

Oregon's Butter.

All possible encouragement should be given the producers of butter in Oregon. This is an industry that is yet in its infancy in this state, and it is one that is certain to figure largely in the future finances of Oregon.

"A few years ago there was no market for Oregon butter. Producers shipped their butter and cheese to the commission houses, never knowing what they would get, or even whether the returns would pay the freight charges.

"This change in the situation, which is very gratifying to the dairymen of the state, is the result of education. Dairymen have been educated to make better butter. They have learned that improved methods and superior products pay.

Government Whitewash.

At the last meeting of the Corvallis Improvement Society, the subject of hedges and fences was under consideration; also, how we might give a more general aspect to old fences, barns and woodsheds.

Take half a bushel of unslacked lime. Slake it with boiling water. Cover during the process to keep in steam. Strain the liquid through a sieve or strainer, then add to it a peck of salt previously dissolved in warm water; three pounds of ground rice boiled to a thin paste and stirred in while hot; half a pound of Spanish whiting, and one pound of clean glue, previously dissolved by soaking in cold water, and then by hanging over a slow fire in a small pot hung in a larger one filled with water.

Coloring matter may be added as desired. For cream color add yellow ochre; for pearl or lead color add lampblack or ivory black; for fawn color add proportionately four pounds of amber to one pound of Indian red and one pound of common lampblack; for common stone color add proportionately four pounds of raw amber to two pounds lampblack.

Colonel Frank J. Parker, the Walla Walla editor, who owns a ranch on the Big Elk river in Lincoln county, seems to be

greatly interested in the future of that section, and what he says of Lincoln county may readily be applied to old Benton. Col. Parker is quoted as follows in speaking of his Big Elk ranch and his prospects as a farmer:

"We are getting experience rapidly. Dairies are coming in, more cattle are being fed and utilized for milking, and we people down there hope soon to deserve attention for the high-grade quality of butter, milk, cheese, etc., which we are going to manufacture from the sweet meadows of grasses and the crystal waters of the brooks and streams that ripple through the sunny valleys coastward.

"Dan Sullivan has gone in with me in the cattle business. He has just had a big bunch driven down to my ranch near Elk City, and we are going to raise big herds by next year. I find that the missionary work done by the representatives of the railroads accomplishes much good. Farmers are beginning to wake up and think about the chances for making money out of what is easily to hand. I have great hopes of seeing the unsettled portions of Lincoln county the scenes of great agricultural industries within the next few years."

The picnic at Ridders' grove Saturday was largely attended and a very pleasant affair. Visitors were present from Albany, Junction, Dallas, Corvallis and other points. There was a musical program, a speech on Modern Woodcraft, races, a tug of war, the irresistible merry-go-round to furnish amusement for all. At noon the hungry were fed on the fat of the land, supplied by the best cooks in Benton county. The concluding feature of the day was a dance in the Artisan hall at Wells, which was very enjoyable.

Some of the farmers have been hauling gravel and working out their road tax, the past week.

Fields and garden are looking fine, the recent rains having been of much benefit.

T. T. Barahart and "Pasco" Williamson, of Corvallis, are engaged in painting the Artisan hall at this place. When finished, this will be one of the neatest little halls to be found.

Mrs. Joseph Hecker, who has been very ill for sometime, is recovering.

Think it Over.

Which is better, to buy your pianos and organs of an agent who represents the factories where they are made, or of one who only represents San Francisco and Portland jobbing houses? Is it worth while to pay an additional profit to city middlemen for the sake of getting goods which have passed through their hands, with double freight charges added to other needless costs? Would not the best plan be to have all your money count on the value of the instrument itself? We think so, and for this reason import all pianos and organs direct from the factory, depend on quick sales and small profits and thus give you a high grade instrument at a moderate price. All kinds of small instruments such as guitars, violins, mandolins, etc. Call at our office and residence one block west of court house.

My little girl's head did not grow. It was hard and dry, and would break off, and her scalp was full of dry dandruff that I could not comb out. A piece around the back of her head was bald, and on the top of her head the hair was only two or three inches long.

Warm ointment with CUTICURA Soap and light dressing with CUTICURA, passed over condition, will clear the scalp and hair of crusts, scales, and dandruff, stop the itching and itching surfaces.

If people only knew what we know about Kodol Dyspepsia Cure, it would be used in nearly every household, as there are few people who do not suffer from a feeling of fullness after eating, belching, flatulence, sour stomach, or water brash, caused by indigestion of dyspepsia. A preparation such as Kodol Dyspepsia Cure, which, with no aid from the stomach, will digest your food, certainly can't help but do you good.—Graham & Wells.
