A Lecture on Electricity.

Albany Democrat.

Electricity commenced its career at the breaking morn of creation, with a few passengers on board and has continued its course with increasing speed and growing glory down to the present moment. It now travels with the brilliancy and rapidity of the lightning's blaze, and even compels the very lightnings to speak in a familiar voice to man. The chariot of science is destined to continue its majestic course, in duration coeval ME Smith and husband to with our globe. Genius is supremely School Dist No 9, 3 lots block higher than talents, and no man of genius had ever opposed electricity in its wonderful workings. This shows that if it was considered unworthy of doing all that is claimed for it that it would be discarded the same as all worthless things that are cast aside. Dr. Darrin at Hotel Revere is an advanced thinker on the application of electricity for the cure of disease and to prove his skill we enumerate many cures performed by him, and would suggest to the thinking minds that today cures are being performed by this subtle agency, that

seemed impessible ten years ago. Among the many successfull treated may be mentloned ex-Senator George Chandler's son of Baker City, who had trouble and general debility; cured and
