

Catarrh

Whether it is of the nose, throat, stomach, bowels, or more delicate organs, catarrh is always debilitating and should never fail of attention.

It is a discharge from the mucous membrane when kept in a state of inflammation by an impure, commonly scrofulous, condition of the blood.

OFFENSIVE CATARRH

I suffered for a long time with a bad case of Catarrh, and took a great deal of medicine without any benefit.

I had a continual headache, my cheeks had grown purple, my nose was always stopped up, my breath had a sickening and disgusting odor, and I coughed incessantly.

I heard of your S. S. S. and wrote you. I commenced to use it, and after taking several bottles I was cured and have never since had the slightest symptom of the disease. MISS MARY L. STORM, Cor. 7th & Felix Sts., St. Joseph, Mo.

Wheeling, W. Va., May 29, 1903.

I had Nasal Catarrh for years for which I used S. S. S. with very gratifying results. I tried local applications for some time, and getting no permanent relief I came to the conclusion that the seat of the trouble was in the blood. Knowing S. S. S. to be a good blood medicine I began its use, and after using it for some little while it did away entirely with the offensive mucus in the nostrils, and I did not have to hawk and spit, especially in the morning, to dislodge the catarrhal matter.

1677 South St. FRED H. PRESSY.

The filthy secretions and foul mucus that are continually dropping back into the throat, find their way into the stomach and are absorbed into the blood. Catarrh then becomes constitutional, and the only way to get rid of it is through the blood. Write us if you have Catarrh, and our physicians will advise you without charge.

COLLEGE BUILDING RACE.

As It May Be with Millionaires in Competition.

Andrew Carnegie has assured Pittsburgh people that if they are really desirous of having a university which shall beat anything in the country he will help.

Imagination falters, says the New York World, when it attempts to picture the struggle that must follow among the philanthropists when such a pacemaker starts in the schoolmaking race. Fancy the scene at the Millionaires' Club five years from now when Mr. Carnegie will come swinging jauntily into the room with his golf clubs under his arm.

"Well, John," he will say, "I have just added 200 acres to the Pittsburgh campus and deposited \$5,000,000 in steel bonds as endowment to provide gymnasium facilities."

Mr. Rockefeller will rub his hands in glee and say:

"Too late, Andrew. Very good in its way but antiquated. I have just bought Lake Michigan for the University of Chicago for its crews to practice on. All out at Sault Ste. Marie hereafter."

Mr. Vanderbilt will look up from his paper and remark casually:

"I might say that the family has just purchased all the land within two miles of the Yale campus and will cover it with dormitories."

Mr. Vanderbilt will say this very modestly, but with a gleam of triumph in his eye. But "Ah!" he will exclaim, as he returns to his paper. "Boy, bring my checkbook! Gentlemen, Mrs. Stanford has just bought the Sierra Nevada mountains for the school of forestry of the Leland Stanford, Jr., University."

The three rich men will pale at this announcement.

"There's one thing left to do!" they will cry in chorus. "Raise the professors' salaries. We must stay at the top."

"I give an annual income of \$100,000 to raise the professors' salaries," one of the millionaires will blurt out.

A college professor who happens to be a guest at the club that evening will be carried out fainting.

Poor, but Polite.

"Want some money, do ye?" said the kind old lady. "Now, I wonder of ye deserve it. What would you do with a penny if I gey it to ye?"

"Lady," replied the polite beggar, "yer kindness would touch me so dat I'd buy a postal card wid de money an' write yer a note of thanks."—Catholic Standard and Times.

Bushmen Dwell in Nests.

Several travelers who have returned from the heart of Africa and the Australasian continent tell wonderful stories of nest-building people who inhabit the wilds of those countries.

The bushmen of Australia are, perhaps, the lowest order of men known. They are so primitive that they do not know enough to build even the simplest form of hut for shelter. The nearest they can approach to it is to gather a lot of twigs and grass and, taking them into a thicket or jungle, build a nest for a home.

The nest is usually built large enough for the family, and if the latter is very numerous then the nests are of large size. Sometimes the foliage above will form a natural covering, but there is never any attempt at constructing a protection from storms.

WILL MEET AT PORTLAND.

Quadrennial Convention International Anti-Cigarette League.

Oregon is to be favored with the international meeting of the anti-cigarette hosts. People young and old interested in this "most successful of reforms," as U. S. Senator Teller, of Colorado, terms the Anti-Cigarette league, will gather in the Lewis and Clark city on July 15-16-17 next. The meetings of the convention are timed to fit in between and overlap with the conventions of the American Medical association and the National Board of Charities and Corrections, so that prominent persons interested in these two great events may also have the opportunity to take part in the deliberations of the anti-cigarette meetings—many of the leaders in medicine and the work of charity and reform being also identified with the efforts of the opponents of the cigarette.

