Sheriff Burnett went to Portland on the Woodmen excursion, Friday, for a day or two in the metropolis. During his absence Roy Raber was sheriff of Benton county and it goes without saying that Roy was all right.

It is estimated that the big orchard of the Benton County Prune Co. will yield in the neighborhood of 50,000 bushels of Italian prunes this year. It may possibly go many thousand bushels over this enormous figure.

A number of friends of Mr. and Mrs. J. N. McFadden surprised them last Thursday night. A quartet serenaded until the lord of the house appeared and invited the merry company to come in. Refreshments were served and the occasion was most pleasant.

Your brother Tomica is doing finely, and the hired girl-ica is a peachica."—Ex.

Friday, Miss Edna Chandler returned to this city after a two-weeks' visit with relatives in Aisea. A day or two before coming back to Corvallis she was the victim of quite an accident. While riding down a hill one of the pedals of her bicycle came off and she was thrown into a pile of rocks, cutting quite a gash in her forehead and badly bruising one of her arms. On her arrival here she secured medical assistance and is now getting along very nicely.

Mr. and Mrs. Goodale, of Tacoma, arrived Saturday on a short visit with the latter's parents, Mr. and Mrs. Bryant Young. They came to Salem, Wednesday, with the body of their little son, who died in Tacoma, July 29th. The funeral occurred in Salem, Thursday. The little one was two years old last June. For over a year it had suffered from a tumor, and this was the cause of death. Charley Young met the stricken parents at Salem, Wednesday, and Mr. and Mrs. Bryant Young drove down the same day to be present at the funeral. Mrs. Goodale is well known in Corvallis and her many friends tender their sympathy in her bereavement.

A Fine Showing.

What Joseph Yates claims is the finest job of threshing done on his place in ten years—and Mr. Yates is an expert in these matters—was performed at the Yates farm, three miles east of Corvallis, last Friday evening and Saturday morning by the John Vineyard-Daniel White-C. W. and Walter Yates outfit. Horse power was used to drive a 28-inch cylinder Buffalo-Pitts machine, and the result was remarkably clean wheat and practically no waste.

A field of 50 acres gave a yield of 1000 bushels of Kinney wheat. A sack—two bushels—weighed 148 pounds, machine measure, and the average will be 140 pounds. Two years ago this same field yielded 1224 bushels of wheat, last year a crop of 900 bushels of oats was taken from it and this year's product comes from seed sown on stubble last fall. A strip of oats threshed 35 bushels to the acre. Five sacks of this grain weighed 485 pounds. At 32 pounds to the bushel the sacks contained 15 bushels, machine measure.

Enthusiastically Received.

The charivari tendered Mr. and Mrs. Wallace, the newly married couple, at the Sea View house last night, was the amusement of the town folks and country visitors. It was the event of the evening and it would not do to give the names of those who participated in the fun. Climbing on the roof, tin-pans, whistles and bells were the principal part of the amusement. At first Mr. Wallace refused to respond to the call of the mob, but when threats were made to burn the house, out came the groom and offered thanks (below his breath) for the reception tendered him and his bride.

Mr. and Mrs. Wallace showed good taste in choosing this place for their honeymoon, and no doubt it was the Summer School that attracted their attention here. Newport, as well as Nye Creek people, offer their hearty congratulations.—Yaquina Bay News.

The fall grain is now in shock, and will probably average from 20 to 25 bushels per acre.

The Wilson-Hall-Beal thresher will begin operations, Thursday, on the A. J. Hall farm. The machine will have an extensive circuit, and the price will be from four to six cents per bushel.

Prof. Prichard and little son passed through this neighborhood, a wheel, Tuesday, en route for Portland and points in Washington.

A. A. Williamson is the owner of a new Cyclone separator, purchased recently of an Albany firm.

Newspaper reporters should be careful, and report only facts in this locality. Relatives and friends of Dr. and Mrs. Frank Hall of Albion, Washington, were considerably shocked Wednesday, upon receipt of the Corvallis-Times. An item in that paper contained the intelligence that the two-year-old son of Dr. and Mrs. Hall was dead. No word to that effect had been received here, and excited relatives of the little boy left the harvest field, hastened to Wells and telephoned to parties in Corvallis to verify the report. The answer

was that little Wayne Hall was in excellent health, and that the dead child in Washington had belonged to Mr. and Mrs. Goodale. Such mistakes should not be allowed to occur in a reliable newspaper.

