At the end of a week's work with the threshing machines the reports and every year many sales are pected. Manager J. G. Graham, of Balfour, Guthrie & Co.'s office in Salem, says that yields are running record for the course, three hours, 12 around the cattle department. This from 25 to 50 bushels per acre, and even a little better than the lastnamed amount is reported in some instances. Mr. Graham has heard of no crop that has yielded less than 25 bushels per acre this year. The qual-

ity is good. Farmers were evidently deceived by the looks of the straw this year. The stand of straw was poor, and the farmers looked for only fair yields at best, but it seems that the heads of wheat were niled out from end to end with plump grain and the yield was thus greater than appearances indi- Fifteen persons were saved in this way,
