STAND FOR RIGHT.

The evil born of corporations live after them. Corporations and corporation methods are the acme of selfishness, of greed, of tyranny. A combination of great capitalists against any man of modest means spells "ruination" for the latter in any business in which he may engage. Leading republicans recognize this and are becoming each day more active in their efforts to guard against the corporation evil.

Through the efforts of President Roosevelt the methods of numerous trusts and combines are being looked into pretty closely. The Beef Trust has had a period of squirming and the president's idea of railway regulation already has a firm hold on the minds of the majority of our people. There seems some hope of better things in the future.

If one turns to history almost anything can be proved. To some it will seem that the world is getting better, while to others we will, by comparison with the methods of our forefathers, appear to be hovering over the brink of hell. To the individual "tis thinking makes it so." Much depends on the way you look at the matter.

We recollect once to have attended a prohibition oratorical contest where there were some five or six orators in competition. Some were optimistic and spoke in glowing terms of the work accomplished by those opposed to the drink habit, while others saw only the darker side of the question. To the latter there was no help, no power to save; affairs of government, from hearthstone to national capitol, were sliding into all the hideousness of perdition.

Think of it! All in one evening, the same subject, too. And yet, these people were all united for a certain cause—all firm advocates of their principles. Much depends on the point in view. Those who are at present bewailing the sad condition of affairs should take courage and hope from the fact that the country still possesses honest leaders. The examples set by such men as Roosevelt and La Follette are bearing fruit each day. The good they do will live after them. The people will demand that those who follow in the footsteps of these men shall be of high principles, of honor unquestioned.

This must not become a "government of corporations, by the corporations and for the corporations." The people must stand by such men as Roosevelt and in this way encourage other men to emulate their example.

THE PRINCELY DIGNITY.

Germany is now giving serious consideration to the matter of settling a certain annual allowance on the crown prince when he enters upon the blissful seas of matrimony. The reason for all this consideration is that the young man may uphold his princely dignity.

It will be of interest to note what the reichstag will finally conclude the young fellow's princely dignity is worth to Germany. One reason urged as a reason for the reichstag to act is that although the crown prince's daddy enjoys an income of \$4,500,000, he finds himself too poor to maintain the princely dignity of the progeny which nature handed him. 'Tis distressing to be so poor!

Mr. and Mrs. Oscar Healy arrived from Portland, Friday evening, for a short visit.

Miss E. V. Taylor.

After an illness of some considerable duration, Miss Elizabeth V. Taylor departed this life at her home on Fourth street just north of the J. W. Wilbanks residence, last Saturday. She was aged 71 years and 7 months. The funeral services were held at the residence at 11 a. m. yesterday and were conducted by Rev. Green. Interment was made in Odd Fellows' cemetery.

Miss Taylor was born in Columbus, Miss., and came to Corvallis in 1869. She resided here continuously ever since her arrival nearly 40 years ago. She made many friends and was lovingly known as "Aunt Tess" by her numerous acquaintances.

Deceased was the younger sister of B. T. Taylor and Mrs. T. P. Worley; both of the latter are several years deceased. Miss Taylor came to Corvallis in company with Mr. and Mrs. Worley from Mississippi. Dr. E. H. Taylor and James C. Taylor, both of this city, are nephews of the deceased woman. "Aunt Tess" is gone to return no more, and her demise marks the passing of a gentlewoman, another of our most respected citizens.

O. A. C. Water Problem.

After three days of steady pumping on the recently drilled wells at OAC the flow of water greatly decreased. Just what the reason was for the falling off of the flow is a matter of conjecture. It is thought most probable that the pipe became clogged with sediment and with this idea in view those in charge of the work out there will again put the drills down with a view to cleaning away the obstruction.

They feel very certain of the supply of water there and calculate to drive another well, arguing that they can pump on first one and then the other a day or two each and with the assistance of the old well have all the water desired. The matter is to be thoroughly investigated now that it has been taken up. The weather during the past day or two has been so wet that pumping out in the open was an impossibility as the belts on the engine persisted in stretching and slipping.

Bridge Closed.

Our people had better make certain of the condition of the steel bridge at Albany before they drive down there with the expectation of crossing. The following from Sunday's Herald will explain why:

The steel bridge across the Willamette, work on which has been under way for some time, will soon be completed. Tomorrow and Tuesday the bridge will be closed owing to the fact that the force now at work on the structure will begin the work of laying the stringers and flooring of the Benton county approach where the same runs from the main span to the twin approaches on the Benton county end. As soon as this is done, which will be in about two days, the bridge will be open to travel, and will not again be closed. The new approach will be ready in a short time and as soon as Benton county authorities open the new roads leading to the end of the bridge as contemplated, travel over the new structure will commence.

The repairs of the bridge have cost this county a neat sum, but the work was done in a thorough manner and the indications are that in a few years the saving on repairs will make up for the cost of time. The steel bridge and its approaches are now in better condition than ever in the history of the structure.

The Richest Man in the World.

The richest man in the world can not have his kidneys replaced nor live without them, so it is important to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." For sale by Graham & Worthman.

Cleared for Action.

HEALTH

"I don't think we could keep house without Theford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakened kidneys.

No DOCTOR

is necessary in the home where Theford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhoea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.

WE are frank to admit that of some clothing there is little good to be said. In some cases this good may be the making; in other cases,

enough to tell about what the inside of a garment amounts to, but that usually tells its own story. Character which results from clothing skill is

the materials; others, of the design, style and character effect given. Whatever it may be, if you are a progressive man there is no garment worth mentioning to you unless it contains these combined good qualities. Our Crouse & Brandegee Nusac has them. It is all well

a thing a suit must have. We believe in tangible facts and have gone into the clothes subject to satisfy ourselves and you that we are right. Good clothes mean some-

thing to every young man. A well-dressed man demands respect and denotes self-respect, both of which are important.

Job Printing.

When you pay out good money for printing, be sure and get good printing for the money!

Do not send out printed matter to your customers that is a disgrace to your business a disgrace to your town—and a disgrace to the printer who puts it out.

Good Work costs you no more than the bad.

Good printing is correct in spelling—correct in grammar—correct in punctuation—on good stock—printed with good ink—and something that it is a pleasure to look at.