A great campaign of education among the schools of Portland has just been completed by Dr. Wallace K. Struble, general superintendent of the International league, and over 7,000 young people have been enrolled as members of the league in that city. Those will be properly organized and officered and

FRANK A. BUCK

Of Toronto, International President of American Anti-Cigarette League and Vice President for Canada of the International League.

will be divided into proper committees for the reception and entertainment of the young people who may attend as delegates or visitors from abroad. Many interesting events are being planned for the entertainment of the junior section of the convention, embracing field sports, musical attractions, oratorical contests, etc. The election of International Junior officers will also be held, an event that will doubtless occasion much competition. As the league now extends throughout Great Britain and Canada as well as the United States, there will be numerous aspirants for the official honors.

Information as to the convention may be obtained by addressing Elmer Ellsworth Miller, secretary board of directors, 612 Commercial building, Portland, Oregon.

ON THE FIELD OF WATERLOO.

Monument Erected by France to Her Soldiers Who Fell There.

The field of Waterloo, where the star of Napoleon I. forever set in a night of gloom, has been variously marked with monuments by the nations whose soldiers took part in that titanic struggle. No more attractive memorial has been erected, however,

THE WATERLOO MONUMENT.

than the new one just dedicated by France to her soldiers who fell in that conflict. The French lost about 30,000 men, while the allies—English, Dutch and Germans—lost 23,000. These frightful casualties throw into insignificance the combats thus far waged in the East and which Japanese admirers would have the world believe as transcending anything preceding them. The monument is crowned by a wounded eagle, typical of the defeat France sustained in the downfall of Napoleon.

Up to Date.

SCALLOPS ARE REVIVED.

Charming Fashion of Days of Empress Eugenie Again in Vogue.

Of the multitude of charming things which the present revival of fashions has given us, nothing is more fetching than the scallop, which is so gracefully decorative that one can only wonder at its long absence from the sartorial field.

The scallop was in high favor with the Empress Eugenie, and consequently the second empire gowns are very liberally bescalloped.

The peerless Eugenie rarely made a mistake in matters of dress, and her judgment was unerring. She was the arbiter of fashion for many years, and save for the ugly crinoline, the modes of that period were exquisitely graceful and beautiful, and the numerous things which we are now borrowing from the second empire are invariably attractive when adapted to our present-day ideas.

This season we are being treated to a wealth of scallops, for the French have taken a fancy to them, and thus we are favored.

Many of the new gowns have no other form of decoration than scallops bound with the same material. One may perhaps suppose that this is a most economical arrangement, but scallops are only for the long purse, unless they are made at home, for it requires a deal of time to bind each scallop carefully, and as the binding down is done by hand, it is a long task, and in large dressmaking establishments this sort of thing means big bills, but on expensive gowns founces are scalloped till the whole is as fluffy as with leaves.

Scallops are bound with a contrasting material in color many times, and thus a great variety may be obtained if one delights in scallops sufficiently to have several gowns trimmed with them in one's wardrobe at one time.—Boston Globe.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA

"The World of Medicine Recognizes Grip as Epidemic Catarrh."—Medical Talk.

La Grippe is Epidemic Catarrh.

It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so, a new word has been coined that exactly describes the case. As if some hideous giant with awful grip had clutched us in its fatal clasp.

Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Have you the grip? Or, rather, has the grip got you? If so, read the following letters.

These testimonials speak for themselves as to the efficacy of Peruna in cases of la grippe or its after effects:

A Southern Judge Cured.

Judge Horatio J. Goss, Hartwell, Ga., writes:

"Some five or six years ago I had a very severe spell of grip which left me with systemic catarrh.

"A friend advised me to try your Peruna, which I did, and was immediately benefited and cured. The third bottle completed the cure."—H. J. Goss.

Cured in a Few Weeks.

Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Stock Co. She writes the following:

"During the past winter of 1901, I suffered for several weeks from a severe attack of grip, which left a serious catarrhal condition of the throat and head.

"Some one suggested Peruna. As a last resort, after wasting much time and money on physicians, I tried the remedy faithfully, and in a few weeks was as well as ever."—Jean Cowgill.

Saved by Pe-ru-na.

Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public boards a number of times. He endorses Peruna in the following words:

"I am 68 years old, am hale and hearty and Peruna has helped me attain it. Two years ago I had la grippe—my life was despaired of. Peruna saved me."—J. R. Guill.
