Arthur hauled a horse on his dray Friday night fourteen miles. It was the blooded stallion of James Sheridan, who lives five miles beyond Halsey. The horse was taken sick while here and it was decided that he ought to be at home where he could receive better care. He could not make the trip on foot, and so it became necessary to haul him on a dray. It was a hard task, but it was accomplished without an accident, and with apparently little inconvenience to the horse. The horse cost Mr. Sheridan \$2,200 at Spokane, last April, and he was altogether too valuable an animal to lose. The trip was taken in the night, to avoid the heat and dust, Mr. Arthur returning Saturday. An accident occurred about 1 o'clock yesterday in which a wheel was torn from a buggy containing several ladies. The Occidental bus was going down to the C. & E. depot and were near the corner of Adams and Sixth street when the S. Jesse Chesley, a timberman at the Benton County Lumber Company's camp above Philomath, had his eye gouged completely out of the socket last Tuesday. The terrible accident occurred while he was coming down a steep hill. He stumbled and fell upon a vine maple snag striking it in such a way as to dig the eye out of its socket but not tearing it loose. Mr. Chesley forced the member back into place as best he could and hurried for medical assistance. Dr. Newth was absent in San Francisco and another physician could not be reached in time. By the application of simple home remedies Mr. Chesley, although suffering unspeakable pain may yet save his eye. The ligaments were badly torn but the eyeball was saved. He will be able to be about in a short time.

DENMAN, County School Superintendent. The Standard Oil Code. Here is the Code of Standard Oil, as given in the August number of Everybody's by Thos. W. Lawson, continuing his Story of Amalgamated, a "Standard Oil" product. The penalty for infringing the following rules is instant removal of the offender's head: 1. Keep your mouth closed, as silence is gold, and gold is what we exist for. 2. Collect our debts tomorrow. Today is always here, tomorrow may never come. 3. Conduct all our business so that the buyer and seller must come to us. Keep the seller waiting. The longer he waits the less he'll take. Hurry the buyer as his money brings us interest. 4. Make all profitable bargains in the name of "Standard Oil" debatable ones in the name of dummies. "Standard Oil" never goes back on a bargain. 5. Never put "Standard Oil" trades in writing, as your memory and the other fellow's forgetfulness will almost always be reinforced with our organization. Never forget our Legal Department is paid by the year, and our land is full of courts and judges. 6. As competition is the life of trade—our trade; and monopoly the death of trade—our competitors' trade, employ both judiciously. 7. Never enter into a butting contest with the government. Our government is by the people and for the people, and we are the people, and those people who are not us can be hired by us. 8. Always do right. Right makes money, might makes dollars, dollars makes right, and we have the dollars. Letter List. For the week ending July 22, 1904.
