Low round trip rates have been placed in effect between Portland and Willamette Valley points, in either direction. Tickets will be sold;

SATURDAYS AND SUNDAYS, and limited to return on or before the following Monday

RATE TO OR FROM CORVALLIS, \$3.00. Call on Southern Pacific Co's Agents for particulars.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine in the world. At Allen & Woodward's drug store; 50c and \$1.00; guaranteed. Trial bottle free.

Cured of Bright's Disease.

Geo. A. Sherman, Lisbon Red Mills, Lawrence Co N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believed I would have died if I had not taken Foley's Kidney Cure." Sold by Graham & Wortham.

Return Trip Rates.

Beginning September 28, the Southern Pacific will sell return trip tickets from Corvallis to Portland for \$2.60. These tickets are good for ten days and will be honored by any train going or coming on dates called for.

"Man's food," said an authority on questions of diet, "is largely a matter of climate.

"The inhabitants of a country must eat what lies nearest to hand, so that in the north the native must live on the flesh of animals, since he cannot readily obtain much vegetable food.

"The native of the south, on the other hand, is often a vegetarian, because he lives in a climate where fruits and vegetables abound, and where meat, owing to its heating qualities, is not in request.

"In the temperate regions men naturally consume both meat and vegetable foods.

"I believe the question of food nowadays has a good deal to do with the progress of mankind, by producing similarities that in days to come will lessen the physical and mental differences between different races. I refer to the fact that foodstuffs are exchanged between various parts of the globe, many tropical fruits, for example, being conveyed to and eaten in northern countries and vice versa. The exchange of foods between nations probably has effects little less important than the exchange of ideas."

GREAT POULTRY SHOW.

Exhibit to Open October 5—One Week.

A quality show—that is what the Lewis and Clark Poultry Show will be. The show opens on October 5th and will continue until the 12th, inclusive. There are 1000 birds entered, and every one of these is worthy a prize.

"The poultrymen looked upon the show as a very fine exhibition," said G. Hunt, the Secretary, "and they have entered only chickens that they think will stand an excellent chance to win. The result is that as far as quality goes the show will far excel anything of the kind ever held in the west. The pigeon show—there are 200 pigeons entered—will be larger and of a higher quality than any ever held west of the Mississippi river."

A majority of the entries are from the western states, as prohibitive express rates spoiled plans for heavy entries from some eastern states. There are, however, a few eastern entries, and the birds exhibited by western fanciers will be a great surprise to visitors from the East. Four light Brahams will be brought all the way from Shelton, Conn. They are entered by C. P. Hatleson, a well known eastern fancier. Eight rose combe brown leghorns, a rare breed, are entered by Fred Alger of Wauken, Wis., and one blue andalusian hen, the only bird of the breed to be exhibited, is entered by R. S. La Master of Campbellsburg, Ky.

Pierce county, Wash., leads off as the largest exhibitor at the show, with a total of 235 entries. Of these, S. R. Seers will exhibit 35 white Plymouth Rocks, and Fred A. Johnson 47 birds representing nine varieties. George L. Story, of Oregon City, Ore., has the largest entry, his birds numbering 56 and representing 16 varieties. The largest exhibit of one variety will be that of the Hazelwood Farm Company of Spokane, which has entered 50 white Plymouth Rocks.

The Pacific Coast Pigeon Fanciers' Federation, of Oakland, Cal., has entered 83 pigeons, and included in this assortment is one important pair of the "blue runt" variety, that is valued at \$250. Stewart and James of Vancouver, B. C., and the California Giant Pigeon Company of Fruitvale, which raises large pigeons for the squab market, are other prominent exhibitors in this department.

The judges for the show are all experts, the best men procurable. The list follows: George D. Holden, president of the American Poultry Association; Theodore Hughes, Indianapolis; R. C. H. Hallock, St. Louis, secretary of the National White Wyandotte Club; W. W. Brown, Ogden, Utah, president of the Utah Poultry Association; C. H. Hinds, Alameda, California; H. H. Collier, Tacoma, Wash.; E. J. Ladd, Portland, and Thos. Wilkinson, Nanaimo, B. C.

The Lunar Rainbow.

Huck Gernsback gives his views on lunar rainbows, as follows:

I read with interest the different discussions concerning the lunar rainbow in some recent issues of your paper, and would say that, in some respects, I quite agree with your correspondent, Mr. Harry Clifford Doane. Although the occurrence of the so-called lunar rainbow may be comparatively rare, I, too, think that the phenomenon is not generally known because of lack of observation. Before coming to this country I often had occasion to witness lunar rainbows, and I think I can give some explanation as to their origin.

The city of Luxembourg is situated at an altitude of over three hundred meters above the sea level and a peculiarity of the air of this city is, that during the greater part of the winter the atmosphere seems to contain an exceptional amount of humidity. Now, I can recall that I saw lunar rainbows quite often during the winter in that city, and always under the same circumstances. I never saw a bow unless the moon was full or very

near its fullness. The air was always hazy and misty and very humid. I never saw the phenomenon before 11 p. m. or after 1 a. m. The moon was then always very high. As far as I could see, the diameter of the bow which surrounded the moon sometimes was five and sometimes ten times that of the moon. I always could plainly distinguish the spectrum colors, but never saw them as brilliant or perfect as those of the solar rainbow; probably the mist is a little too dense. Also the color band of the bow seemed to measure only half that of the solar rainbow. This is doubtless due to the great distance of lunar bows from the earth.

