HEALTH

"I don't think we could keep house without Theford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakens kidneys.

NO DOCTOR

is necessary in the home where Theford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhoea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.

Job Printing.

When you pay out good money for printing, be sure and get good printing for the money!

Do not send out printed matter to your customers that is a disgrace to your business a disgrace to your town—and a disgrace to the printer who puts it out.

Good printing is correct in spelling—correct in grammar—correct in punctuation—on good stock—printed with good ink—and something that it is a pleasure to look at.

That is the kind the Gazette turns out.

Prices for good printing are based on the cost of good material, and the labor and taste employed in doing the work. To this every printer adds a percentage for profit. The cheap printer charges the same profit as the good printer—the difference in cost to you comes out of the value of the material used—in fact you pay for all you get.

Skill, taste and experience are necessary factors in producing GOOD printing.

Examine your work, and don't pay for it until you know it is all right. It is your own fault if you pay good money for rotten eggs.
