The price of our suits range from \$8.00 up.

S. E. Young & Son, Albany, Oregon.

W. A. Sandets, THE watchmaker. Neal V. Murray was a passenger to Newport Saturday.

J. H. Harris and family are enjoying a several-weeks visit at Newport.

Miss Ryle Gatch of Salem, arrived Friday on a visit with her grandmother, Mrs. T. M. Gatch. The next meeting of the State Horticultural Society will be held in this city the second Tuesday in January, 1902.

Walter Bartges, formerly conductor on the C. & E., passed through Corvallis last week. He is now assistant conductor on the S. P.

Misses Grace Scott and Elizabeth Schelling returned from Newport, Thursday. Miss Schelling left for her home at The Dalles, Friday.

Miss Vancho Dickinson arrived in Corvallis, Friday, and was the guest of Mrs. Taylor Porter until Saturday, when she proceeded to Independence, her home. She had been spending a couple of weeks at the seashore.

A rumor, which is being circulated with all circumstance and detail, states that a double wedding is to occur shortly in Portland, and that Corvallis will supply a bride for an Eastern Oregon groom, and a groom for a Portland bride.

It is expected that the clover huller recently ordered by J. R. Smith & Co. for Kiger & Harding will arrive this week. This will be the first clover huller ever brought to this country. It will cost between \$500 and \$600.

Cal. Thrasher completed a four weeks canvass of the country between Corvallis and the coast and returned home Friday. During that period he wrote 40 policies in the Oregon Fire Relief association, which company he represents.

Proofs of the Benton county souvenir have been read and returned for correction and it is believed that the work will be completed and shipped to Corvallis in a week or ten days. The proofs give indication of work of the highest quality.

Last Friday, O. L. McClan, of Nebraska, purchased the Eunsen place of 80 acres, about 3 miles south of Philomath, for \$2,500 cash. Mr. McClan will take possession with his family about October 1st. The sale was made by Henry Ambler.

Friday evening, the crew of the OAC thrashing machine completed the task of thrashing some oats, vetches and grasses for M. S. Woodcock. The authorities at the college desired to do this in order that they might obtain some of the seed for use on the college farm next year.

From \$360 to \$400 per week is the neat sum distributed among the farmers of Benton county for butter fat brought to the Corvallis creamery. Manger Kaubisch informs us that he ships from 1800 to 2000 pounds of butter fat to Portland each week for which he pays the farmer 20 cents per pound.

Writing to the GAZETTE from Lake View, Kansas, under date of August 14th, F. H. Brune makes inquiry concerning the opportunity for securing work in this section. Mr. Brune who is a farmer, has lost heavily on account of the dry season in Kansas and intends coming to Oregon with his wife and five children, the oldest a girl of 16.

Mr. C. A. Gardner of Albany and Miss Maggie A. Custer of Philomath were united in marriage Saturday Aug. 17, 1901, at the United Evangelical parsonage. Rev. L. Myron Boozer officiating. They were attended by Mr. Wm. Todd and Miss Ethel Newton. Two brothers and a sister of the groom were present. Miss Custer is the daughter of Mr. and Mrs. J. P. Custer of Philomath. Mr. and Mrs. Gardner departed for Albany where they will reside.

William H. Beach, of Oregon City, and Miss Nettie Harlan of this city, were united in wedlock last Wednesday, in this city, Judge Woodward officiating. Mr. Beach graduated at OAC with the class of '98. He was coach of the ladies basket ball team of OAC during the season of '99 and '00, and during the existence of the team it was never defeated. At present Mr. Beach is foreman in one of the departments of the Oregon City Woolen Mills. Miss Harlan is an estimable young lady and has many friends in Corvallis. Immediately after the marriage the young couple took their departure for Oregon City.

Friday a citation was issued by the county court to the heirs of the estate of Thomas Eglin, deceased. They are cited to appear before said court on the 2nd day of September, 1901, to show cause, if any there be, why an order should not be made authorizing and empowering the executors of said estate to sell the real property of said estate. The property they desire to sell consists of lots 7 and 8, blk 10; north half of lot 1 (except 25 feet square on the west end of said lot); lot 2 and west half of lot 3, in blk 18, City of Corvallis. The purpose of selling this property is for the payment of expenses, charges and claims now existing against said estate.

