THE ARTILLERY ARM.

Secretary of War Will Increase It to Full Strength.

Washington, May 13.—Secretary Root is a man to whom wide discretion in the matter of interpreting and administering the laws might have been given. This is shown in his determination to increase the artillery corps at once to its full strength.

Another thing where Secretary Root showed his judgment was in construing the stupid provision of the Spooner amendment to the army bill relating to the Philippines.

AUSTRALIAN PARLIAMENT.

First Under the New Federation Opened by Duke of Cornwall.

Melbourne, May 13.—The opening of the first federal parliament which took place at noon was a most impressive ceremony. The capacity of the exposition building, the scene of the ceremony, is 12,000 people, but the available space was taxed to the utmost.

The doors were opened to ticket holders at 9 o'clock in the morning, and by 11 o'clock the auditorium was filled except the royal dais. This was located beneath the great dome. It held a single row of chairs, the largest in the center being surrounded by a small gold imperial crown.

\$800,000 FIRE.

Suburb of Detroit the Scene—Blaze Started in Idle Mill.

Detroit, May 14.—Fanned by a 35-mile-an-hour wind, fire this afternoon swept the west bank of the Rouge river in Delray, a suburb to the south of Detroit, for three quarters of a mile, and destroyed over \$800,000 worth of property.

The fire originated in the roof of a saw mill. The plant has not been running for several months and the roof was as dry as tinder. The building was soon in ashes and the fire swept across a block to where a dredge was tied up. Despite the efforts to save her, this craft was burned to the water's edge. Great embers were picked up by the wind and dropped in several directions, setting fire to buildings.

Delray has a small fire department, which responded with three engines and the fireboat Battle. Even the greatest streams of the fireboat were powerless to check the flames which were rolling down the river bank for hundreds of feet. When darkness fell the glare from the burning poles illuminated the sky for miles. The firemen worked on the fire almost all night to keep it from spreading to other property.

A TRICKY BANK TELLER.

His Scheme for Making Money Led to His Arrest.

New Orleans, May 14.—Samuel Flower, paying teller of the Hibernal National bank, has been arrested here charged with a shortage of \$36,000. The Fidelity & Deposit Company, of Baltimore, is on Flower's bond for \$25,000. It is alleged that Flower, expecting an examination, sent to another bank in this city a government sealed package said to contain \$40,000 and received in exchange for it \$40,000 gold clearing house certificates of the denomination of \$5,000 each.

His cash having been counted by the National bank examiner the evening before and found correct, it is alleged he returned the clearing house certificates to the bank from which he had received them and received in return his unbroken government package, said to contain \$40,000. This package was received by the Hibernal National Bank from the sub treasury, of this city, in March last, and contained \$4,000 in \$1 bills. It is alleged that Flower had preserved the label from an old government package that did contain \$40,000 in denominations of \$10 each, which he pasted on the package, containing only \$4,000 in \$1 bills, thereby making it a \$40,000 package to all appearances.

This package was opened and counted after his departure from the bank.

PHILIPPINE POLICE FORCE.

Already Organized, Including Over Six Thousand Natives.

Washington, May 14.—An extensive resume of the organization and varied conditions of the Philippine native police force is contained in a statement made public by the division of insular affairs of the war department. The reports recite that, because of the poverty of the municipalities, the Philippine commission appropriated the sum of \$150,000 to provide increased pay for the body, and offered through General MacArthur, further incentive in the way of increased compensation for cases of meritorious and faithful service.

Late reports received at the war department indicate that an efficient force of 6,349 officers and men, a great many of whom are on the meritorious list and receive additional pay. The body at present is concentrated in Northern Luzon principally, although the Visayas, Mindanao, Jolo and Southern Luzon have police forces of considerable strength. In many of the towns the men are fully uniformed.

KLONDIKERS IN LUCK.

Miners Are Enjoying Greatest Harvest in History of the District.

