While in the metropolis he also purchased the glass and iron front of the new brick block he is now building. Pomeroy has 35 brick business houses, eight of which have gone up since Mr. Peterson moved there a little over a year ago.**

**Rev. Allen Wilson and Professor A. R. Davis began the second week of their revival services in this city under the auspices of the Christian church, yesterday. During the last week large audiences have been attracted to the services held in the large tent on the block east of the public school building, and a number of conversions have been made. Rev. Wilson is an evangelist of note and great success has attended his meetings elsewhere. There is a commendable absence of the sensational in his sermons, and he chooses to persuade rather than to exhort. Sermons begin promptly at 8 o'clock and are preceded by song service led by Professor Davis.**

**Death has again invaded the home of Mr. and Mrs. M. L. Barnett. Fred Carson Barnett, whose death has been expected for weeks, passed to the great beyond Sunday morning, June 28, 1903, aged 23 years, 6 months and 22 days. Fred was a fine young man and enjoyed the confidence and esteem of all. Everything that money and loving hearts could do was done for him in hopes that his life might be spared, but that dread disease, consumption, was consuming his life and it was beyond the power of human skill to stay its ravages. This is the fourth son lost and the sympathy of all is extended to the bereaved family. He suffered long but never complaint was heard from his lips. Besides his parents, he leaves four brothers. The funeral was held Monday and his remains were interred in Bellefontaine cemetery, followed to the grave by a large concourse of friends, there being seventy vehicles in the procession.—Junction Times.**

**As announced in Friday's GAZETTE, R. H. Huston is now sole proprietor of the hardware business formerly conducted under the firm name of Huston & Bogue. Mr. Huston has been a resident of Corvallis for the last 17 years, and has been identified with every movement looking to the progress and development of the city and county. He has served as councilman and been associated with the various commercial organizations formed to advance the interests of the community. Twelve years ago he became a partner in the hardware business of which he is now sole proprietor. Under his management the business has grown until the quarters it has occupied continuously are now taxed to accommodate the large stock carried. Mr. Huston's popularity and thorough understanding of the needs of the locality he serves, insure a continuance of the large patronage enjoyed by the late firm of Huston & Bogue.**

**Mr. J. E. Sloper has returned to Corvallis, and parties having wells to dig will do well to secure his services. He makes a specialty of rock drilling. His address is Corvallis.**

**Special Sale of Laces—Just received 100 pieces French and English laces which we offer at 5 cents per yard, worth from 10 cents to 25 cents. Ladies these are exceptional good values and worth your attention. Moran & Callahan.**

**The GAZETTE wishes to say a word in commendation of the hearty manner in which our business men have responded to the request of the council to "clean up." A force of men was out yesterday sweeping up the trash and scraps that accumulated during the week, and Main street is now as clean and tidy as a parlor floor.**

**Thomas, the 7-year-old son of Mrs. Bunker, died at the family home in this city Friday afternoon, of diphtheria. Funeral services were conducted Sunday afternoon by Rev. F. L. Moore, and the little body was laid to rest in Newton cemetery, by the side of its father, the late J. J. Moore, who was drowned in the Willamette.**

**Miss Dorothea Nash, who was recently elected instructor in music at the State Normal School, Monmouth, was for some years instructor in music and drawing at the State Agricultural College. Three years ago she went to England and studied for two years in the Royal Academy of music, and then for one year in Berlin as a private pupil under the celebrated teacher, Mayer Mahr.—Dallas Observer.**

**The new bus for the Occidental hotel goes into commission next Thursday. The vehicle has been rebuilt by the Corvallis Manufacturing Company, and has been enlarged so as to accommodate four more passengers than formerly. The body of the bus has been painted dark green, while the wheels are red. This is but one of a number of improvements connected with the hotel, contemplated by Landlord Brunk.**

**The jury in the case of C. H. Whitney, ex-deputy sheriff of Baker county, jointly indicted with ex-Sheriff Huntington for the embezzlement of \$10,000, brought in a verdict of acquittal last Saturday morning after being out 18 hours. Huntington was tried previously, but the jury failed to agree on the amount of the embezzlement, and the case will come up next October. The Whitney verdict was not a surprise, as there was no direct evidence tending to show that he appropriated any of it to his own use. Mr. Whitney was formerly a business man of Corvallis.**

