# CANCER

The diseases most feared are those which are inherited—handed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, as a sore or ulcer often degenerates into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows dependent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated, and the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

S. S. S. goes directly into the blood, destroys the virus, stops the formation of Cancerous cells and cleanses the system of impurities. What we say of S. S. S. as a cure for Cancer is supported by the testimony of those who have tested it, and been restored to health.

Begin in time, don't wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading, and grew very rapidly, destroying the flesh as it went. As Cancer is hereditary I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

### The Tramp's View

Resting Robert—See here, Tom, this paper says we have no leisure class in this country—that even our millionaires are hard working men.

Tired Thomas—That man didn't know what he was writing about. We are the leisure class.

His Parcel.

Mrs. Lots—Hasn't that man next door got a mortgage on his place?

Mr. Lots—Yes, indeed, he has.

"Why does he refer to the property as a parcel?"

"Because it's tied up, I suppose."

### The Pan-American Exposition

Will be the greatest this country has ever seen. The entire machinery will be run by power furnished from Niagara Falls. Although the power required is enormous we believe this catarrh is equal to the task, the same as Hostetter's Stomach Bitters is equal to the task of supplying the body with motive power when it is run down. There is no medicine in the world so good for dyspepsia, indigestion, constipation, flatulency and nervousness. Try it.

# AWFUL AGONY

## The Story of a Stricken Woman Whom Doctors Were Not Able to Help.

From the News, Connersville, Indiana.

The story of Mrs. Nellie M. Hedden, of No. 621 Summit avenue, Connersville, Ind., contains an important lesson for many American women who suffer in silence rather than face the ordeal that is the usual treatment of their troubles entail. It is a story that rings with honest gratitude and does not tell half the misery that the narrator endured. Other women who are suffering as Mrs. Hedden did will know how to understand and appreciate much that cannot be told in a newspaper article. Mrs. Hedden's experience is best given in her own words. She says:

"For nearly a year I endured terrible agony caused by a general breaking down of the nervous system, female weakness and suppression of the periods. I suffered greatly with bearing down pains and was very weak and short of breath. My circulation was very bad, causing numbness of limbs, dizziness and headache all the time. My heart would sometimes feel as if there was a heavy weight on it. I had never been healthy and strong, so you can readily see that I was in no condition to withstand such a combination of ailments.

"I grew worse very rapidly and all the doctors I tried failed to check my decline. A friend of my husband told him how much good Dr. Williams' Pink Pills had done his wife, so I commenced taking them and can now state that they are the only relief I ever had. The first box helped me so much that I was thoroughly convinced of the efficacy of the remedy. I continued the treatment for several weeks, using six boxes in all.

"In conclusion I will say that if any one, who is suffering the same as I was, will take Dr. Williams' Pink Pills as directed they will be rewarded."

Signed, ELLIE M. HEDDEN. Subscribed and sworn to before me this 14th day of November, 1900.

Finley H. Gray, Notary Public.

Dr. Williams' Pink Pills for Pale People are sold at all druggists or will be sent direct from Dr. Williams' Medicine Company, Schenectady, N. Y. Price 50 cents per box; six boxes, \$2.50.

### Uses of the Day.

"The proposition to abolish ladies' day at the club was voted down."

"Yes?"

"Yes; it develops that there is hardly a member who does not, in point of fact, enjoy meeting his wife occasionally."

### A Strange Flower.

One of the strangest botanical curiosities in the world is the "Wonder-Flower" found in the Malay peninsula. It is simply a blossom without leaves, vine, or stem, and grows as a parasite on decayed wood.

This extraordinary flower is something like a yard in diameter, and has a globular cup in the middle with a capacity of five or six quarts.

### A Bullied Tigris.

An officer of the Bengal Lancers, who was seduced by a tigris, owed his escape to a curious accident. The tigris seized him by the breast of his coat and shook him till he became unconscious. On recovering he heard a strange noise at a little distance, as if somebody was sneezing violently. It was the tigris herself. He slowly turned round and gave a furtive glance in that direction.

He could hardly believe his eyes. There was the tigris slinking off with her tail very much between her legs and sneezing most violently and making the most pitiful grimaces. The tigris dived upon him like a flash of lightning. In the operation of shaking him his snuffbox had flown open from his waistcoat pocket, and the tigris had received the contents thereof full in her face.—Cornhill Magazine.

### Consumption of Tobacco.

The Austrians consume more tobacco than any other nationality or race on the globe, civilized or savage. Recent investigation by eminent statisticians gives the number of pounds consumed annually by each 100 inhabitants of the different European countries as follows: Spain, 120 pounds; Italy, 128; Great Britain, 128; Russia, 122; Denmark, 224; Norway, 229, and Austria, 273.

### Cost of Railway Transportation.

In France it costs \$1.44 to carry a ton of freight 100 miles; in Germany, \$1.26; in Switzerland, \$2.90; in Holland, \$1.90; in Belgium, \$1.90; in Italy, \$2.20; in Austria, \$2.42, while in the United States the cost is only 81 cents.

# ADVANCE IN FARMING

## PROGRESS NOTED IN THIS BRANCH OF INDUSTRY.

Net Additions to Farm Resources Between 1890 and 1900 Was Greater than Value of All Farm Investments Fifty Years Ago.

Farming is so vast an interest that its current condition cannot be expressed in figures. It is not capitalized in stocks and bonds, and its values are not quotable from day to day. But any intelligent farmer can make a comparison of the general state of his industry with what it was six or eight years ago, and will then realize the immense gain that has occurred. In fact, the activity among the railways and the rapid growth of foreign exports largely rest on farm production.

It is stated by the chief statistician of the agricultural section of the twelfth census that the net additions to farm resources in the ten years between 1890 and 1900 exceed the value of all farm investments in 1850. As the writer referred to puts the case: "The increased wealth of our farmers, as the result of their last ten years' labor, equals the farm wealth of the nation reported as the outcome of their toil at Jamestown to the middle of the nineteenth century."
