Presidential Election Will Make No Difference.

No matter what candidate is elected, Foley's Honey and Tar will remain the people's favorite remedy for coughs, colds, and incipient consumption. It cures colds quickly and prevents pneumonia. A. J. Nusbaum, Batesville, Ind., writes: "I suffered for three months with a severe cold. A druggist prepared me some medicine and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar and eight doses cured me." Graham & Wortham.

TO CHECK WHITE PLAGUE.

Representative Iowa Men Organize Society to Wipe Out Tuberculosis.

Fort Dodge.—In the organization of a tuberculosis society Iowa has taken the initial step in a campaign for the eradication of the "white plague." The organization is composed of representative medical men of the state and laymen. It has as its head ex-Gov. William Larrabee, who has taken a deep interest in the work, and numbers among its officers such men as Senator Dolliver and other well-known men.

The state of Iowa has an average death loss of 10,000 people a year from tuberculosis, and has an average of 100,000 afflicted persons. In the estimation of those best calculated to judge the disease is slightly on the increase, and this has lent additional encouragement for the organization, whose efforts will be devoted to stamping it out.

The plan which will be carried out will be educational in its nature. It is proposed to enlist the aid of the newspapers of the state, and in addition large quantities of literature will be scattered throughout the state, which will be instructive in the care of those afflicted with the disease. Experience has disclosed that proper care of afflicted persons has much to do with the gradual elimination of the disease. The aim of the society will be to enlighten the people of the state on the best methods of caring for the afflicted.

The executive committee will present a bill to the Iowa legislature this winter asking for a law and state sanatorium for the treatment of the poor. The bill will provide that the board of control be given power to superintend this institution in addition to other labors connected with state institutions. An appropriation for the construction and maintenance of the sanatorium will be asked for and possibly some support in the educational campaign by literature.

The state membership carries with it a fee of one dollar for each member, and it is proposed to make the membership as large as possible, with a view to swelling the fund. In addition to this private subscriptions will be encouraged in an effort to further every possible measure in the work of the society.

The educational part of the work will be directed more especially to the foreign-born, as statistics show that the native-born to 3.7 foreign-born is afflicted with tuberculosis.

NEW WOMAN'S ASSOCIATION

Odd Name and Purposes of Organization Recently Incorporated in Maine.

Bangor, Me.—Among the hundreds of corporations whose certificates are filed at the office of the secretary of state in Augusta in the course of a year are many which are organized for similar purposes, but one of the oddities is the Women's National Household alliance, the certificate of which was filed on July 21. The purposes of the corporation are to ally, through social cooperation, all feasible means of promoting the higher life of the household, as follows:

First, by affording a medium through which housekeepers may obtain competent servants, and by securing positions to good help.

Second, to enlist the cooperation of both employer and employe in raising the standard of domestic service and home life.

Third, to foster the interests of all who employ women in occupations other than domestic service, as well as assisting girls and young women to qualify themselves for such positions.

Fourth, to advance the interests of pure foods, right living, economical buying, rational cookery, the marketing of products made by women in the home, the advancement of rational education, etc.

The capital stock of the corporation is placed at \$100,000, of which nothing is paid in. The par value of a share is \$100.

HE WAS LITTLE BREECHES.

The Original of John Hay's Juvenile Hero Is Now a Husky Farmer.

Sioux City, Ia.—The hero of "Little Breeches" is a son of Solomon Van Scoy, of New Virginia, Ia., and is now living near Letts, Ia., a husky farmer.

Loren Talbot, of Sioux City, a cousin, recalls the incident upon which the poem was based, and tells about it as follows:

"My cousin was about four years old when he broke into fame. Van Scoy was driving a spirited team near Virginia one day, and when he got out of the wagon for a minute the team dashed away, with the boy in the wagon. The horses went over ditches, fences and brush piles.

"Finally the wagon was overturned and the little fellow was thrown head first into a drove of sheep. The father and friends, running frantically in an effort to catch the runaway, saw the accident to the boy. The father rushed to the spot, fearing to find the little fellow dead, but on the approach of his father the boy sat up and said: 'Dad, give me a chew of tobacco.' That was the incident which prompted John Hay to write his famous verse."

RAIN AS A REMEDY

TEXAS PEOPLE ARE TRYING IT FOR MANY AILMENTS.

