Alaskan Steamer Ashore on Harold Island—All On Board Made Land.

Port Townsend, Wash., Feb. 13.—Another steamship has been added to the long list of wrecks along the Alaskan shores. The Cottage City, arriving tonight, brings news of the wreck of the Alaskan Commercial Company's steamer Bertha, on Harold Island, near the entrance of Fitzhugh sound, north of Queen Charlotte sound. The Bertha sailed from Seattle for Valdez last Friday, having 41 passengers, among whom were 12 members of the United States army signal corps, bound for Valdez, while others were bound for interior points.

All went well with the Bertha until Saturday night, when the weather set in thick, and Sunday morning at 12:30

ELEVEN MEET DEATH.

Fatal Fire in a St. Louis Hotel—Several Dangerously Injured.

St. Louis, Feb. 12.—An early morning fire which destroyed a large three story dwelling house occupied by men exclusively, caused the death of 11 persons—10 men and one woman—and dangerously injured seven others. A dozen or more who had narrow escapes from death received less serious injuries or were frostbitten. It is estimated that between 35 and 40 persons were in the building at the time the fire broke out, and it is believed that all have been accounted for. The financial loss is nominal. It is thought that \$10,000 will cover the damage to building and contents, which were totally destroyed. The fire started about 3:30 A. M., when few people were abroad, and

TEN MILLION DOLLAR FIRE.

Business Portion of Paterson, N. J., Destroyed—1,000 Families Homeless.

Paterson, N. J., Feb. 11.—A great fire swept through Paterson today and in its desolate wake are the embers and ashes of property valued at \$10,000,000. It burned its way through the business section of the city and claimed as its own a majority of the finer structures devoted to commercial, civic, educational and religious use, as well as scores of houses. There was but small tribute of life and injury to the conflagration, but thousands were left homeless and many thousands without employment.

A relief movement for the care of those unsheltered and unprovided for has already been organized and Mayor John Hinchliffe says that Paterson will be able to care for her own without appealing to the charity of other communities and states. The great manufacturing plants of the place are safe and the community, temporarily paralyzed by the calamity, has already commenced the work of reorganization and restoration.

The fire began its work of destruction at the power house of the Jersey City, Hoboken & Paterson Traction Company, which fronted on Broadway and extended a block to the rear of Van Houten street. It commenced in the shed and was burning fiercely when one of the employees detected it. It was leaping through the roof and the gale was lifting it in forks and whirls when the fire apparatus came into the roadway at Van Houten and Main streets. The firemen tried to hem the blaze in, but it skipped across Van Houten street in one direction and Main street in another, and gaining vigor as it went, burned unchecked down into the business district. Every piece of fire mechanism in the city was called out, but the fire and gale were masters.

The fire came at midnight and was only checked after a desperate fight that lasted until late this afternoon. Every city and town within reach of Paterson sent firemen and apparatus to the aid of the city, and it took the united efforts of them all to win the battle. A northerly gale gave the conflagration its impetus and carried its burning brands to kindle the blaze afresh at other points. The firemen made stand after stand before the wall of fire, but were repeatedly driven back, and when victory finally came to them they were grimed and exhausted.

GREAT SAND STORM.

Hurricane Sweeps Over the Western and Central Nevada Desert.

Reno, Nev., Feb. 13.—Since early this morning the wide stretch of desert in Western and Central Nevada has been swept by a wind storm that at times has approached the proportions of a hurricane. At several points on the Central Pacific, between Reno and Elko, the wind at times blew at the rate of 80 miles an hour, and though there was no serious damage to property, it delayed trains, prostrated telegraph wires and long stretches of railroad are almost buried in sand. Vast clouds of sand, picked up by the gale, were hurled across the country with fearful force, and at Wadsworth, Desert, Thistle and other towns, business was practically suspended all afternoon, it being impossible for people to breathe while facing the drifting, whirling walls of loose dust and sand. At Desert and Mirage, the sand filled the air to such an extent that the sun was obscured and lamps were necessary.

At Humboldt House, about 40 miles west of Winnemucca, the few people who ventured out of doors beheld a peculiar sight. About eight miles south of the town is a mountain, rising abruptly from the sandy desert. The wind, sweeping across the flat country, caught the snow of this hill and seemed to stretch it out for two or three miles from the slopes. Through occasional breaks in the clouds of dust across the plain between the town and the mountain the middle slopes could be seen, apparently suspended in a few hours by the terrific force of the wind. The storm tonight shows but little sign of abating.

EXTENDED MONROE DOCTRINE.

Hobson Would Have It Reach to the Walls of Peking.

