The traction engine boiler will be used for such purposes, as it is easy to get it from one point to another.

Mark Porter brought some wool to town last Saturday that beats anything we have yet seen. It was clipped from a cotswoold yearling and is of very fine quality. Mr. Porter has a herd of 70 or 80 sheep and about half of this number are of the same standard bred animals that this one was from which the wool was clipped. The stock raising industry is one of the greatest importance in this state and wool growing is not the least part of it.

Quite a number of petitions greeted the county court last week asking for assistance in the matter of road improvement. It was asked that the court meet the contributions of various road districts on a dollar-for-dollar basis. In other words, for every dollar of cash or labor contributed by the people of a certain district the court was asked to appropriate a like sum. The sum total asked for by the various petitions foots over \$1,000 and to meet it on the terms asked would cost the county a like sum. Roadmaster George W. Smith appeared before the court and on his advice the matter was continued until the next regular term of court.

TWO WERE KILLED

Prisoners at Penitentiary Break for Liberty.

TWO MADE GOOD THEIR ESCAPE.

One Thousand Each is offered for Their Capture—Guards Ferrill and Tiffany Were Killed.

A desperate, and in a measure successful, attempt to escape was made by the prisoners at the penitentiary at Salem yesterday, Monday, morning. The news was flashed to all parts of the state, warning officers to keep a sharp lookout for the two convicts who escaped.

A special to the GAZETTE, gives the following details of the affair:

SALEM, June 9.—At 7 o'clock this morning, just after they had gone to work in the foundry, a number of the prisoners attempted to escape. They had three revolvers. How they secured them is still a mystery, but it is believed that the weapons were secretly conveyed to the prisoners by some of the excursionists who were permitted to visit the penitentiary yesterday.

Ferrill, a shop guard was shot in the back of the head and killed. After shooting Tiffany, a fence guard, the desperate prisoners secured his rifle, and held him in front of them as they approached the other guards. When he died they dropped him. Jones, the wall guard, was between them and liberty. They shot him and escaped over the wall.

A large number of prisoners were outside the dead line, and when they found all guards with rifles leveled, they raised their handkerchiefs and came back under a flag of truce. Two of them, H. Tarcy and D. Merrill, escaped. The militia and two hundred citizens are after the escapes, and \$1,000 reward is offered for the return of each of them.

Corvallis Will Celebrate.

Corvallis is to celebrate on July 4th. This was decided at a meeting held in Small's confectionery establishment last Friday evening. Some hesitancy was felt in the undertaking, owing to the fact that the recent May Festival had taxed the energies of those who usually take a leading part in affairs of this kind; and political matters have absorbed the attention of the public until the Fourth is almost upon us. But Corvallis did not celebrate last year, and those present at the meeting were in favor of showing our patriotism this Fourth.

The following wide-awake general committee was selected: C. Small, J. K. Berry, Mack

Hemphill, C. Barnhart, J. Zeis and Ed Cummings. If energy and perseverance will give us a splendid celebration, a great day is already assured.

Sub committees have been appointed to provide funds, take charge of the sports and arrange a program.

The goddess of liberty will be selected by ballot, as was done two years ago, and the voting places will be opened shortly.

Is Well Known.

It pays to do good work. Many things indicate the truth of this assertion. J. M. Cameron, who has conducted a harness shop in this city for many years, is building up a splendid trade and a reputation for his work as well. On account of an increased business he was compelled to move into more commodious quarters recently.

Mr. Cameron shipped a couple of sets of harness up to a point just west of Spokane, Wash., last week and is to secure more patronage from that point. He can lay harness down at that point cheaper than dealers there are selling, and better harness, too. His trade now covers territory from Spokane to Texas. He has shipped nine sets of harness to a stage company in Texas and is informed that the durability and workmanship is the best ever used by the company. He also ships harness to Lakeview, Oregon. These facts prove that only the best of stock is used by Mr. Cameron and that nothing more is to be desired in the way of workmanship.

Hart Schaffner & Marx Tailor Made Clothes

Young Men's Clothes

Young men are apt to be very particular about their clothes; even a little fussy; cranky.

It's all right; a good appearance means a lot to a young fellow sometimes; may even be his chief asset; it pays to look well.

We make a specialty of young men's clothes; styles that have snap and "go" in them; the ultra-fashions sought for by thousands of young men who cannot or will not pay the exclusive tailor's prices, and are smart enough to see that Hart Schaffner & Marx clothes are next best.

Go to almost any college town, where young men gather; where they are their own severest clothes-critics; you'll find Hart Schaffner & Marx "Varsity" and other young men's styles the ruling favorites. A better test of clothes-popularity is impossible.

Good clothiers everywhere sell these goods; they're as good clothes as they look. The label H S & M is a sign of genuineness. A small thing to look for, a big thing to find.
