from Eugene to the coast, and says that at one meeting of saw mill men, attended by 50 persons, there were only two of them who announced their intention of voting for Bryan. Everywhere he has visited, it is reported that McKinley will receive an increased vote.

Individual Opinion. EDITOR GAZETTE:—By your kind permission I would like to say a few words about those muddy, rough rock crossings on Main street. I shall offer what I consider a reasonable suggestion: Take up the rocks on those four crossings, and sell them to some one who is building for a foundation. They are as good as new and would likely sell for money enough to pay for the lumber to build good plank crossings. These crossings should be 8 or 10 feet wide and that they should be put on a level with the sidewalks, instead of a twelve inch jump down, as is now the case on the corner at Allen's drugstore.

I never could see any good reason why the sidewalks on Main street should be ten feet wide, and the crosswalks only a little over three feet. It seems to me that the sidewalks and crossings should be of a uniform width.

I hope the council will take immediate action upon this matter, as these rock crossings have been very unsatisfactory from the beginning. AN OLD CITIZEN.

Thursday—"The great importance of the Parsonage Department of the work, and what has the Society done toward providing homes for our preachers?" by Mrs. Curran. "Why should boxes of supplies be sent to our preachers, and not money?" by Mrs. P. A. Moses.

These discussions will be interspersed each day with songs, Bible readings and prayers. Offerings will be made for the various objects of the society, as these departments are brought before the public each day.

A Phillippine Soldier.

Arthur T. Peoco, a member of Company M, 39th Regiment, U. S. V., stationed at Santo Thomas, Phillipine Islands, has written the following letter to his parents, and it is published in the Salem Statesman, as follows:

"The anti-expansionists at home have simply ruined all prospects of any peaceable termination of the troubles here, at least until after election. They have discouraged our men and encouraged our enemies. Even admitting the soundness of their views, they are guilty of the highest treason, and hundreds of deaths must of necessity be laid at their door. They (the natives) have the greatest confidence in Mr. Bryan, and they do not hesitate to tell us that as soon as he is elected the soldiers will be sent away and they will run things to suit themselves.

"I was down at Calamba a few days ago and saw a large picture of Mr. Bryan stuck up on a native's hut. They all firmly believe that he will be elected in November, and they also believe the anti-expansionists are largely in the majority in the United States. From their point of view they can see it in no other light.

"It makes me weary every time I see in one of the States' papers where some anti is shooting his head off about these poor downtrodden people over here, and how they are being imposed upon by the Americans, and yet these people who are doing all the talking do not know any more about the true condition of affairs in the islands than I do about preaching a sermon. In the first place they are better off now than they were ever in their lives before; have more liberty and more to eat and are making more money.

"What hurts us most is what the papers at home say about us. What can we do? No soldier can say for himself, 'This war is not right and I'll not fight.' The majority of us will be glad when we can return to civil life. We are all tired of it but we cannot leave until there is a big change in the situation. In the meantime, we need encouragement, instead of being branded as murderers, robbers and desperadoes.

"I don't believe you will find a man in the service here who would be willing to give up these islands. It keeps a fellow guessing. I don't know what to make of it. I have been a democrat all my life, and was always a great admirer of Mr. Bryan, but I cannot for the life of me see how a man conscientiously can be a follower of Bryan and fight under the Stars and Stripes at the same time."