Port Townsend, Wash., May 14.—Returning Dawson passengers on the Victoria, which arrived from Skagway report that the miners of the Klondike are enjoying the greatest harvest in the history of the country, owing to the abundance of the surface water, which is being utilized in sluicing the dirt taken out during the winter months, and the yield of yellow metal will exceed the best expectations of the mine-owners.

The Victoria reports considerable excitement in the north, caused by the smallpox epidemic, and various settlements are taking every precaution to check and wipe out the disease. At Skagway a mass meeting was held, the Indians were driven out of the city, and a strong guard was placed around the town to prevent their return. Nearly all sections are in quarantine. Every stranger arriving is held up and inspected.

Northwest Postal Orders.

Washington, May 14.—The post-office at Brinnin, Jefferson county, Wash., has been moved one mile to the south, without change of postmaster. The office at Kaufman, Fremont county, Idaho, has been moved two miles to the north, without change of postmaster.

Watch Trust Falls Through.

Boston, May 13.—A director of the American Watch Company says: "The officers of the American Watch Company have informed the promoter of the proposed watch trust that that company will not become a party to any consolidation of watch companies. Other companies have also declined to go into the trust movement, so the combine has been abandoned."

WANT DOLE FIRED

HAWAIIAN LEGISLATORS DON'T LIKE THE GOVERNOR.

The First Session of the Territorial Legislature of Hawaii Comes to an End Without Accomplishing Anything—President Dole Ignored—Charges the Legislature With Accepting Bribes.

Honolulu, May 7, via San Francisco, May 13.—The first legislature of Hawaii came to an end the evening of April 30, according to Governor Dole, and the next night according to a majority in both houses. The legislature ended its existence as loggish heads with the governor all along the line, and without having passed a single one of the important measures to which the home rulers were committed, except the county government act, which the governor killed.

The last act of the house the evening of the 30th, was to pass a concurrent resolution containing a memorial to President McKinley for the removal of Governor Dole. Dole is charged with having hindered the work of the session by his hostility towards the legislature, withholding information and reports that were called for, and refusing to co-operate with the law makers. The president is asked in the resolution to use his influence in behalf of an extra session of the legislature to transact general legislation which Dole refuses to grant.

In conclusion, the home rulers ask that Dole be removed, if the president sees no other way of bringing about an extra session of the territorial legislature, declaring that the governor has acted in such a manner as to lose the confidence of a majority of the people of the territory.

The concurrent resolution passed through both houses by large majorities, all the native home rulers voting for it. It did not get to the senate until the day after the opening of the session, as calculated by the governor, but on that day the native party in the senate passed it.

Governor Dole created a sensation by saying that one of his reasons for not granting an extra session was that bribery was taking place. Both houses passed a resolution demanding proof.

NEW ORDER OF THINGS.

Interior Department Will Require Important Reports Regularly.

Washington, May 13.—A new order of things has been inaugurated in the Interior department and its several branches, relative to making public certain reports that are desired from time to time by the Washington correspondents. Heretofore the geological survey, which is one of the bureaus of this department, has been allowed to run along with comparative independence, and in a way it gave general satisfaction. Under the old regime the newspapers were given access to the many reports that were prepared by the survey from time to time, often when the reports were still in manuscript form. Now this is changed, and no reports will be accessible until they are in galley proof, or even a more advanced stage.

The objection to the new ruling lies just here. The survey sends its parties out in the summer. During the winter months the field forces are occupied in Washington writing up their reports, which are generally profusely and valuably illustrated. It is well into the spring before these reports are completed in the manuscript. It very often happens that the reports of a past season's observations, if made public in the spring, will be of great value to prospectors and others in the season immediately following the scientific examination. Under the old order of things, when manuscripts were temporarily available, the newspapers could get at the facts at a comparatively early stage, and the amount of the information was fresh and new.

But now the assistant secretary of the interior, who, in the absence of Secretary Hitchcock is the "whole thing," sets out at once to exert his authority by issuing an order forbidding the publication of extracts from the manuscripts. This means that the reports will be held back until late in the summer or fall, and possibly into the next winter, and in this way the public will be prevented from getting the benefit of the most important facts for a whole year, in effect.