From the report of Supt. Denman, filed with State Superintendent Ackerman, it is learned that in Benton county there are 1,233 male persons between the age of 4 and 20 years; 1,195 females between the same ages; male pupils enrolled on the school books, 890; female pupils enrolled 904. There are 23 male and 74 female teachers employed. There are 25 male and 33 female teachers holding state certificates. The remainder of the teachers hold 1st, 2nd and 3rd grade certificates. The total number of days of attendance during past school year was 616,423. Number of legal voters, 1,820. Number of school houses, 60.

Mrs. Frank Lilly is visiting relatives near Monroe.

Miss Sarah Jacobs went over to the coast yesterday.

Sunday, Miss Agnes Klecker returned to her home in Portland.

Carl Hodes and wife, and the family of D. D. Berman were Newport passengers Monday.

Immense bargains in broken lines of Ladies, Misses and Childrens Shoes and oxfords for this month only. Nolan & Calahan.

Wednesday morning carpenters will begin taking the kinks out of the S bridge across the mill race south of town and travel over this structure will be interrupted until next Sunday. When the work is completed the distance from this city to Monroe and way points will be materially shortened.

Mr. J. C. Griffith of North West Missouri was here last week and called on Morgan & Robinson who showed him some choice farms. He is well pleased with the country and departed Sunday for home. He will sell out and return to Corvallis as soon as possible and locate here.

For this occasion, the Southern Pacific Co. will make a rate of one fare for the round trip, from all its stations in Oregon, to Salem and return and it is to be hoped that everyone who can do so will show his appreciation by taking advantage of this opportunity to pass a few days pleasantly and profitably at our State Capital.

The Oregon State Fair at Salem, September 23rd to 28th, 1901, inclusive, promises to be the best this year that has yet been held. New features for amusement and instruction have been added, and particular attention will be given to the Stock Exhibit, owing to the great and constantly increasing interest in dairying throughout the state.

J. B. McMillan, of Knox county Mo., arrived in Corvallis Thursday noon. His visit here was for the purpose of inspecting the farming lands in this section with a view to purchasing a suitable place. Friday he was shown a \$10,000 farm listed by Morgan & Robinson which pleased him highly. He left Saturday for his home in Missouri. Upon his arrival there he will consult his partner about purchasing this Benton county property, and it is possible that gentleman will come here to inspect the place before the deal is closed.

Thanks to the efforts of Superintendent Danman and Rev. Waggoner the necessary fund has been raised to secure the course of lectures mentioned in our last issue. The course will open with an address by Dr. Thomas A. Boyer on "What time is it, and where are we?" Jay William Hudson will be heard twice during the series, his subjects being "The Heroes of the Golden Age," and "Rambles in the Land of Shakespeare." Dr. William Radir will follow with an address on "Uncle Sam," while W. L. Gaston will close the program about December 1st. His topic will be "Yosemite."

It is remarkable what time and patience may accomplish. In the contest for a pair of shoes recently closed at Kline's, Mrs. J. Dunn performed a feat which seems almost incredible. Upon one side of an ordinary postal card, she wrote the words "Queen quality \$8.00 shoes for ladies" 440 times. Every letter is perfectly formed and the work is neatly done. To the naked eye the card appears to have traced upon it some peculiar design, but when brought under the glass every word is plainly legible. Mrs. Ada Cummings, of Halsey, wrote the words 629 times, while Mrs. Chas. Young of this city took third place with 569.

Monday evening of last week hose companies 1 and 2 gave an imitation of an old time Fourth of July contest by racing from the crossing in front of the postoffice to the hydrant at the bank corner, laying 150 feet of hose and getting water. Number 2 did the trick in 26 seconds, while No. 1 was four seconds longer covering the distance. The members of the latter team acknowledged the corn, but were willing to wager the ice cream that No. 2 couldn't duplicate the feat. That company accepted the challenge, and last Friday evening another race occurred under the same conditions, No. 2 getting water in 25 1/2 seconds, and No. 1 in 27 1/2 seconds.

Bert Willis accompanied by his wife and Mr. and Mrs. Silsby were passengers to Newport yesterday. Bert was formerly a popular O A C student, but is now a Southern Oregon railroad man. Mr. Silsby is an engineer on the Roseburg division. Speaking of the destruction of the train of eleven cars near Glendale, Saturday, Mr. Silsby said that the cars were blown to splinters, and that the hillside was swept clear and blackened for an eighth of a mile. The escape of the train crew, who were all in the caboose, was miraculous. That car was blown to pieces. The fireman owed his life to the most accident. At the station just beyond where the explosion occurred he intended climbing upon the oil car just in the rear of the cars of dynamite. In a spirit of fun some friends held him until the car passed and he got on the caboose.

