

INCONSISTANT.

The anti-protection, free trade press fairly anathematizes congress for failure to make a certain reduction of tariff duties in favor of Cuba.

It is charged that the friends of protection including the president, seek to substitute reciprocity for tariff revision and thus practically evade the demand for revision.

There has never been any purpose on part of the republican party to give protection where it was not justly applicable, nor to continue it when there ceased to be any necessity for it.

Some of the schedules of the tariff may need, doubtless do need revision. Some protected products may be more highly protected than there is now any occasion for.

There is no need for it. The present tariff law is the most equitable and beneficial we ever had. Its workings are satisfactory and smooth.

These considerations, however, have no weight with the enemies of protection. They would destroy protection for free trade though it convulsed the business of the country and involved thousands in irretrievable disaster.

Regular Business Course.

A regular business college department was opened in connection with Philomath College, October 10th, 1901, organized upon the same plan as the business colleges of Portland, Salem, and San Francisco.

is worth the price of six months' tuition. In the various processes of this course the student will make out business papers, such as notes, drafts, checks, certified checks, certificates of deposit, deposit tickets, mortgages, leases, contracts, protest notices, notarial acknowledgments, etc., aggregating several hundred, which thoroughly familiarize him with all varieties of business forms.

While pursuing this, as well as the other two courses, the student devotes one hour each day to systematic training in rapid business writing. There may be found in the office of the Principal, several hundred specimens of the students' penmanship taken last year, a large per cent of which are simply fine.

THE DRAUGHT'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE advertisement with logo and text: 'A shallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Draught's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Draught's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Draught's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor. Mullis, S. C., March 10, 1901. I have used The Draught's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.'
