Albany has just got out of a village custom. It is somewhat startling to read an official notice from the chief of police in the Albany papers that hereafter throwing of baseballs on the principal streets will no longer be tolerated. We wonder if the Albany business men also play marbles and pitch horseshoes to while away the time when customers are lacking? Any employment is better than idleness.—Eugene Guard.

Thos. Bell, of the Charter Oak Milling company, came up from Soap Creek last Friday. He states that the company's mill is doing exceedingly good work, and is capable of cutting about 7,000 feet per day, also that they have an excellent local market, and that inquiries are coming in from abroad relative to the possibility of the company filling orders for outside markets. The mill is now located near John Smith's place. It was not operated Saturday on account of the scarcity of logs and it was necessary to give the loggers an opportunity to get a supply of logs ahead. They are sawing oak and fir.

The revival meetings closed at the M. E. church, Sunday evening. There was a very large audience, and a splendid address by Evangelist Marshall. Since the meetings opened about ten days ago, there have been in the neighborhood of about 60 converts, the names of about 40 of which have been added to the roll at the M. E. church. Rev. Marshall left Monday for Junction.

M. J. Ervin, the police officer who disappeared after borrowing money from his brother officers, is still a member of the force. No action has been taken in his case by the commissioners and the chief has not even suspended him. This delay was taken in order that the man might come back and explain matters, but as all hopes of his doing so have vanished the commissioners will probably declare his position vacant at the next meeting of the board.—Telegram.

W. H. Franklin returned home Saturday from up on Greasy. He furnished Prickett Bros. & Logan's mill with considerable fixings, etc., and was out there putting the machinery in order. This is a water-power mill and was at one time known as the John Huffman mill. The waterwheel has been enlarged so that there is a greater power, but practically the same sawing gear has been retained. With a good head of water the mill is capable of cutting 20,000 feet per day. An industry of this nature deserves encouragement, as it is in every sense a home industry.

The following from the Albany Democrat goes to prove that two legs are not altogether necessary for a man to get uproariously drunk on: Two one legged men, who had previously been driven out of the city, returned to Albany last night, and about 9:30 o'clock, after being thoroughly ginned up, with three other tramps proceeded to take the depot, or rather one of the one legged men did. But he didn't take. Elton Connoway made a home run all over him, and he was held there by three of the employees, while the chief of police was sent for. Mr. Coates handcuffed the man and he and the other one legged man, who claims to be his uncle, were put in the calaboose, and the next morning Recorder Van Winkle gave them ten days in the calaboose on a diet of bread and water. The other three men skipped out in the dark and left the city.

Games music and the rendition of a program occupied the hours, and a banquet concluded the evening's entertainment.

The May Festival of Music terminated Friday night at Albany, with the rendition of the oratorio "Creation." A special train went down from Corvallis on this evening and about 100 of our music lovers embraced this opportunity to hear this oratorio rendered. After the musical part of the program was concluded Friday night, a business meeting of the Choral Union was held and it was decided to hold the Festival next year in Corvallis.

At Dusty experiments have been in progress for a couple of weeks on a morphia fiend by the name of Charley Bowen. Dr. Bennett, of that place, has been conducting the medicine part of this experiment. For the first few days the patient is reported to have shown no signs of the lack of "dope" having affected him. He was searched and it was found that he had a quantity of the drug secreted in his belt. His own wearing apparel was taken from him and a new outfit supplied, a man was also hired to keep guard over him. For a time he was exceedingly violent, but at present he is thought to be somewhat improved.

Miss Lulu Beryl Daniel.

After an illness of many months, Miss Lulu Beryl Daniel died, Saturday evening, May 11, 1901, aged 19 years, 7 months and 28 days. She was a victim of the most dread of all diseases, consumption. The funeral services will take place at the United Evangelical church, at noon today, and will be conducted by Rev. L. M. Boozer. The remains will be taken to Lafayette, where interment will occur at four o'clock this afternoon in the Masonic cemetery.

Miss Daniel was born in September, 1881, in Yamhill county, Oregon, and lived there until 1892, at which time she went to Southern Oregon with the family. Here she remained until the winter of 1897-8, at which time she came to this and remained several months, keeping house for her brother, who was going to college here, and studying music under Miss Nash.

In 1898 her health began to fail and she was sent to Santa Rosa, Calif. After residing a brief period there she returned to her home in Southern Oregon, and remained until the spring of 1899. She was never of a robust constitution and during the past fall and winter she began to fail.

Miss Daniel was a member of the United Evangelical church of this city, and was a most devoted and earnest supporter of christianity in its broadest sense. Although aware that her time on earth was nearing a close, she was resigned and patient to the last. She leaves a host of relatives and friends behind who keenly feel her loss, and mourn that one so gifted and estimable should be taken from earth when life was just reaching full bloom. Of her immediate family, a mother, sister, and two brothers survive her.

Meets Here Next Year.