Following is a list of the cooks who will feed the famished hordes of men with the various threshers in this locality: Wilson-Hall-Beal outfit, Mrs. Rebekah Buchanan and Miss Atta Gibson; A. A. Williamson outfit, Mrs. Williamson and Miss Grace Williamson; Ridder & Cauthorn outfit, Mrs. Fanny Hall and Miss Grace Hall.

Farmers state that this has been the coolest harvest experienced in this vicinity in many years.

On the Ed Wiles farm, this year, 200 tons of hay was stored away for use during the coming winter. Ten men and five teams were employed by Mr. Wiles during the haying season.

Lovers of fresh venison are often tormented, of late, by the appearance of deer in this neighborhood. Two yearlings were seen in the John Harris pasture, Sunday morning, and were apparently unconcerned by the approach of parties to within 300 yards. Topsy.

Back From 'Frisco.

R. E. Gibson and wife returned last week from a short business-trip to San Francisco. Matters are pretty well tied up in the bay city, owing to the labor troubles now existing there. Thousands of tons of freight is waiting to be moved, but the teamsters are on a strike, and "green hands," have been pressed into service at wages ranging from \$6 to \$8 per day. Men are driving teams in San Francisco now who never before had a rein in their hands. Even the employers themselves are acting as teamsters. Mr. Gibson had business with a prominent wholesale merchant. He found that gentleman perched upon the seat of a ponderous truck, while a fat policeman rode beside him to afford protection. The truckmen are new at the business and little work is accomplished as the result of the expenditure of much effort. One of these amateurs loaded a truck with casks of wine. He neglected to stand them on end and when the truck started the wine rolled into the gutter. The strikers stove in the heads of the casks, took what wine they wished and the rest ran into the sewer. To the credit of the strikers there have been no acts of violence and it is hoped there will be none.

A peculiar feature of the present trouble is that the strikers themselves have no real grievance. They have no fault to find with the amount of wages they receive, the number of hours they are required to work, nor the treatment they receive at the hands of their employers. The present movement resolves itself into an effort on the part of the unions to manage the business affair of employers of labor. The employers are firm in their determination to deal with the employees direct, while the employees insist on a full recognition of the unions.

Superintendent Denman returned Saturday from his outing in Aisea.

Miss Olive Hamilton, of Corvallis, who has been visiting Miss Lizzie Griffin in this city, went to Comstock this afternoon to visit there.

A lawn party was given last evening at the home of Sam Baisley by Misses Lola Dorsett and Pearl Baisley in honor of Mr. Elmer Clark.

Bunting was stretched around the fence to screen from the gaze of the passing throng. The yard was prettily decorated with Chinese lanterns, while bouquets of sweet peas and honeysuckles adorned the table and filled the air with their fragrance. The guests were favored with a number of selections of instrumental music, while games of descriptions were played. The only sad feature of the evening was that those present could not forget that Mr. Clark is soon to part with his many friends.—Baker City Democrat.

The advance guard of 72 Woodmen who went from Benton county to attend the grand initiation which occurred at Portland Friday night and Saturday morning, when 1,326 strangers became members of that order returned Sunday. As usual, Benton county was right in it when it came to walking away with the honors. She won the tug-of-war, sawing, chopping, and pillow fight contests, and would have done more had there been anything else on the program.

School district No. 7 of Benton county has the distinction of having won the county banner of attendance for three terms of school. To win the said banner the school must have had the best attendance in the county for one month. After winning the banner three times, a school is entitled to a county Roll of Honor. Supt. Denman has, therefore, sent one of the same to the above district. Miss Margie Tharp was teaching in the said district during the aforesaid period.

Rumors are abroad to the effect that some China pheasants are being killed already this season. The suspicion is largely based on the amount of ammunition recently purchased, and the number of the shot invariably selected. The latter in nearly every instance was the exact measure for a China. According to law no pheasants are to be killed before the 1st of October, and it is unlawful for any one person to kill more than ten birds in a single day's hunting—it is well to remember this, as game wardens are in ambush.
