He bought the hogs 10 weeks ago when they weighed 256 pounds gross weight. He bought \$6 worth of chopped grain which was his only cash outlay for feed. They were fed all the milk and green feed they could eat and weighed at the end of the 10 weeks 648 pounds dressed. Counting one-third more for live weight it shows a gain of about 525 pounds. Mr. Gibbons says he cleared \$20 on the four hogs in 10 weeks.

Swann-Glassford Wedding.

In the presence of 45 relatives and friends, the wedding of Heber V. Swan and Nelle Glassford was solemnized at the home of the bride's parents, Mr. and Mrs. H. H. Glassford of this city, Wednesday evening at 8 o'clock, Rev. T. T. Vincent officiating.

The bride looked very attractive and beautiful in her dainty wedding gown of white silk organdie, with trimmings of lace and ribbons and carried bride's lilies. The groom was attired in a suit of conventional black. The bridesmaid, Miss Grace Glassford looking charming in her attire of white and carried pink carnations and the best man, Mr. Bert Yates wore a suit of black. After the ceremony they were congratulated by their many relatives and friends, after which all repaired to the dining room where a dainty supper was served by the hostess of the occasion.

The decorations consisted of ferns and roses in the hall and parlor and honeysuckle was artistically arranged in the dining room and produced a pleasing effect.

The bride is the daughter of one of the prominent citizens of Benton county, and was a student at the O. A. C. last year and while in college showed great talent along literary lines and the public has been pleased by several articles from her pen.

The groom is a popular and enterprising young man now in employ of the Independent telephone company. The happy pair will make their home in this city for the next three months. A large number of presents were received with many expressions of friendship and good will. About 35 friends of Mr. and Mrs. Swann gave them a charivari and all were invited in and treated to refreshments.

Don't Shoot Pheasants Yet.

Sportsmen are eagerly looking forward to the open season for pheasants, as it is evident that the shooting will be better than ever before. Everyone who has had an occasion to go through the farming districts has noticed that the supply of young birds is unusually plentiful. One can not drive through the wheat lands in any direction from Corvallis without frequently starting up large flocks of the beautiful birds. Just last week a farmer living near here, started up a bevy of nearly 30 birds about half grown.

There has been some misapprehension in regard to the pheasant law, arising no doubt from misleading articles that have appeared in many papers of late. There was a law up in the last legislature but was not passed, to change the present law.

The present law does not open the season until October. As a general thing a large number of the birds are killed each year before the season opens by hunters or by the rains that kill the young birds soon after they are hatched. This year, however, there was no rain until the young pheasants were strong enough to survive it. For this reason there will be twice as many young birds as last year.

The pheasants are less timid, too, than formerly, owing to a stricter enforcement of the game laws. A few years ago illegal hunting was so common that the pheasants became wild, and sportsman had difficulty in getting within range of them after the season opened. Illicit hunting has now been almost entirely abandoned, and the birds are easily approached up to the beginning of the open season.

Marion Lytle has Smallpox.

Marion Lytle has smallpox in Philomath. Saturday he was taken with a chill, Sunday he had a fever and Tuesday the pustules that are the unmistakable signs of smallpox began to appear on his face. The case is very mild, and Mr. Lytle suffers little or no inconvenience now the eruptions have begun to appear. He was in the livery stable at Philomath when Hawkins came in on the 4th all broken out with the disease. That is the only exposure he had to any case, but, as many more were exposed, there are still others who may yet take it.

Hawkins and Speedy were released from quarantine Monday. Speedy did not break out with the disease at all, as he was vaccinated by Dr. Newth soon after the exposure. They both went up into an old cabin in the hills, however, and remained there until they were pronounced cured. They took an oil can and boiled their clothes and thoroughly disinfected before coming down.

All these cases are exceedingly mild and not particularly dangerous. It is called by some Manila itch, but physicians who have been to the Philippine Islands say that this disease is unknown there, but is called smallpox in a mild form, and belongs peculiarly to the Pacific Coast of the United States.
