Brain-Food Nonsense.

Another ridiculous food fat has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is reeded for brain, another for muscles, and still another for bones. A correct diet will not only nomish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses sids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's. reliable