My own theory as to the formation of the lunar bows is as follows:

The moon rays, upon entering our atmosphere, will be refracted to a certain degree, and after traveling further touch the dense layer of the humid air. As very humid air is nothing else but rain in a very minute form, the moon rays will be refracted in the millions of small water drops and will form a bow similar to the solar rainbow, which we know takes place under quite analogous circumstances. I do not think that lunar bows can be formed in an absolutely dry atmosphere.

COUNTRY CORRESPONDENCE.

BELL FOUNTAIN.

Mr. Sloper, of Stayton, has just finished a 100 foot well for Geo. Hall, Jr. He also sunk wells for S. C. Starr and Prof. Mack.

Farmers are commencing their fall seeding. Two men from Coburg passed here with over 200 sheep they had purchased in Alsea. They were wanting more at \$3.00 per head but found them scarce.

H. T. Bristow, son and daughter, went to Portland today. Mr. Bristow takes his son to a hospital to receive treatment for appendicitis.

Frank Watkins, of Portland, is at the home of his parents at present.

S. A. Tharp returned Thursday night from attending the funeral of his sister-in-law, Mrs. Eliza Burlingame, of Yamhill county.

Mrs. Thompson, of Grass Peak, has been quite sick for some time with pneumonia.

Robt. Kyle has been hauling gravel with seven teams on the road the last week.

A goodly number of the young people have gone away to school this fall. They go to different schools.

Rev. M. M. Maltz and wife have been attending the M. E. conference at Albany. They expect to take in the Fair on the side before returning.

Almost every day for the last two or three weeks, one or more members of some of our families start to or return from the Fair.

It would seem from the number of cattle, sheep and hogs that Frank Dinges is shipping this fall that there would be none left, but the shipping still goes on.

L. N. Edwards has a horse affected with pleurisy. Dr. Huston, the veterinary, is treating the animal.

BEAVER CREEK.

Everybody has returned home from the various hop yards.

Ben Ireland has been engaged of late hauling cedar posts from his timber claim.

Mrs. Daniel's grandmother and uncle from Stayton are visiting at the Daniel's home this week.

Mrs. Spaulding and her son from Portland are visiting their homesteads on Bald Mountain.

Mr. Duffy came home one day last week with a sore hand. He had been employed at the Strong saw mill at Corvallis.

Charlie Armstrong and his cousin have returned to Beaver Creek where they will remain this winter.

John Bennett, of Philomath, visited his brother, Frank, on Beaver Creek one day last week.

Mr. Jones, of Inavale, came up the valley one day last week for a load of posts.

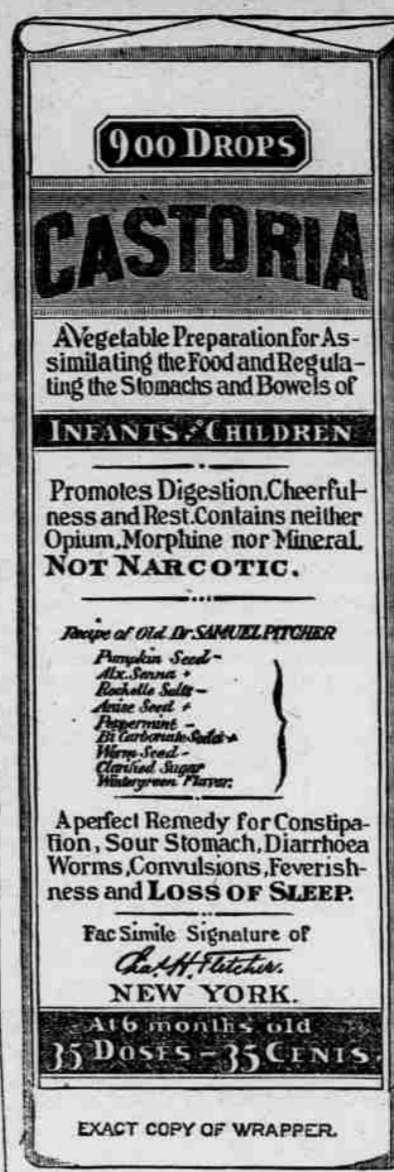

MONROE.

G. W. Howard and son, Merle, from near Moxroe, went to Portland, Monday, to spend a week at the Fair.

Mrs. Anna Rees and son, Errol, have returned to Wasco, Sherman county, after a few months' visit with her parents near Monroe. Mrs. Rees is a daughter of Mr. and Mrs. G. W. Howard.

Emil Howard, from near Monroe, has returned to St. Louis to attend a medical college.

Mrs. Edward Williams left Monday for Portland, where she will be the guest of her sister for a week while she visits the Fair.

Home Made

Have your cake, muffins, and tea biscuit home-made. They will be fresher, cleaner, more tasty and wholesome.

Royal Baking Powder helps the house wife to produce at home, quickly and economically, fine and tasty cake, the raised hot-biscuit, puddings, the frosted layer-cake, crisp cookies, crullers, crusts and muffins, with which the ready-made food found at the bake-shop or grocery does not compare.

Royal is the greatest of bake-day helps.

ROYAL BAKING POWDER CO., NEW YORK.
