A Fruitless Quest.

"Could you do something for a poor old sailor?" asked a wanderer at the rear door of a Germantown house one morning this week. "Poor old sailor?" echoed the housewife, who had opened the door. "Yes'm, I followed the water for twenty years."

"Well," said the lady, as she slammed the door in the face of her visitor, "I've got to say to you certainly don't look as though you had ever caught it."

Grave Opened by Tree.

In the Gartenkirchhof, Hanover, is a grave covered by a mighty stone, on which an inscription appears to the effect that the grave should never be opened by human hands. The seed of a birch fell through a crack in the stone, and, developing to a large tree, opened the grave in its upward growth.

The tree has now withered and decayed. When it is removed the grave will again be closed.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. He Had Been Helped Once.

Two Turks were at a French banquet. Toward the end of the feast a Frenchman selected a toothpick from the tray near him and politely passed the tray on to his neighbor, who, however, peremptorily declined the offer, exclaiming: "No, thank you; I have already eaten two of the accursed things."

Chinese Firemen.

Chinese firemen seem to be immune to the fierce heat of the fireroom on ocean steamers and can stand up to temperatures that would speedily prostrate white men. There are over six lines of European steamers trading with the far east. Out of this large number only three have European firemen and these have coolies to assist them.

McKinley Day.

"The Carnation League of America," instituted as an annual memorial to the late President William McKinley and dedicated to national patriotism, is a fixed institution and insures a perennial observance of January 29th, the anniversary of his birth, as "McKinley Day."

To wear the late president's favorite flower, the carnation, in the lapel of the coat, in the hair, or at the throat, in silent memory of a departed public servant, is what is contemplated by this movement, in which the young and old of both sexes can have a part.

The custom was first observed on January 29th, 1903, with the greatest unanimity throughout the country, and by Americans all over the world. It is a simple, inexpensive act and full of patriotic sentiment. All through Mr. McKinley's life, both public and private, there ran a distinct vein of sentiment, and a memorial of this sort is, therefore, peculiarly appropriate to him.

The custom will undoubtedly be observed the coming 29th day of January more universally, if that is possible, than on the initial day, a year ago. Interest in the memorial has increased wonderfully during the past year, and Mr. Lewis G. Reynolds, of Dayton, Ohio, who suggested the idea, has received letters of the most unqualified approval from Americans everywhere.

No expectation is had of giving the movement the importance of local organizations or annual meetings and conventions, but in a quiet, unobtrusive way it can be made to wield an influence for good almost incalculable and to foster a spirit of true patriotism worthy of our country and of the man whose memory it is proud to honor.

Then He Got Fooled.

Picture Hats in Theaters.

It is announced that further attempts are to be made to cope with the hat nuisance at matinees by providing cloak rooms free of charge. Something else might be done by improving the quality of the plays presented. FROM CALF OF THE LEG TO ANKLE A SOLID SORE.

New Castle, Pa., July 29, 1903.

Three years ago a common bull appeared on the calf of my limb. Not yielding to simple home remedies, I consulted a physician, who prescribed a poultice, flax seed, supposedly. By some fearful mistake I was given the flax seed, and, after having it on for a few minutes, it could endure the pain no longer, so took off the application and found that my limb from the calf to the ankle was in an awful condition. I immediately sent for another physician, who told me I had been poisoned. My limb from the calf to the ankle was one solid inflamed sore. I was advised to begin S. S. S., and improved rapidly under its use, but about this time I had an attack of typhoid fever, and this settled in the original sore. This, of course, caused a back set, but having confidence in the ability of S. S. S., I began it again as soon as I was over the fever, and to make a long story short, was completely and permanently cured. Two years have elapsed, and I have never had a return of the trouble.

MRS. K. A. DUFFY.

214 W. Washington St.

Not until the blood is purged of impurities and the system cleansed of all harmful substances should the ulcer heal, or the effect upon the system might prove disastrous. S. S. S. goes into the circulation and searches out and removes the cause of the old sore and invigorates and builds up the polluted, sluggish blood again, and as the poisonous matter is driven from the system the sore begins to heal, new flesh forms and the place is soon covered over with fresh skin and the sore is gone for all time. Where the constitution is debilitated from the effects of chronic sores, ulcers, abscesses, carbuncles, boils or other severe skin eruptions, S. S. S. will build it up again and stimulate and strengthen all parts of the system. S. S. S. contains no strong minerals, but is guaranteed entirely vegetable. It is unequalled as a Blood Purifier and invigorating tonic. Do not depend upon local remedies alone. Get your blood right, and as it forces out the poison the sore must heal, because nothing is left in the system for it to feed upon. Write us should you desire medical advice, which is given without charge.

