

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected. The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker. Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system

Pa's Idea of Ships.
"What is an airship, pa?"
"A ship that puts on airs, my son."
"Is an airship, like other ships, called 'she'?"
"Certainly; didn't I just say that an airship was a ship that put on airs?"
—Smart Set.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Railroad Wanted.

"Yes," said the head man of the new settlement, "we're after a railroad now."
"You don't say?"
"Yes, if we could get a railroad to come this way it will be a great help to us. We'd use it for our farms and get enough to build a town hall and grade the cemetery."—Atlanta Constitution.

FITS

Permanently Cured. No fits or nervousness after this cure. Dr. H. H. Kline, Philadelphia, Pa.

Their Activity.

"Yes," said the doctor, "I really believe automobile will tend to make us a more active and athletic people."
"Ah! You mean the people who walk and dodge."—Philadelphia Press.

Ask Your Dealer for Allen's Foot-Powder.

A powder. It cures swollen, sore, hot, callous, itching, sweating feet and ingrowing nails. Makes feet light, cool, soft, and comfortable. Sold in 25-cent and 50-cent packages. Address Allen S. Gimsted, N. Y.

Library of Women's Writings.

Mme. Kaisersoff, who recently died at St. Petersburg, had collected a library of nearly 18,000 volumes, all written by women. No book by a male author ever had a place on her shelves.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of *W. D. Hoagland*

More Than One.

Henriques—I hear that a stork visited your house last night.
Newly-blessed (tragically)—Storks—Puck.

Mild Case.

Wife (anxiously)—Is my husband very ill, doctor?
Dr. Stickum—Oh, no. Only about \$100 worth.—Chicago News.

Economical housekeepers know that cheap groceries are seldom cheap.

The cheapness is nearly always made possible at the expense of weight and quality. The best economy is to buy Monopole canned goods, Baking Powder, Spices, Syrup and Coffees. You not only get the very finest at the market, but afford at a very little advance over the cheap grades. Don't tamper with your health. Insist upon Monopole. If your grocer doesn't handle them, send us his name.

WADHAMS & KERR BROS.,

Portland.

Conscientious.

"So you won't chop the wood?"
"No, lady," answered Meandering Mike, in a tone of deep sorrow. "I'm a kleptomaniac. I'm afraid I might steal some of it."—Washington Star.

Bankrupted.

She—John shall I have the bill for my new spring bonnet sent to you?
He—No; I'll have a receiver appointed, and you may send it to him.—Ohio State Journal.

With Thanks, of Course.

"I sent a poem complimentary to the editor of one of the best magazines."
"With what result?"
"He returned the compliment."—Philadelphia Bulletin.

Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and, sometimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison in the blood will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seal, 115 Public Square, Nashville, Tenn.

"Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors were called and she died without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

It makes new and pure blood to nourish and strengthen the body, and is a positive and effective cleanser of the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

LOST IN THE DESERT.

PITIFUL FATE OF A LITTLE BOY WHO WANDERED AWAY.

Six-Year-Old Led Starts in Wrong Direction and, After Searching Parties Had Sought Him for Four Days, Is Found at the Point of Death.

The family of Godfrey Hughes, a member of the firm of assayers owning the Customs Assay office, recently went to spend the summer months visiting friends who own a large ranch about seventeen miles above Albuquerque. The family consists of the mother, two sons and a daughter. One Saturday the children asked permission to go to a corral some 300 yards away from the house and on the other side of a knoll that obstructed the corral from view to play. Permission was granted, and the youngsters bounded away for their afternoon frolic. Soon the little sister wandered and the older brother proposed that they take her to the house. To this the younger brother, Emerson, who was only 6 years old, demurred, as he wished to play more. So the older brother took his sister to the house. Upon arrival there the mother asked, "Where is brother?" "We left him playing at the corral," said the boy. The mother then sent him back for the little truant. Shortly the messenger came back panting from his hurried running, and exclaimed that his brother was nowhere to be found; that he was not at the corral. The frightened mother hurried over to the corral and there found the report of her boy to be true. She searched and searched, but could find no trace of the missing child. At last she came upon some little footprints, showing that the child had taken a direction opposite to what he should have taken, and the harassed mother became more and more alarmed as the fact that her child had strayed and was in all probability lost became apparent. She followed the footprints for three miles and only ceased because darkness was approaching and she was powerless and had to call for aid. As rapidly as her nervous and exhausted state would permit she retraced her steps to the house and alarmed the household. Immediately a search party was organized, and, despite the oncoming of night started out in quest of the helpless child.

THE "WATER CURE."

Punishment that Has Been Practiced for Many Years in Navy.

What has come to be known as the "water cure" treatment is an adoption by the navy of a disciplinary measure as old to the navy as wooden hulls and hemp rigging. The deep-sea sailor calls it a "handy-billy wash-down," and its application is only resorted to as the most effective means to stop the bawling profanity of a drunken sailor on shipboard.

SPONGES IN HAWAIIAN WATERS.

Fish Commission Believes They Can Be Found.

Believing that there are sponges of a merchantable quality in the waters about the Hawaiian Islands, the last week of the stay of the party representing the United States Fish Commission will be devoted in part to an investigation of reports concerning their presence. Should there be found sponges which will be fit for market these will add materially to the wealth of the islands more, in fact, than any other product of the fisheries.

Abdul Hamid as Editor.

