The leak in the water main at the intersection of Monroe and Third streets was caused by a sand hole in a section of pipe. Oregon's Future Requires It.

Oregon has but four Presidential Electors to vote for: hence the only factor available to create sufficient interest in the election is a spirit of State pride, a due regard for our State's welfare, and availing ourselves of an opportunity of attracting capital and immigration to our State. With Washington it is different. There they have their State, district, county, and precinct officers to elect; and this will assist in getting out the vote. Moreover, they have a contest for Governor, and that of itself will manufacture interest.

The citizens of our State are everywhere organizing and spending money to advertise and encourage immigration. The Oregon Development League is soliciting capital to profitable employment here; is inviting the manufacturer, the farmer, the miner, the stockman—in fact, all classes of citizens are urged to come and assist in developing the resources of our State. The Board of Trade throughout the State, the Chamber of Commerce, the Commercial Clubs, the Development and Improvement Leagues, and the various other organizations whose purpose is to induce immigration here, are doing most excellent and commendable work, and are entitled to the lasting gratitude of our people in every county, and precinct, and should be supported liberally, in the meritorious work they are doing for Oregon; and the citizens of the State have the opportunity to encourage these bodies in their work by availing themselves of their franchise and getting others to do the same.

Don't worry about how your neighbor is going to vote; simply emphasize the importance from a commercial standpoint of his doing so. And, moreover, every man should avail himself of that sacred right.

After this Presidential election the newspapers of the country will teem with comparative data touching the growth of Oregon, Washington, of Idaho, in fact every Pacific State since the last Presidential election will be given fullest publicity. And papers of Washington, will publish in bold-faced type the growth of that State, and should her ratio of increase exceed that of Oregon's, there will be no end to newspaper comment nor to the distribution of literature showing the disparity between the two States. Will it not cause inquiry and consequent immigration if news papers, almanacs, government and other statistics all over the Nation advertise that Oregon since the last Presidential election has grown equally in population with other States of the Pacific? The fact is, we have grown in population and are growing in population, and it but remains for voters of this State to demonstrate these facts to people who are looking to the Pacific for future investment and homes.

Regular services M. E. church, South, Sunday morning and evening. Subject Sunday evening "Why I am a Southern Methodist". Sunday School at 10 a. m.

COLLEGE JOTTINGS

Items of Interest In and Around the O. A. C.

Miss Ethel Pierce who attended OAC last year is now at Hillsboro. She is taking vocal lessons in Portland.

Mrs. Borst, of Centralia, Washington, has secured rooms here and is to remain through the winter so that her daughter, Gladys, may have the advantage of music at the college.

The second football team goes to Eugene tomorrow, where they will play the U. of O. second team. Last year the two teams played a scoreless game, but after their fine showing with the Portland High School a better game is expected this year.

The past week of pretty weather has caused considerable talk among the students of a trip to Marys' Peak.

The National Grange is to meet in Portland next month, and may visit OAC. They wish to come up on the East side and return on the West side in order that they may get a view of the Willamette valley. If they should decide to visit OAC they will be welcomed and probably some kind of a special entertainment will be provided for them. The trip will be made about Nov. 22, and there will likely be over 200 excursionists.

Miss Vella Mace was unable to attend classes Monday on account of a bad cold.

Prof. Pernot's class in Bacteriology met from 7 to 8 o'clock on Tuesday evening so that the members would not miss any of the game on Wednesday afternoon.

Harold Rumbaugh and Royal Shaw spent Sunday at their homes in Albany.

One of the most enjoyable events given at the college this year, was the reception tendered the Utah football boys Wednesday evening by the Amicitia Society. The Armory was crowded by a little after 8 o'clock and the literary program began. It consisted of an opening address by Karl Steiwer. This was followed by a vocal solo by Miss Edna Allen. Dr. Withycombe then gave an interesting and entertaining talk. Two of the Utah boys gave short impromptu speeches in which they spoke of remembering their stay in Corvallis as one of the most pleasant on their trip. After the program the chairs were moved and the band took the center of the floor and dancing continued until 11 o'clock, when the young people dispersed, pronouncing it a most pleasant evening. The Utah boys were delighted with the treatment they received and said they felt right at home in Corvallis as it is nearly the same size town as Logan, Utah, and the college buildings greatly resemble their own. They are anxious for the OAC boys to return their visit next year.