RAM'S HORN BLASTS.

Warning Notes Calling the Wicked to Repentance.

WO-THIRDS of the average pastor's time is spent in "coddling" the sinners instead of going after the sinners.

Honors do not create honor. You cannot amble to heaven. Works of love are words of life.

Empty vessels never know enough to be silent. A hypothetical religion is apt to be hypocritical.

The Gospel of another life gives new life to this one. Sinners blame the law for the fruits of their lusts.

We are all liable to be tripped up by our triumphs. To-morrow's burden prevents today's blessing.

No one praises a bad man even for his good works. The calm of complaisance is not the peace of pardon.

Selfishness in our worship puts sulphur on the altar. Only the grateful heart grows in time of goodness.

This life may be for our passage, but it is not our port. Better be handicapped by God than paced by the devil.

They who love the world find it hard to leave the world. They who obey God blindly often see Him most clearly.

Our petitions cannot go up if our practice is going down. Sighing Christians see their sorrows without seeing their Savior.

Of course charity is born at home; but it cannot grow up there. The guide book to hell is not a primer on the way to heaven.

The men for public trust are the men who can be trusted in private. When serpents' eggs hatch out doves the saloon will benefit society.

Obscurity is to be preferred to immortality through immortality. When the heart is God's abiding place His peace is always there.

You cannot lay up treasure in heaven by leaving out charity on earth. Men who have to condescend to worship will never climb to heaven.

Praise on the tombstone does not scratch out harsh words in the life. The cynic finds the world empty because he is too little to look into it.

Spiritual things are all mystery where the Spirit has not the mastery. It is poor policy to try to avoid your premiums with the heavenly company.

No man has ever led this world up without without some of the light of God. You cannot build a pious memory out of what is stolen from the poor man.

Tolerating the debauchers of our men is but training the devil for our boys. It may be that all our weeping has its part in the oratorio of the universe.

The materialist fills his eyes with mud and then says that there is nothing else. Death may mark the difference between the walking and the winging of the soul.

EACH COLOR TO ITSELF.

How the Cherokee Nation Gets Over the Race Problem.

The race problem in the Cherokee nation is solved to the general satisfaction of the three races concerned and the intermediary mixed bloods.

In the location of homes the Cherokee fullbloods and negroes are mostly in settlements. The intermarried whites largely are in the towns and territory contiguous to each other. The Cherokee speaking citizens much prefer to associate together.

In the nation there are thirty schools attended by fullblood Cherokee children and seventeen by negro children. The negro blood schools are not by legal requirement, but as a corollary of their preference to live near each other. The Cherokee and negro do not intermarry or socially mingle. Two seminaries and an orphan asylum are attended by fullbloods and mixed bloods only, the colored high school by negroes only.

In the incorporated school districts whites and Indians attend the same schools, and race prejudice and undue feeling on either side are being lost in fellowship and friendship cultivated in the classroom and on the playground. Both sides are better satisfied in the combined schools than when they were kept separate. Fullbloods seem to mingle as freely with white renters and their families of good character as they do with mixed bloods.

Of the 38,500 citizens of the Cherokee nation the best statistical information gives about 8,500 fullbloods, 3,200 intermarried whites, 22,800 mixed bloods and 4,000 freedmen.—Kansas City Journal.

Big Task to Sweep Floor.

It is enough to blister one's hands just to contemplate the job that confronted the men who swept the floor of the mammoth palace of agriculture at the St. Louis world's fair. When the contractors finished their work all that remained to be done was to sweep the floor. It never dawned on anyone how great the task was. Caldwell & Drake, the contractors, ordered a dozen brooms and set twelve men to work. When night came the floor space were scarcely noticeable. They increased the force next day to forty men and ordered 100 brooms. These forty men worked ten days before the big floor was thoroughly swept.