New Haven, Conn., Feb. 8.—Captain R. P. Hobson, who was a guest of the New Haven Business Men's association at their annual banquet, urged that the Monroe doctrine be extended to the Philippines and to the walls of Peking, declaring that Europeans should not partition China, but open it to the trade of the world, as the United States opened Japan. Among the dangers that face Europe, he mentioned a possible Slavic invasion, in the event of which, he said, it would fall to the lot of the United States to assist in saving Europe from general war. Without a relatively powerful navy, such action would be manifestly impossible.

\$1,400,000 IN OHIO CITY.

Twelve Great Manufacturing Plants in Springfield Burned.

Springfield, O., Feb. 13.—The largest fire in the history of Springfield broke out in the Champion Chemical Company's plant of the East street shops yesterday, and in an hour and a half 12 manufacturing plants were in ruins. The estimated loss is \$1,400,000. The fire started in some chemicals in the Champion chemical plant. The companies were greatly handicapped by the light pressure of water. Ten firemen were caught in one building and had a very narrow escape from death. A company of the National Guard is now on duty to keep away crowds and marauders. Four freight cars were totally destroyed and many others ruined.

Hundreds of buildings in the vicinity of the fire were in imminent danger. The firemen, owing to the high wind, were unable to check the spread of the flames.

The total number of men employed by the different concerns located in the building was nearly 900.

The insurance is \$130,000 on the contents and \$110,000 on the buildings—a total of \$240,000.

Dust Explosion in a Mine.

Bon Air, Tenn., Feb. 13.—Over 15 men were injured by a dust explosion in the main entry of mine No. 15. All were rescued and all will probably recover. About 100 men are employed.

London, Feb. 13.—The British steamer Knight Companion, from Portland, Or., for Hong Kong, which went ashore at Inudore, on the coast of Japan, is regarded as a hopeless wreck.

FORM AN ALLIANCE

ENGLAND AND JAPAN UNITE TO AID CHINA AND COREA.

London, Feb. 13.—An important parliamentary paper was issued tonight, giving the terms of a practical alliance between Great Britain and Japan for the preservation of Corea and China. The paper covers a dispatch sent by Lord Lansdowne, secretary of state for foreign affairs, January 30, to the British minister to China, Sir Claude Macdonald, and comprises a signed copy of the agreement. In explanation, the paper says the agreement may be regarded as an outcome of the events of the past two years. Throughout the Boxer troubles Great Britain and Japan had been in close, uninterrupted communication, and actuated by similar views.

"We each desire," said Lord Lansdowne, "that the integrity and independence of the Chinese empire should be preserved, and that there should be no disturbance of the territorial status quo in China or the adjoining regions."

The discovery that their far Eastern policies were identical resulted in each party to the agreement expressing its desire that their common policy find expression in an international contract of binding validity.

Lord Lansdowne further says that the British government was largely influenced in entering upon this important contract by the conviction that it contains no provision which can be regarded as aggressive or self-seeking.

He says it is concluded merely as a measure of precaution, and that it in no way threatens the present position or legitimate interests of other powers.

His majesty's government trusts that the agreement will be of mutual advantage to the two countries, and make for the preservation of peace, and should peace unfortunately be broken, it will have the effect of restricting the area of hostilities.

SWITCHMEN'S STRIKE.

Pickets at Missoula Try to Back Crews Sent to Take Their Places.

Missoula, Mont., Feb. 13.—The striking Northern Pacific switchmen have succeeded in turning back two crews, one from Helena and the other from Butte, sent by the railroad company to take the place of the strikers. Freight has been badly congested in the yards as a result of the trouble. Brakemen and conductors still refuse to make up trains unless the regular yard crews do the switching. The strike has assumed a grave aspect, and unless the officials of the company recede from the position they have taken a strike along the entire system is probable.

The cause of the trouble was the discharging of two men who refused to work with a road engine without sideboard attachments. The switchmen declare they are violating a state law in complying with the order of the railway company. The statute in question provides that trainmen and yardmen are injured while working in the yards on an engine without sideboards are alone held responsible for such injuries, and can collect no damages from the company.

VETOES HIS OWN BREVET.

Roosevelt Will Not Be Rewarded for His War Service.

Washington, Feb. 11.—The president has approved, with one notable exception, all the recommendations made by the army board of which General MacArthur was president, for the bestowal of brevet on all the officers of the army who rendered especially meritorious services during the war with Spain and in the subsequent campaigns in the Philippines and China. The exception noted is the case of Theodore Roosevelt, who was awarded the brevets of colonel and brigadier general for distinguished services at San Juan and Santiago. Under the law these brevets require the confirmation of the senate and the nominations have been made out for transmission to that body during the week, but, as already stated, the list will not contain the name of the president. It is expected that the medals of honor and certificates of merit recommended by the board for individual gallantry, which also have been approved by the president, will be announced at the war department this week. These awards do not require the sanction of the senate.

