THE PAN-AMERICAN

Arrangements Nearly Completed Will Open May 1.

BUFFALO, N. Y., March 18.-It has been decided to open the Pan-American exposition May 1. At that time the Pacific coast. It is proposed to connect the president's train by telegraph with the temple of music. Direct telegraphic communication will also be established with the executive offices of the presidents of all the republics of the Western hemisphere and the governor general of Canada. At precisely 2 o'clock, Buffalo time, they will all be requested to touch electric buttons in their offices, which will start pieces of machinery at the exposition. At the same time it is expected that each will transmit a

nessage of greeting.

President McKinley, from his special car, surrounded by his cabinet, will then start the great fountain pumps, and will transmit over the

wires a message of greeting. May 14 it is proposed to hold im-posing dedicatory ceremonies when it is expected that Vice-President Roosevelt, Governor Odeli and a large number of national and diplomatic officials will be present. A day, prob-ably between June 9 and 12, will be designated President's day, when President McKinley and his party, on the return from the coast, will be

Taft Commission's Plan.

New York, March 16.—A Washington dispatch to the Times says: The Taft commission has been or-dered to forward to the war department its recommendations for the form of government to be adopted in the Philippines. This is in accordance with the original instructions, by the terms of which the commission was to prepare such recommendations whenever ordered to do so. The time has come, in the estimation of the president, when plans for the government of the Philippines may be sub-mitted for his consideration. No intimation of the nature of the scheme has yet been received. The commission, it is declared, has not received any suggestions from Washington, but has been left entirely unham-pered. It may propose any form of government it thinks fit.

Demand on Sultan of Morocco. New York, March 16 .- A special to the World from Washington says: The cruiser New York will stop at Tangier on the way to Manila, and take on board Consul General Gummere, who will be conveyed to the nearest port to the Moroccan capital. The consul general is to demand that the sultan settle the claim of Ameri-can citizens against his government. The New York will await the return of the consul general. The consul general could make the trip from Tangier on merchant vessels plying in those waters, but it has been the policy of the administration to impress the sultan by a naval demonstation in Moroccan waters.

India's Population Stationary. Calcutta, March 18.-Complete census returns give the population of India as 294,000,000, an increase in the last decade of 7,000,000. Deducting the population of the Baluchistan, Shaustaksat, Chion hills and Sikkim territory, enumerated for the first time, a net increase is shown of only 1.4 per cent, which is due to improved sus methods. Thus, the population is for the first time stationary. Owing to two famines, mortality disease and a great decline in the birth rate, the native states show exces-

Old Crop Sold and New Crop Being Contracted in Yakima Valley. NORTH YAKIMA, Wash., March 20.—The hop crop of 1900 has been sold, and contracts are being made ing the progress of a fire today at the Fire in a Boston Newspaper for the output of Yakima for the coming season. Buyers from Portland are here cleaning up the remnants of last year. They report only 43 bales of the crop of 1900 on hand. The last sales ranged about 14 cents, although some have been made at 18 cents a pound. The indications are favorable for a good crop this year. All the yards are being cleaned and put in shape. Estimates place the Yakima acreage at 2,400, yielding

an average of 1,600 pounds.

Vigorous Protest to the Venezuelan Government

HAS BEEN LODGED BY MINISTER LOOMIS

American Minister Informs South American Government That Interference With Our Officials Must Cease.

WASHINGTON, March 20. - The state department, through Minister Loomis, recently lodged a most vig-orous protest to the Venezuelan government against further interference with Mr. Balz, the United States consular agent at Barcelona, Venezuela. It knows nothing of the last reported infringement of his liberty, but it is presumed that the affair is connected directly with the troubles which led to the first protest. Ig-nacio M. Baiz is not a citizen of the United States, a fact that may add to the difficulty which our government will expect in protecting him, as it is determined to do. He was born in St. Thomas and is a native Danish citizen, so far as is known here, but, having an exequatur issued by the Venezuelan government recognizing him as a United States consular agent, the state department has decided that he is entitled to the protection of the United States government. It appears that he is engaged in business and became involved in trouble with the Venezuelan military by resisting an attempt to collect a forced loan from him. More than a month ago the state department forwarded its instructions to Minister Loomis to represent to the Venezuelan government that these annoying interferences with our officials must cease, but so far no results have appeared.

Morocco Must Pay. Washington, March 20.—The state department is giving renewed atten-tion to the settlement of the claims against the government of Morocco. The claim of Marcus Ezagui, who was murdered at Fez in June last, has been adjusted by the payment of \$5,000, but there are other claims equally meritorious which have not been satisfactorily adjusted. Recently the state department gave these con sideration, all efforts on the part of Mr. Gummere, the consul-general at Tangier, to adjust them having proved ineffective. Under these circumstances, a special mission seems near. Instructions to this end today were sent to Mr. Gummere, as well as a further instruction to demand an apology for an apparent discourtesy on the part of the grand vizier and the minister of foreign affairs in attempting to defeat the purpose of the state department to dispatch a special mission to Morocco City.