Thanks to the earnest and effective efforts of Mr. Wallis Nash, Corvallis will be the place of meeting of the Willamette Valley Choral Union next May. So able an advocate did Mr. Nash prove for Corvallis' claims to the next meeting, that this city received almost the unanimous vote of the union. No city in the valley has so excellent a place to present the oratorios as the O. A. C. armory; the citizens of no city in the state will give more cordial support to the enterprise; a number of cities on the West Side will be in a position to assist for the first time; the college will take a leading part and furnish a chorus of at least 75 voices, and best of all, Mr. Wallis Nash has agreed to assume the direction of the local organization.

This is to be made the most successful meeting of the union, and that is saying a great deal, for the one just closed at Albany set a high mark both in an artistic and financial way. The program for the festival next May has been selected. The first evening will be given over to a popular concert, when an orchestra, composed of 30 of the best musicians in the state, who have never been heard in valley towns, will be the principal feature. The second evening Mendelssohn's "Hymn of Praise," and Goring Thomas' "Swan and the Skylark" will be the bill, and the closing night Haendel's "Messiah" will be produced.

At the business meeting held in Albany, Saturday afternoon the following officers were elected: President, Hon. Wallis Nash; vice-presidents, Bert Johnson, Corvallis, Prof. E. D. Reseller, Eugene, Prof. Francisco Seeley, Salem, C. E. Sox, Albany; secretary, Prof. John Fulton, Corvallis. The matter of choral societies from other towns joining the choral union was left with the executive committee.

Pamphlet on Plants.

The government has just published a preliminary report on the poisonous plants of the stock ranges of Montana and adjacent states, a report of much value to cattle and sheep raisers. The report is edited by V. K. Chestnut and E. V. Wilcox, of the United States Department of Agriculture, and contains not only a detailed account of the investigation and experiments made by the authors, but also concise summaries of symptoms, treatment and remedies, which bring the results of the discoveries to the point of practical application by stockowners. By reason of the fact that only 1,000 copies were authorized to be printed as a first edition, the department, realizing the worth of the book or bulletin, has recommended that an extra edition of at least 5,000 copies be printed and distributed among the people who can profit by it. The report refers chiefly to investigations made during the year 1900, but investigations made throughout the eastern part of Oregon and Washington show that conditions existing in Montana are much similar to those of the former states. The report is

illustrated with 40 excellent half-tone productions of poisonous plants. This work will likely prove interesting and instructive to our stockraisers who are awaiting for the appearance of the bulletin which will contain the result of the research and investigations recently made in Eastern and Central Oregon by Profs. V. K. Chestnut and E. R. Lake.

Died in Manila.

A cablegram to his sister last Thursday, announced the death of Harry Rogers in Manila, Philippine Islands, Wednesday, of dysentery. Harry left Corvallis, July 2, 1893, in company with other volunteers from this city. October 23, following, with his comrades he sailed for Manila. He took part in all the battles of the campaign up to the time of the muster out of the 2nd Oregon, and he was a good soldier. When his regiment returned to America, he remained in the islands. A recent letter stated that he intended visiting this city this fall.

Harry Rogers was born in Albany, Oregon, December 20, 1868. While yet a lad he moved to Corvallis with his mother, and although absent a great deal in later years, he always called this city his home. He served his apprenticeship in the printers' trade in the office of the Corvallis GAZETTE. He was well known by the fraternity of the entire coast.

Among expected arrivals from the East are three families from Fayette, Iowa, who leave about June 1st, for the Willamette valley. The news is contained in a letter to Mrs. Lucy Francisco received Saturday. Two of the families will probably locate in Corvallis or vicinity. Many a student of the O. A. C. is looking forward with dread to next Saturday, Sunday and Monday. The cadets leave Saturday for the scene of the second annual encampment, near Cardwell hill, on the Kings valley road. For three days they will live like "real soldiers," and to many of the boys the prospect is not enticing. The return to Corvallis will be made on Monday.

There was quite a breeze of excitement in the south part of town Sunday afternoon. A two-year-old lad, wearing a huge derby hat, playing along the walk. Whom he was or from whence he came, none knew. Residents of the vicinity finally became uneasy, and thinking the child a wraith, Alfred Johnson made inquiry at the telephone office. Mrs. Charlie Chipman appeared at this point, and the tot was restored to its rightful keeper.

Justice Clark was brought before Justice Holgate yesterday morning on a charge of embezzlement, pleaded guilty and was given 10 days in jail. Clark has been employed by the Harris brothers at Soap Creek for the past five years. He came to town last Friday and was given a check for \$20 to cash for one of the Harris boys. He received the money and took the train for parts unknown. A warrant for his arrest was placed in the hands of Sheriff Burnett, Saturday afternoon at 4:30. He immediately wired to all nearby towns. In a few minutes a message from Constable Wagner of Cottage Grove stated that Clark had been captured in that city. Clark has borne a good reputation, and his recent transgression is said to have occurred while he was under the influence of liquor.

BANNER SALVE the most healing salve in the world.

Question Answered. Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mother and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to cleanse out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac.—Graham & Wortham.

You will waste time if you undertake to cure indigestion or dyspepsia by starving yourself. That only makes it worse when you do eat heartily. You always need plenty of good food properly digested. Kodol Dyspepsia Cure is the result of years of scientific research for something that would digest not only some elements of food but every kind. And it is the one remedy that will do it.—Graham & Wells.