The Appetite Grows.

Berlin, May 13.—The Berliner Tages Zeitung, which prints a Washington dispatch asserting that the United States government is thinking of securing one of the Azores as a coaling station, says that "the appetite grows with eating."

Dublin Paper Seized.

Dublin, May 13.—The police to-night seized William O'Brien's weekly paper, the Irish People. It is reported that the seizure was made on account of reflections upon King Edward.

More American Liners.

Philadelphia, May 15.—The New York Shipbuilding Company, at its new yards near Gloucester, N. J., has begun work on four steel passenger and freight steamships for the Atlantic Transport Company. Two boats are 600 feet long and the others 500 feet and they are to trade from Philadelphia, New York and Baltimore to London. The steamships are not intended to be flyers, but will run at a moderate speed. They will have a carrying capacity of 6,000 tons of cargo.

Cables Are Interrupted.

New York, May 15.—The Commercial Cable Company has issued the following notice: "We are advised that the cables between Tachifu and Tsingtau and Tsingtau and Shanghai are interrupted."

New Naval Academy.

The naval academy at Annapolis will be a fine structure. When completed the building will have cost \$3,000,000.

REGULARS RETURN.

Philippine Army to Be Reduced 25,000 Men—Orders Sent to MacArthur.

Washington, May 15.—By direction of the secretary of war, instructions were cabled to General MacArthur to send to San Francisco at his earliest convenience, the following organizations of the regular army: Fourteenth, Eighteenth and Twenty-third regiments of infantry; Fourth regiment of cavalry; Twenty-ninth, Thirtieth, Thirty-second and Thirty-third companies of coast artillery; First, Eighth, Tenth, Twelfth and Thirteenth batteries of field artillery.

General MacArthur is instructed to transfer to other commands all men in the above organizations in their first enlistment having more than one year to serve, also men wishing to remain in the Philippines. All men of other organizations having three months or less to serve, not intending to enlist, are to be transferred to the returning organizations.

It is expected that this movement of troops will begin soon after July 1 next, by which time the homeward movement of the volunteers will have been completed. It is the intention of the department to replace the home coming regulars, so far as the military conditions in the Philippines require it, with troops recently organized in this country under the provisions of the army reorganization act. These movements are predicted on the policy of the administration to reduce the army in the Philippines to 40,000 after the return of the volunteers.

The war department today published the reorganization order prescribing the strength of the various branches of the military service upon the basis of a total army of 77,287 men and a staff of 733. The enlisted strength being 74,504 men. By the order each cavalry regiment will consist of 12 cavalry troops of 85 enlisted men each, making the total strength of the cavalry branch 15,840 men. The coast artillery will consist of 126 companies of 109 enlisted men each, making 13,734, and the field artillery of 80 batteries of 160 men each, making a total artillery force, field and coast, of 18,862 enlisted men. The 30 infantry regiments will consist of 12 companies of 104 enlisted men each, making the infantry strength 38,520 enlisted men. The engineer battalions will have a force of 104 enlisted men each, with a band and will have a strength of 1,282 enlisted men.

COST HIM HIS LIFE.

Man Who Stepped Aside to Let Another Gain Safety First.

Indianapolis, May 15.—While William Phelps, of Richmond, Ky., and James Staplebury, of this city, were cleaning out the inside of an eight foot upright boiler at the Central mills today, an employe turned on the steam, thinking the cock tight. It leaked, and the scalding steam poured in on the two men. The only exit was up a ladder. Both men jumped for the ladder. Phelps reached it first, took one step and stopped. He jumped aside and shouted, "You go up first Jim, you are married."

Staplebury sprang up the ladder and escaped with slight burns. Though Phelps followed at his heels, his act of heroism cost him his life. Both men were being cooked when Phelps jumped aside. By the time he had followed Staplebury up the ladder the flesh was dropping from his limbs. He lived for two hours in great agony. Both men are colored.