**The little daughter of W. W. Calkins, formerly of this city, had a narrow escape from death in a runaway which occurred in Eugene last Friday afternoon. The child was driving the family horse to the stable, when the animal got beyond her control and ran away. She was thrown from the buggy seat, and fell, striking her head on the hard ground, but beyond a few bruises she is unharmed. The child's rein has been used to driving the horse to the stable, and this is the first time the horse has acted in any such manner. The damages to the buggy and horse were slight.**

**Corvallis celebrated the Fourth very modestly this year. The shooting contest on the flat near Marys river was the only feature of entertainment. Business houses closed, but aside from the salute at sunrise from the cannon at the College, served by Captain Harding, and the desultory popping of firecrackers kept up by young Americans during the day, there was little to remind one of the fact that 127 years before our nation was born. A number of citizens took advantage of the excursion trains to Dallas and Albany and spent the day in these towns, while others celebrated with the people of Alesca. A full account of the exercises at the latter place will appear in our next issue.**

## Reward is Offered.

**Search is still being prosecuted for the little daughter of Mr. J. D. McCready, who disappeared so mysteriously on the afternoon of July 1st. The father, assisted by a number of citizens who share the general sympathy, have dragged and watched the river every day. Circulars have been distributed announcing that Mr. McCready will pay a reward of \$200 for the return of little Garnet, if alive. In addition to this a reward of not less than \$50 is offered by the citizens of Corvallis for the body of the missing child.**

## To the Public.

**I have leased my truck for the period of one year to L. F. Wooster, who will engage in the truck business. I thank my patrons for past favors, and bespeak for my successor a liberal patronage. I have taken offices in the Fisher brick, over the postoffice, and shall engage in the real estate, loan and insurance business. I shall be glad to have owners list with me, should they have for sale, or houses they have to rent.**

## RENNIE AND NEWTON TIED.

**The First Shot by The Corvallis Gun Club Was Full of Interest and Excitement**

**The clay pigeon contest given by our local Gun Club on the Fourth was well attended by visiting sportsmen from out of town and being the first of its kind held in our city attracted many spectators to the scene of the shooting. Among these were a number of the fair sex who seemed to enjoy as much as the gentlemen the many difficult breaks scored by the marksmen.**

**The strong wind that prevailed during the day made high scores impossible and kept the boys on their metal to prevent a score of goose eggs being scored against them. The swift whirling targets would take all sorts of erratic flights and at times acted more like animated corkscrews than sensible clay pigeons.**

**The contest for the high average prizes was extremely close and exciting and was not decided till the last event of the day had been shot through.**

**Rennie and Newton finally tied for 1st prize with 67 breaks out of 101 targets shot at; Kiger was second with 63 out of 95, only 2-100ths of 1 per cent less than the leaders and Emery 3rd, with 66 out of 101, only two-twenty-fifths of one per cent behind Kiger. Burnett and Elgin were also close up, the former getting 64 out of 101, and the latter 63. Counting the two extra events shot through after the regular program was finished, each man shot at 117 targets. Of this number Emery was high with 76, Newton 2nd with 75 and Rennie and Burnett a tie for 3rd with 73 each. These last events did not count on the high average prizes, but are mentioned to show how close was the contest between these shooters.**

**The winners of the different events were as follows:**

**No 1, 6 targets—Elgin, Rennie McReynolds, 5; Ed Smith, Hulbert, Avery, 4; Kerr, Burnett, Frink, 3.**

**No 2, 10 targets—Kiger, 8; McReynolds, Emery, Rennie, 7; Avery, Newton, Kerr, Burnett, Sheridan, 6.**

**No 3, 10 targets—Kerr, Elgin, 9; Emery, Bicknell, Kiger, Sheridan, Avery, 8; Newton, Frink, 7.**

**No 4, 10 targets—Kiger, 9; Emery, 8; Elgin, Newton, Burnett, 7.**

**No 5, 10 targets—Ed Smith, 8; Emery, Kerr, Newton, Burnett, 7; Elgin, Rennie, Callahan, 6.**

**No 6, 15 targets—Avery, 11; Emery, Rennie, Newton, 10; Kiger, Elgin, 9. McReynolds with 8, won the 50 shells donated by Huston & Bogue for this match.**

