WIN SECOND.

The Trip on the Pomona to New-berg and Return—Result of the Inter-Collegiate Oratorical Contest.

In the state inter-collegiate oratorical contest held at Newberg, last Friday night, Walter R. Miles, of Pacific College, won first honors; John Withycombe, of the Oregon Agricultural College, was awarded second place and A. R. Marke, of Willamette University, third. The winning orator is a junior in college, and is only 20 years of age, but has already made a name for himself as an orator, having won the National Prohibition Oratorical contest last year.

The subject of his oration was "Altruism, and True Progress." Mr. Miles painted a magnificent word picture of Valley Forge and the heroic spirit of the continental army. This, with his splendid plea for strong, unselfish men of the Valley Forge type, and his impassioned delivery won for him the coveted honors.

The steamer Pomona left Corvallis at 6 o'clock Friday morning with 25 enthusiastic rooters who accompanied OAC's orator, and at each landing heralded their approach with ringing college cheers. Delegations were taken on at Albany, Independence and Salem, and altogether it was a merry crowd that disembarked at Newberg at 3:30 in the afternoon.

The business meeting of the Association convened at 4 o'clock and held a short, harmonious meeting, making some changes in, and adding to the constitution of the I. O. A. O. The contest was advertised to begin at 8 p. m. in the Friend's church. Long before that time crowds were arriving and it was anything but a Quaker meeting. The OAC delegation were among the last to make themselves in evidence, but at a time when there was a momentary lull, their beautiful new orange banner was unfurled, and Zip! Boom! Bee! rang out with a volume that was good to hear. A splendid musical program accompanied the orations, the McMinnville College Glee Club furnishing some especially interesting selections.

After the contest the delegations were entertained at an elaborate nine-course banquet, which lasted until 4 a. m. Each college responded to a toast on some subject, OAC toasting the governor.

The inter-collegiate oratorical contest is the only event of the year where delegations from all the colleges meet together, and those privileged to attend argue that it is a most excellent thing to foster a feeling of friendship and sympathy between the colleges, as well as to stimulate this important feature of education.

Returning on the boat, the crowd left Newberg at 12:30 p. m., Saturday, and the opportunity of meeting and getting acquainted with the different delegations was not passed by. The boat arrived in Corvallis at 8 o'clock Sunday morning, and unloaded a cargo of tired, but happy students. The contest next year will be held in Albany. OAC's next turn will be four years hence, each of the eight colleges in the association having the contest in their respective towns in regular order.

Government Whitewash.

In response to a request from many people we publish a receipt for a preparation known as Government Whitewash. This mixture is used by the government in whitewashing light houses and other public buildings. It is a splendid mixture and is desired for whitewashing fences and trees and otherwise beautifying the premises of a number of our subscribers. The receipt is as follows:

Slake half a bushel of lime with boiling water, keeping it covered during the process. Then strain it and add a peck of salt dissolved in warm water; also three pounds of ground rice stirred in boiling water and boiled to a thin paste, one-half pound of Spanish whiting, and a pound of glue dissolved in warm water. Mix these well together and let the mixture stand for several days. Keep the wash prepared

in a kettle or portable furnace; heat it when wanted for use, and put it on as hot as possible with a whitewash brush.

The above receipt is the one given out by the lighthouse board of the treasury department and is largely used for public buildings. It has been found that this wash may be applied with equal success to wood, brick or stone; that it is nearly as durable as oil paints and far cheaper.

ROUMANIAN THIRD DEGREE.

The Sweating Process by Which Con-fessions Are Forced from Suspects and Prisoners.

"The prisoners in our country are treated like kings and princes as compared with those of Roumania," said John T. Ekalls, of Portland, Me., according to the Louisville Herald.

"I chanced to be in Roumania about six months ago and saw a man arrested. Being curious, I determined to watch and learn what they did with him. He was not tried and released the next day, as he would have been in this country, but was subjected to mediaeval tortures. He was whipped with the so-called sand sausage, a bag filled with wet sand. This instrument of torture inflicts terrible pain, but leaves no marks whatever on the body of the culprit.

"This particular prisoner was tortured in order to wrest from him a confession whether or not the kissing of an actress had been the result of a preconcerted conspiracy. He denied it and was then treated to the joys of the 'ash bag'—that is, his head was put in a bag filled with ashes. The jailers beat with a stick upon the bag, causing the ashes to penetrate into the eyes, mouth, nostrils and ears of the prisoner.

"The process was then wound up by what is known as the 'truth finder,' a sort of wooden forceps by which the temples of the prisoner are compressed. This was too much for the man. He confessed a lie.

"I was glad to learn a few days later, however, that the torturers had been removed from office for their unseemly work."

ORIGIN OF MONETARY NAMES

Something of the History as Related by an Employee of the Treasury Department.

"There has been a scarcity of small change of late," said C. M. Binghamton, for 40 years with the United States treasury department, according to the Louisville Herald of recent date. "All sorts of reasons are assigned to explain this condition, but, whatever the cause, it is vexatious. However, it is not so bad now in the way of exchanges as it was in the olden times.

"The early Italians used cattle instead of coin. A person would sometimes send for change a thousand-pound bullock, when he would receive a 25-pound sheep, or, perhaps, if he wanted very small change, there would be a few lambs sent back. The inconvenience of keeping a flock of sheep at one's banker's led to the introduction of bullion.

"People often wonder where certain monetary names came from. I'll tell you a few of them.

"Formerly every gold watch weighed so many 'carats,' from which it became usual to call a silver watch a 'turnip.'

"'Troy weight' is derived from the extremely heavy responsibility which the Trojans were under to their creditors.

"The Romans were in the habit of tossing up their coins in the presence of the legions, and if a piece of money went higher than the top of the ensign's flag it was pronounced 'above the standard.'

Cured Hemorrhage of the Lungs.

"Several years since my lungs were so badly affected that I had so many hemorrhages," writes A. M. Ake, of Wood Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. Sold by Graham & Wortham.