GOT AWAY FROM MOTERMAN.

Three Passengers on a Trolley Car Seriously Hurt—About 100 Bruised.

New York, May 15.—An open trolley car, in which were packed about 115 people, got away from the motorman near Fort Lee, N. J., and dashed down Leona hill. Every person on the car was bruised and three seriously hurt, but only one of them, the conductor, is likely to die. The heavily loaded car had started down an incline a quarter of a mile in length when the motorman lost control. The car was going so fast that no one dared to jump off. The road is a winding one. At the foot of the hill it curves sharply. When the front trucks hit the curve they started around and made it. The rear ones followed part of the way. The wrench upon the car, however, as it swung about, was so great that the body was torn and lifted from the trucks and rolled over and hit the ground. The passengers were caught in and under the car and were piled in a heap.

Militia Still on Hand.

Jacksonville, Fla., May 15.—The relief association is doing stupendous work, particularly in the commissary and labor departments. There is abundant work for everybody who can do manual labor, but difficulty is experienced in getting the colored men to work. The militia is still in possession of the city, and will remain here as long as the committee of the relief association thinks best. The liquor men have approved the action of the governor in closing the bar rooms and have endorsed it.

Glad They Are Gone.

London, May 14.—Considerable amusement has been caused by the publication of a dispatch from China saying great relief was felt among European troops at the withdrawal of the Americans, who were too free and easy for the military etiquette of the Continentals.

Of all the British colonies New Zealand has sent the largest proportion of its strong youth to fight on the African veldt.

RIVER BOAT SINKS

MISSISSIPPI RIVER STEAMER HIT A SUNKEN SNAG.

The City of Paducah Wrecked at Brunkhorst Landing, Illinois—Two Passengers and Over Twenty Colored Deckhands Find a Watery Grave—Divers Searching for the Passenger List.

Grand Tower, Ill., May 15.—The steamer City of Paducah sank in 25 feet of water five minutes after striking a snag while backing out from Brunkhorst landing. The bodies of two passengers who were drowned have been recovered, and 22 members of the crew, most of them Negroes, are missing. All of the officers were saved.

The passenger list has not been recovered. A diver is searching for it. Only the Texas and hurricane decks are above water, which reaches to the skylights of the cabins. All the staterooms are completely filled with water. The steamboat drifted a third of a mile below the landing before she sank. The first mate says the boat went down within three minutes after striking the snag. He was on the cabin deck and escaped by climbing through the skylight.

It is supposed that most of the missing deck hands who were on the lower deck were washed down the river. The boat lies down about 100 feet from the Illinois shore, the fore part of the hurricane deck being under water. She appears to be a total wreck. The coroner of Murphysboro, Ill., is now holding an inquest while the diver is searching for more bodies.

NUMBER OF SOLDIERS KILLED.

Due to Explosion of Mines Buried on Frontier Chinese Soldiers.

Victoria, B. C., May 15.—News was brought by the steamer Glenogle that a severe earthquake occurred at Yokohama April 24, lasting fully two minutes. No damage was reported. The Asiatic reports that on April 22, 150 French and 30 Germans were killed and wounded by the explosion of mines buried on the frontier of Shan Si and Chih Li.

The China Times reports the capture of a brigand headquarters, where Chinese were pillaging the neighborhood under the leadership of 10 foreign soldiers. The Germans killed 20 Chinese and captured a junk, on which a cannon was mounted.

The new 700 ton liner Sobranon was wrecked on the Chinese coast near Lung Ying prior to the sailing of the Glenogle. The passengers and mails were saved. The vessel was a total wreck.

A mixed battalion of English and Japanese and French had a sharp engagement with 100 Boxers near Shan-backwan. The fight lasted all day and a number of Chinese were killed. The British lost two men wounded, the French one, and the Japanese two.

There had been 110 cases of plague and 104 deaths, and 65 cases of small pox and 43 deaths in Hong Kong from January 1 to April 1
