

A JUST DECISION.

The opinion handed down by Judge Jackson in the "Mother" Jones contempt cases, tried at Parkersburg, W. Va., supported the right of the courts to issue injunctions and the right of laborers to work when they wish to do so, without interference from organized labor or any other source.

"I do not question the right of employees of this company to quit work at any time they desire to do so, unless there is a contract relation between them and the employer which should control their right to quit."

"While I recognize the right of all laborers to combine for the purpose of protecting all their lawful rights, I do not recognize the right of laborers to conspire together to compel employees who are not dissatisfied with their work in the mines to lay down their picks and to quit their work without a just and proper reason therefor, merely to gratify a professional set of agitators, organizers and walking delegates."

"The strong arm of the court of equity is invoked in this case, not to suppress the right of free speech, but to restrain and inhibit these defendants, whose only purpose is to bring about strikes, by trying to coerce people who are not dissatisfied with the terms of their employment, which result in inflicting injury and damage to their employers, as well as to the employee."

"I reach the conclusion that the defendants in this case who were served with notice of the injunction have violated it and have treated with contempt the order of this court."

The Roseburg Plaindealer complains because a "tourist" appropriated two checks from the cash drawer in its office during the absence of daylight. It is now up to the Plaindealer to explain how a country newspaper came into possession of checks and a cash drawer.

Prices and Picking.

Hops appear to be steadily climbing up in price. The highest offer for hops this year that has been made public was an offer of 22 1/2 cents.

Prices for picking is a proposition that is uppermost in the minds of many growers just now. Regarding this question and the probable yield for this season, the Gervais Star, one of the best authorities on hops in this state, is quoted as follows:

"Regarding picking prices, it does not seem wise to agitate higher prices for this class of work than formerly, owing to the fact that a majority of the growers have contracted at about usual prices. It is safe to say that fully two-thirds, if not three-fourths, of the 1902 hop crop is under contract. Should the impression prevail that growers can afford to pay 45 to 50 cents per box it will cause many

bales of hops to remain unpicked. As a general thing growers have in the past paid more for picking than the prices they have received warranted. We consider that the old prices will prevail for picking.

"Estimates on the coming hop crop are varied, ranging from 80,000 to 90,000 bales. The latter figure is not an impossibility, should continued good weather prevail until near October."

The Fight in Corvallis.

Local sports took a keen interest in the great prize fight at San Francisco, last Friday night, between the heavyweights, Jeffries and Fitzsimmons, for the championship of the world. A purse was made up, and the fight was received here by rounds. Not much money was posted on the outcome, but both fighters had many enthusiastic supporters.

The majority believed that Jeffries' youth and weight would win, and that the Cornishman would not last ten rounds. The result of the fight justified this opinion. It was agreed that Fitz would have to win in the first few rounds, if at all, and that if he mixed things, Jeffries' fearful body blows would get him.

Timber Boom a Fake

For the past month a great rush has been made from different parts of the country for timber and stone claims in the John Day country and other portions of this state. Of course the first few dozen men to strike a section get something that may be worth the money and effort, but more were bilked. A boom was started by the railroad companies and "cruisers," the latter to make some money out of the unfamiliar with the country and their boom worked to perfection until recently when most of the people got "next!"

Rev. M. H. Marvin, of Walla Walla, George Lott, Col. H. G. Stratton, and others of Waitsburg, passed through town this morning on their way home after making a thorough investigation of the timbered country in the eastern part of the state. They say the timber boom is a fake. Every man who goes into that country looking for timber land either gets bit and does not know it or comes out without trking up a claim.

It costs \$100 to get a "cruiser" to locate a timber claim for a man and then it costs from \$400 to \$500 to get title to the timber and it was positively stated by Mr. Marvin and his friends this morning that not one claim out of two dozen was worth the money asked by the "cruiser" to locate it. They say it is a mistake to boom this "timber location industry" in Eastern Oregon, for there is little timber left to be taken and what is left is not worth one-fourth of what it will cost.