**No 7, 10 targets—Bicknell, Burnett, 8; Kiger, Newton, Callahan, Frink, 7; Ed Smith, McReynolds, 6.**

**No 8, 10 targets—Callahan, Rennie, 7; Kiger, Elgin, McReynolds, Newton, Burnett, 6; Emery, 5.**

**No 9, 20 targets—Emery, 16; Burnett, 15; McReynolds, 14.**

**The scores in the extra events were:**

**No 1, 3 pair doubles—Kiger, Ed Smith, McReynolds, 4; Burnett, Elgin, 2.**

**No 2, 10 targets—Emery, 9; Newton, Burnett, McReynolds, 7; Bicknell, 6.**

**Special Prizes—Rennie and Newton tied for the highest average and divided the \$5 cash prize donated by the club.**

**Kiger, 2nd, won the \$5 platinum photos donated by Emery, photographer. Emery, 3rd, won the \$3.50 nickel reel, donated by R. M. Wade & Co.**

**Ed Smith with lowest average, 46.4 per cent won the 50 smokeless shells donated by J. R. Smith & Co.**

## NOTES OF THE DAY.

**jas. Gibson made a most gentlemanly and efficient score-keeper and handled this important part of the meet in a manner satisfactory to all the contestants.**

**The Philomath cracks, Newton and Frink, did not do much talking, but kept sawing wood all the time and kept our boys guessing the entire time. Newton shot into money in every event but one, and tied for highest average. Frink also kept dipping into the purses till compelled by a bad headache to retire.**

**Since the shoot Telt has been looking as though he had been up against Fitzsimmons, but it was only his gun which had a habit of jumping up and kicking him on the nose.**

**It was different with Sheridan; he seemed to understand how to**

**avoid the business of a kicker.**

**Dick Kiger hasn't shot around town since the shoot. He has, however, telephoned in answer to anxious inquiries, that he is very busy trying to figure what targets are worth per cent. 3-100ths of one per cent \$5.00, for that much more a bluerock added to his per cent would have given him the \$5.00 cash prize.**

**Grant only kept one eye on the clay birds in several of the events, which accounts for a number of lost targets. His other eye seemed to be attracted to a neat turn-out just behind the spectators.**

**"Shiney" started out poorly, but he kept improving his scores till he broke nine straight. Then his gun got out of fix, which was fortunate for the other boys as otherwise, he says, he would soon have been getting more than 100 per cent.**

**It required careful head work on the part of Ed to keep his average down low enough to carry home those shells his firm hung up as a prize, and at the same time to occasionally get in on first and second money; but he got there.**

**Billy Curran was also shooting, although his name does not very often appear among the winners. The trouble with Billy was that he got his shells mixed and kept the dummies that he had fixed up for Smith, otherwise he would have succeeded in landing the prize that Smith finally won.**

**McReynolds and his pump were very much in evidence all day and his name was most always one of those called by the scorer when it came to dividing the purses in each event. He made the prettiest shot of the day, when he loaded, cocked and fired his gun after the trap was sprung, powdering the target some 433 yards, 5 feet, 72 inches away. At least that was Jesse Spencer's judgment as to the distance.**

**The firm of Nolan & Callahan is pretty well represented on the score cards; Rennie tying for highest average, besides winning two first, three second and two third moneys; Callahan also won first, second and third respectively, in the only three events he entered.**

**Bicknell and Chester Avery are both good shots and with practice will make hard men to beat.**

**Captain Emery had to divide his attention between his official duties and the bluerocks, yet the result shows that he neglected neither one.**

**There are others whose names are not mentioned here, but they all proved that they possess the requisites of a true sportsman: To win modestly and to lose cheerfully.**
