MONDAY DULL AT BARBER'S

Tenacious Artist Declares That Business Does Not Really Begin Until Tuesday.

"Monday is always a slow day with us," said the barber to a Philadelphia Record man. "I have never been able to figure out just why this should be, but the same condition exists in every shop in town. If a barber wants to lay off for a day, he generally selects Monday, and if the boss has an emergency man, he always lays him off on Monday. I dare say the business is 50 per cent. less than on any other day in the week. This is all the more surprising, because it is almost impossible to get a shave in Philadelphia on Sunday, and a man's beard grows in spite of the societies that close us up. I suppose a lot of men go out of town over Sunday, and others who stay at home shave themselves. At any rate, business doesn't really begin until Tuesday morning."

PLUM ORCHARD TOWN.

Success Which Attended Planting of Single Tree Brings New Industry to Syracuse.

One day some years ago an enterprising resident of the village of Syracuse, O., brought a Damson plum tree home with him and planted it in his front yard, says Country Life. It grew and thrived and in good time bore fruit. It was good fruit, and he planted more along his garden fence from sprouts that came up from the first tree. They also soon bore fine plums. By this time his neighbors had their attention attracted to his modest plum orchard. They bought his surplus plums and begged sprouts from about his trees, thus exemplifying the spirit of the boys who desire to cast their lines in productive pools. It was found that the locality was comparatively free from two very annoying plum pests—black knot and insects—and the great bend in the river seemed to protect the fruit from late frosts, so that two full crops every three years might be expected with reasonable certainty. The result was that plum growing spread from lot to lot and from street to alley until the industry amounted almost to a craze. The markets grew and expanded, however, and there never was any difficulty in disposing of the crops at good prices. When other localities had crops Syracuse had to be content with the ruling prices in the general markets, but when other places failed, Syracuse made her own prices.

MOYASHI UDO IS POPULAR.

Japanese Plant with Peculiar Name Possesses Combined Flavor of Pineapple and Lettuce.

One of the products of Japanese farms which may become popular and its cultivation profitable among the nations of the west, says Booklovers Magazine, is moyashi udo, a remarkable salad plant, which is crisper than celery, possesses the combined flavor of pineapple and young lettuce, is devoid of fibers and comes into outdoor maturity in mid-winter. It is predicted by American scientific agriculturists who have been in Japan and noted the flavor, popularity and growing habits of the udo plant, that it is destined to become as famous and as important a table delicacy in Europe and America as asparagus or celery. The udo plant has been grown in the United States purely as a rare ornamental, as it was not supposed to be edible. Now that it is known to possess a value which promises to give it an honorable place with asparagus and similar dishes, its cultivation by American truck farmers may prove decidedly profitable. It is to be remembered that what gives the udo distinctive value is that it matures in the winter time. When served udo salad is as white as snow, and luscious as silk.

WOMEN AS TAX DODGERS.

Milwaukee Commissioner Declares That Men Are More Honest Regarding Property Values.

Tax Commissioner Bruce has found an honest man. In fact, he claims that several of this species have found their way into the offices of the tax assessors, and his opinion of human nature, he declares in the Milwaukee Sentinel, has risen several degrees. "When I first began this work," said Mr. Bruce, "I had a fixed idea that one-half shirked its taxes and that the other half had none to shirk. My opinion has been changed, however. There have been several cases—as many as five or six—in which men have asked, yes, begged, the assessors to put them on for the full value of their possessions. They seem to take a certain pride in their honesty."

"Women are worse than men, when it comes to concealing property. In many cases they even refuse to permit the assessor to go into the house. As a result the assessor assesses them for more than they could possibly be worth, and thus usually brings the husband to our office with a sworn schedule, as well as an apology for his wife's rudeness."

160,000,000 HORSESHOES

Enormous Number Used in the United States and Canada Annually—Rubber Shoes Have No Effect.

"Two million kegs, containing 160,000,000 horseshoes, are used annually in the United States and Canada, approximately speaking," said S. L. Martin, of Boston, who represents an iron manufacturing concern of the east. "That was about the number used last year, and all the hue and cry about rubber shoes and automobiles is raised in the face of a constantly increasing sale of horseshoes. As a matter of fact, the use of rubber horseshoes, which is confined almost altogether to the large cities, is a help to manufacturers. The sale of the old-fashioned shoes goes on increasing, and in addition to that the manufacturers have an opportunity to make the steel portion of rubber shoes. All so called rubber shoes have a rim of steel in them, and it is usually of better metal and gives the manufacturer a wider berth for profits than the old-fashioned shoe."

Machine Had Voice Wrong.

They have a story in London of an Oxford don who was induced to speak into a phonograph. Some time later the machine was set going again and he was asked to listen to his own voice. He did so, and after the sound had ceased he said to the assembled company: "It is strange that this machine makes me speak in dumptyous and affected manner."

Declares Our Army the Best. Lord Wolseley says that "the American army, so far as it goes in numbers, is the finest army in the world."

Many Subjects Discussed.

Each Sunday evening for the next few weeks, commencing April 2nd, the pastor of the Christian church will hold special revival services. Subjects will be discussed as follows:

Where are you going? (a large and interesting chart will be used).

How will you get there? (chart). Faith; What is it? Repentance.

A change of heart (chart). Obedience (illustrated on blackboard).

J. M. Morris, of Seattle, corresponding Sec. of Washington, will be with us to preach Sunday evening, April 9th. This will afford all a splendid opportunity to hear an eloquent preacher and leading worker from a neighboring town. The public is cordially invited to attend all these services. "Come let us reason together."

HEALTH "I don't think we could keep house without Theford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy." JAMES HALL, Jacksonville, Ill. Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakened kidneys No DOCTOR is necessary in the home where Theford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhoea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health. THEFORD'S BLACK-DRAUGHT