Sulphur Springs.

This popular Benton county resort is being well patronized this summer and is under the management of the owner, T. C. Baker. The accommodations for campers and boarders are first-class.

On last Sunday were found camped here the families of Wm. Crees, A. Locke, Thomas Whitehorn and James Flett, of Corvallis, and N. M. Newport, the Albany attorney, and others from neighboring towns of the valley.

A party of Corvallis young people, consisting of Misses Lilly, McDaniel, Mangus, and Groshong, Messrs. Metzger, Bier, Porter and Clark, made the trip by team and their departure was becoming to residents of Corvallis. They seemed to have a jolly time. Some alarm was manifested in camp while they were taking their lunch, occasioned by the popping of corks, but upon investigation this was found to be only quart bottles of soda water furnished by genial Jim Bier, of the Corvallis Soda Works. They drove down in the cool of the morning and returned "Just as the sun went down." The party was chaperoned by Miss Hettie Lilly.

It is said that William Crees is the only man in evidence during the week who looks after the interests of the ladies of the camps in a satisfactory manner.

Mr. LaForest, the Albany railroad man, was here with his family and a large sized camera, Sunday, and took snap shots of every moving object.

A surprise party was given Mr. John Wiles, of Wells, last Sunday, the occasion being his 70th birthday. Mr. Wiles, although nearly four score years of age, is remarkably well preserved, hale and hearty. His children and grandchildren had met at the springs and prepared a sumptuous dinner, consisting of spring chickens, ice cream, and all the good things of life, and when he was driven over from his farm at noon he was informed that they were celebrating his birthday. A pleasant hour was spent at the table in relating pioneer reminiscences of the days of '45, in toasts, and the rendering of recitations by Mr. Wiles' grandchildren, Francis and Clarence. Uncle John said he felt like he would live to be a centenarian, and it is hoped by his many friends that he may.

A Tight Squeeze.

Fred Oberer came up from Tampico, Saturday morning. He states that the mill of the Charter Oak Mill Co. is running continuously, although with a light force at present. The reason of the force being light is explained by the fact that many of the men in the employ of the company were obliged to quit mill work in order to harvest their crops.

One day last week Mr. Oberer had quite a narrow escape from being seriously hurt. He was in the woods holding to get out some logs, and they were taking the logs off of a hillside. A book was made fast to a log in order to roll it out of its bed. Fred was standing just below the log, and when it was given a half roll, it suddenly spun around as though on a pivot. The end of the swinging log struck Fred and pinched him against another leg good and hard. It struck him about the waist and it seems that he owes his escape to the fact that his watch acted as a sort of roller on his body and turned him in such a manner that he was not seriously injured. He was given a terrible squeeze and his body was rendered black and blue in several places.

Mr. Oberer states that the prospects of the company are very bright. They are cutting considerable hard wood and there is a good market for it. It seems that there is a steady demand for hard wood.

Will be Tested.

Dr. Koch's theory that bovine tuberculosis cannot be communicated to human beings is now being tested under the direction of the Chicago Health Department. Several men are now undergoing the experiment of inoculation under the direction of Dr. Reilly, acting commissioner of health. The experiment is made with skin tuberculosis—lupus—form of the disease which is curable and controllable. Just as satisfactory a test, it is asserted by Dr. Reilly, can be secured by inoculation of the human being with the bacillus from the

KLINE'S WHITE HOUSE

animal as could be obtained from experiments pulmonary tuberculosis. The one is feasible; he cause it does not endanger life. Because the other does, it is regarded as impracticable.

The volunteers have been inoculated with the germs obtained from infected cows. Their condition a few weeks hence it is thought will definitely show if Dr. Koch's theory is correct.

Dr. Reilly in speaking of this experiment said several others have been obtained from persons willing to subject themselves to inoculation with the more serious species of bovine tuberculosis, but that, fortunately, these offers will not need to be accepted.

One volunteer, who hails from Michigan, offered himself as a subject without requiring an annuity for his family. The proposal was referred to the corporation council's office and precipitated a discussion of the liability of the city for damages in case of a fatal termination to the test.

Corporation Council Walker finally advised the health officials not to accept the Michigan man's offer. The city would be held responsible, Mr. Walker said, for the death of the subject.