The Sultan of Turkey insists that Turkish papers should never speak of violent deaths when they affect the rulers or leaders of nations. When President Carnot was assassinated the Turkish papers reported as follows: "We regret to announce, dear readers, that Carnot, the worthy President of the French Republic, who has been ill for the last few days, died yesterday at midnight."

Albert Edward and the Reporters.

"On one occasion," said Edward Arnold, "when I was at an important function at Marlborough House, Sir Francis Knollys came up to the Prince of Wales and remarked: 'Some gentlemen of the press wish admission, sir.' 'Oh, show them in,' said the Prince, with a laugh; 'if they don't obtain admittance at the door they'll come in through the ventilator.'"

Death Rate in Mexico.

The City of Mexico, with a population of nearly 370,000, still has an annual death rate of 52.2 per 1,000.

Love is supposed to be a tender passion,

but sometimes the girl's father makes it a tough proposition.

Science and Invention

The recent sandstorm from the Mojave desert is said to have piled up sand in Santa Ana thirty feet.

WHERE CECIL RHODES SLEEPS.

Prospectors dug for gold 1,000 Years Before Christ.

In the heart of the Matopos Hills, in South Africa, among which Cecil Rhodes, the empire builder, sleeps the last sleep, there are many ruins which appeal strongly to the imagination. It is difficult to realize, writes a correspondent, that the habitations, now ruins, were occupied by gold seekers so long ago as 1000 B. C. When one thinks of Rhodesia it is invariably of the great possibilities which the future holds for the country. But what of Rhodesia's past? Three thousand years ago, prospectors as gold-hungry as the "greenest" prospector of to-day scoured the Matopos and the surrounding country for the precious metal. These crumbling ruins once contained the furnaces for the retorting and smelting of the gold. In many quarters huge excavations are found where the ancients dug far down into the bowels of the earth in search of the metal. Several of these mines are still the largest on the earth's surface. The galleries are caked with layers of gold, and the faces of the workers. One historian estimates that the ancient miners discovered millions of pounds' worth of gold in Rhodesia.

How to Roll an Umbrella.

"Why is it," asked an inquisitive customer in a downtown umbrella store, "that one can never roll up an umbrella as compactly and neatly as it is rolled when he buys it?"

Chance for a Great Story.

But the Editor Didn't Enthusias Over Mr. Baxter's "Tootsie Twitters."

The sharp-featured man paused in the doorway and the editor looked up. "I suppose," said the stranger, "that you are always on the lookout for a good story?" And without waiting for a reply he rapidly crossed the apartment and, seating himself at the editor's elbow, assumed an easy attitude.

Dangers of Celluloid.

Manufacturers of articles made of celluloid should be compelled to stamp plainly upon them the words "highly inflammable." The danger is no imaginary one. A gentleman with a lighted cigar in his mouth was playing upon an "American organ" furnished with celluloid keys. When some red hot ash dropped upon the keys they instantly burst into flames and flame, which could only be extinguished with the greatest difficulty. A heated curling iron will readily start the evolution of dense and highly inflammable fumes if brought in contact with a celluloid comb or hairpin. The proximity of a naked light adds to the danger enormously, for the fumes of celluloid will ignite fiercely at some considerable distance from the flame.

An Odd Oversight.

A Cincinnati paper, after printing an extensive account of Sol Smith Russell's death, and the arrangements for the funeral, closed the column with the line: "Other amusements on page 9."

Admire a girl's hat, and she will tell you that she didn't like it after she got it home, and tore it all to pieces and returned it.

"I often think I'm cunning," a man said to-day, "until results come in."

Every Woman Should Write Dr. S. B. Hartman, President of the Hartman Sanitarium.

Mrs. Joseph Laclelle, Ottawa, East, Ont., Canada, writes:

"Peruna is better by far than any other medicine sold in the Dominion for the troubles peculiar to the sex. I suffered with backache, headache and dragging down pains for over nine months, and nothing relieved me a particle until I took Peruna. A few bottles relieved me of my miserable half-dead, half-alive condition. I am now in good health and have neither ache or pain, nor have I had any for the past year. If every suffering woman would take Peruna they would soon know its value and never be without it."—Mrs. Joseph Laclelle.

—Free Home Advice.

"Now, that's just where the mistake comes in. Instead of twisting with handle, he should take hold of it just above the points of the cover ribs. These points naturally lie evenly around the stick. Keep hold of these, pressing them tightly against the stick, and then roll up the cover. Holding the ribs prevents them from getting twisted out of place or bending out of shape. Then the silk is bound to fold evenly and roll smooth and tight.

"Roll up your umbrella this way and until it is old enough to get rusty-looking it will look as if it had just come from the shop."—Kansas City Star.

Will It Succeed?

Another experiment in the line of community housekeeping is to be tried, this time in a suburb of Berlin. A large house, containing thirty rooms, situated in extensive grounds of twenty acres, has been rented by a community of mutual acquaintances, among whom are both married and single. A monthly rent of from fifteen to twenty marks will be levied for each room occupied. The housekeeping will be in common, and the kitchen also. One lady and one gentleman will be elected to take charge of all the concerns of the house. These officers will be changed weekly. A bill of fare and all other matters of interest connected with the establishment will be posted up in the hall. For food a daily charge of one mark will be made. This charge is so moderate that it may have to be increased later. There will be a good library and a common drawing room, writing room, working room and dining room. Arrangements are also being made for a common playground and garden. The community will consist of forty persons, mostly engaged in literary and artistic pursuits.