BOERS TAKEN BY SURPRISE.

Albert's Commando Falls Into British Hands After Short Fight.

Johannesburg, Feb. 11.—At 11 o'clock last Thursday night Colonel Kekewich, having ascertained the whereabouts of Commandant Albert's laager at Gruifontein, sent men to capture it. The British force arrived at daybreak and immediately stampeded the horses of the Boers with pompons and a well directed fire. The Boers were completely surprised, and after a short reply to the British attack practically the total commando fell into the hands of the attacking force, who captured 131 prisoners, including Commandants Landrost and Potgieter and Cornet Duffless.

Another Subway Explosion.

New York, Feb. 8.—An explosion of dynamite in the rapid transit subway in Park avenue, between Forty-first and Forty-second streets, hurled a piece of rock weighing 30 pounds through the plate glass door of the Grand Union hotel, and broke several windows in that establishment. Two persons were hurt by flying fragments, but neither of them sustained serious injury.

JOSEPH R. WHITNEY.

A well known Oregon newspaper man and editor of the Daily and Weekly Herald, of Albany. He is a candidate for the nomination for State Printer on the Republican ticket. He was born in Marion County, is a graduate of the University of Oregon, and has been engaged in the newspaper business for nearly 20 years.

The vessel struck on Harold Island. All the passengers were in bed, and the shock caused great confusion and a stampede was made for the upper deck. Captain Johansen and the officers of the ship restored order in a short time, and on investigation it was found that the vessel was in such close proximity to the shore that the gangplank would reach an elevated rock. The passengers at once walked ashore, and later bedding and baggage were landed, and a camp as made on barren rocks.

On the approach of daylight the work of lightening the vessel was continued by landing horses and other freight. A kedge anchor was put out, and the vessel hauled into deep water with the aid of the donkey engine, but as soon as deep water was struck she began to sink. The vessel was swung on the beach. She has lost her keel, and there is a large hole in her bottom forward engine room, and it is believed she will be a total loss.

COST OF OUR NAVY.

Ships and Repairs Since 1883 Have Cost Over \$100,000,000.

Washington, Feb. 13.—The new navy has cost the United States \$99,803,928 for construction and \$9,343,233 for repairs on completed vessels. These figures were supplied in a statement forwarded to the senate by the secretary of the navy in response to a resolution adopted by the senate in February, 1901. The facts are all given in tabular form, without explanatory text.

In addition to the expenditures made on vessels now afloat there are several ships in course of construction. These include the Kentucky and the Kearsarge, on each of which an expenditure of \$4,000,000 has been authorized, and the Illinois, Indiana and Alabama, on each of which an expenditure of \$3,350,000 is authorized. There are also several smaller vessels in course of construction which will bring the total up to a considerable extent when the vessels are completed.

The statement covers the period from 1883 and begins with the building of the Chicago, Atlanta and Boston. Of the completed vessels the Oregon cost the greatest amount—\$6,575,032. The Massachusetts is second in point of cost—\$6,047,175. The cost of the Maine was \$4,677,788.

MINDANAO GOVERNOR RESIGNS.

Military Officers Would Not Recognize His Authority.

Manila, Feb. 12.—The governor of the town of Cayanag, in the province of Misamis, island of Mindanao, has resigned, declaring that the military authorities there do not recognize his authority in refusing to receive his writs of habeas corpus. Some months ago many of the leading officials of Misamis province were arrested because they tendered a banquet to an insurgent colonel, and because it was proved that they had also contributed funds to the insurgent cause. At that time General Davis, commanding at Zamboanga, island of Mindanao, requested that the province be transferred from civil to military control. The military authorities in Misamis refused to allow the prisoners to be represented by a lawyer sent by the civil commission from Manila for that purpose, holding the arrested officials as prisoners of war. Lately General Chaffee instructed General Davis to release the prisoners in question, and notified the civil authorities when and where they could arrest them. But the fact that their offense was committed before the passage of the law of sedition makes further action in the matter improbable. General Chaffee deeming it inadvisable that civilians should be tried by a military commission, the newly elected governor of Bataan province, fled after his election when he was called upon to account for \$4,000 of insurgent funds. He is still missing.

Raided by Outlaws.

Alamogordo, N. M., Feb. 11.—News has been received here of a raid on the store of the Pew Mercantile Company, at Fort Sumner, by a gang of outlaws, supposed to be the same that recently robbed a bank and pay car at Santa Rosa. One of the employees of the store was killed and \$400 in cash taken. The gang is headed for the Capitan mountains and is being pursued by a sheriff's posse.
