The time for making cider is growing short. It is probable that the factory will not run more than two weeks longer. If you have apples to sell or apples to grind, bring them in at once. There may be prohibition days in our county soon, and then you'll wish you'd made provision against the drought.

School Meeting in Beaver Creek.

Notices have been posted in our district calling a meeting on Saturday, Oct. 22, at 3 o'clock p. m., to vote a tax to purchase new seats for the school house. This action shows the energy of the patrons of District No. 22 up-to-date in their watchword. The officers say "Better equipments; better teachers and better wages." A \$25 teacher does not fill the bill for them. I for one am willing to be put under just such a ban. For what is one worth if he is not qualified for his position! It is just as absurd for one to pose as a school teacher and not to be able to teach as it is for a carpenter to advertise as a special mechanic and not know how to lay his square upon a plank; so as to indicate the desired angle to cut a rafter. I desire to see the salaries of Benton county's teachers raised equal to and even above any other counties in the state, B.
