

Thomas W. Lawson, in the August number of Everybody's Magazine pronounces Henry M. Rogers, of the Amalgamated Copper company the biggest thief in the country, just because of his manipulations the public was plundered to the extent of over one hundred million dollars. We apologize to Rockefeller. We have unjustly given him more credit than he deserves.

The Corvallis Times commences the first column of news in its issue of July 20, with these sentences in the scare head:

HOT WEATHER.

Score of Persons Prostrated—Not a Particle of Breeze is Felt—Intense Suffering is Caused in the City.

These prognostications of evil days are fully verified in the column of matter which follows, and to which the heading evidently alludes. It is a resume of the Democratic situation, and the heading certainly fits it well. In one place he acknowledges that "in West Virginia Democratic success is threatened." This is a false alarm, Brother Irvine, so don't lose any sleep over it. The threatened calamity will not materialize. Roosevelt will be elected by a majority so overwhelming that the Parker vote of the country will be put down in the returns as "scattering." Grandpa Davis won't even acknowledge that he "also ran."

It looks as if the Grand Lodge A. O. U. W., of Oregon, was about to perpetrate the same cold-blooded atrocity that has been imposed upon the members by the California Grand Lodge. That is forcing out the old members who have made the order what it is today. As soon as a member commits the crime of becoming old, and the leeches and hangers-on who have been supported for years by the Grand Lodge find some of their perquisites in danger, then the old men must be bled or thrown overboard. In the language of one of their own speakers: "he ought to lapse or submit to a rate of assessment sufficient to pay out the full amount of his policy." A more heartless proposition was never made to a confiding public, than this California trick. The order there is proving false to every promise made to these men when they lured them into their lodges. It expects to induce enough young men to contribute to their game to keep the concern going indefinitely. Every promise they are now making to induce young men to join their dying order, they know well cannot be fulfilled. We trust the Oregon Grand Lodge will be more honest in their course in this matter. If not the Order in this State is doomed to an early death.

Ancient Order United Workmen.

The grand lodge of Ancient Order United Workmen is in session this week, and it promises to be a most strenuous session, to say the least. The problem of a great deficit, the most important problem in the history of the order in this state, has to be met and solved. Will the wisdom of delegates be sufficient to settle the matter in a just and equitable manner? We hope so.

William Narvis, the Supreme Master Workman, from Muscatine, Iowa, is present at the meeting. Prof. Berchtold, of this city, who is now Grand Foreman, is in direct line of promotion to Grand Master this time, and no other candidate has yet been mentioned as head of the Oregon delegation for next year.

O. A. C. Report.

(Continued from page 1)

\$700 or more and the latter for \$1000. It was pointed out that it was desirable to take the chemical laboratory entirely out of the college building and the refitting of other rooms would be necessary and to do this would entail the above cost. In the library there are more book shelves needed also another doorway. In the matter of a museum, collections are to be made of fossils, relics, antiquities etc. similar to that at Eugene. Two gentlemen, F. L. Reader, clerk of Harney county and Hon. C. H. Parrish, of Burns, Oregon, who have extensive collections have offered to assist in the work. Two committees will be appointed by the president of the board of regents, who are to look around and report what repairs are needed. The other committee is of a supervisory nature and will have oversight of all new building going on about the institution. The latter committee is standing.

WATER SUPPLY

The four wells recently sunk at the institutions furnished 9,000 gallons of water every 16 hours. The water supply is sufficient but the pumps are inadequate to supply the demand for all purposes, and larger pumps will be put in. Dr. Withycombe recommended that a sewer be put in from Cauthorn Hall to the south end of the college farm as the sewer already in is very small and becomes clogged. It will be necessary to put in an eight-inch sewer or put in a septic tank. Another recommendation was read from Dr. Withycombe, looking toward experiments in poultry raising. The recommendations were not acted upon.

SALARIES ADVANCED.

Four members of the faculty had their salaries increased. They were F. E. Edwards, assistant chemist, who will now receive \$1020, M. C. Phillips, instructor in Mechanical drawing and iron-work, will receive \$1020, R. J. Nichols, librarian, will receive \$60 per month instead of \$40 as heretofore, W. O. Trine, physical director, will receive \$1020. The committee recommending these increases of salaries also recommended that steps be taken by the faculty to reduce the number of failures of students to pass examinations.