Devotees of the Cure in That State Welcome the Appearance of Black Clouds and Strip for Downpour.

Austin, Tex.—The rain cure is now being tried by a number of persons in this city whenever opportunity is offered for taking the treatment. Some of those who have taken it say that it is a panacea for all chronic diseases as well as many of the lesser ills of the body.

There is nothing complicated about the rain cure. All that is required of the patient is that he shall stand in the open, with his body bare of all clothing, and let the falling rain pour on him.

The sensation is said to be very agreeable. Those who have tried the new treatment assert that the rain falling upon the bare body invigorates the whole system, and is especially strengthening to the nerves.

There is no set rule for taking the treatment. Some of those who began it several months ago, at the early break of winter, have stood in the rain for several hours at a time without suffering effects of a disagreeable character afterward.

Devotees of the rain cure welcome the appearance of a black cloud which forbodes a terrific downpour of rain. It is then that they strip to the skin and get out in their back yards, which are inclosed by high board fences, and let the water come down upon them in torrents.

It is declared that the rain cure is a sure remedy for rheumatism, and that decided improvement has been noted in cases of persons afflicted with tuberculosis. For nervous disorders the treatment is said to be infallible. One treatment, it is said, will cure a severe cold.

The treatment is believed to have had its origin in Austin. So far as can be learned, John Durst, a young business man of this city, was the first person to give it a trial.

A few months ago he was suffering from a severe cold. A rainstorm came up, and while it was in progress he decided to strip and get out into it to see if it would help his cold. There is a high board fence around his back lot. After disrobing in the barn, he went into the lot and let the rain fall upon his bare body.

The experiment was a success. The one treatment cured his cold. Since then he never misses taking the rain cure when at home during a rain. He has perfect health.

He related his experience to some of his friends, and the fad, if such it can be called, has spread rapidly.

It is recommended that weak persons who take the treatment should not remain in the rain too long at a time, and that a vigorous rubbing should follow the wetting.

It is the theory of those who have taken the treatment that its efficiency lies in the fact that the raindrops contain peculiar medicinal properties, and that, coming through the air as they do, they are charged with electricity, which has a direct effect upon the body. Physicians who have been questioned on the subject, say that the treatment may have good results in its application to certain ills.

TORPEDO LIKE BOOMERANG

Discharged from American Gunboat It Returns and Hits the Vessel.

Newport, R. I.—It seems impossible that a vessel should fire a torpedo and have it come back and hit the very vessel from which it was fired, but this thing has happened.

The Vesuvius is the vessel which made the record. She was out to fire torpedoes, and it is to be presumed every precaution was taken to start the torpedo right. One was fired and went straight to the target. The second was fired apparently under similar conditions. It made a turn and came back straight for the side of the Vesuvius. There was no excitement on board. Orders were given to close the water-tight compartments and to do all sorts of things, but there was no special occasion for alarm. The old dynamite cruiser was in no danger of sinking and reached the torpedo station all right, minus the torpedo that hit her.

When torpedoes are fired in practice, as these were, a practice head is used. This practice head does not contain explosives, and that explains why the Vesuvius was not injured.

The performance of this torpedo suggests that perhaps some of the Russian vessels torpedoed in the fighting in the far east were struck by their own torpedoes and not by those of the Japanese.

Newest Mineral.

Something new under the sun has been found in the form of a new mineral, discovered in Russia by Dr. Morosiewicz, professor of mineralogy at the University of Krakau. He has christened it becolith, in honor of the Vienna mineralogist, Prof. Frederick Beck, and he says it resembles most a combination of garnet, having similar crystals and containing many rare earths, which form 75 per cent. of its volume. The chief components are cerium, lanthanum and didymium oxides, and it may be useful in the manufacture of chemical products, especially in the light industry.

Limited Education.

Young men in China who have some smattering of English are opening what they call Anglo-Chinese schools in Shanghai and neighboring towns. One of these schools frankly advertises its limitations, "English taught as far as the letter g."

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of *Chas. H. Fletcher*

FOLEY'S KIDNEY CURE
Makes Kidneys and Bladder Healthy

A Prominent Trainman. The many friends of G. H. Hansan, Engineer L. E. & W. R. R., at present living in Libia, Ohio, will be pleased to know of his recovery from threatened kidney disease. He says: "I was cured by Foley's Kidney Cure, which I recommend to all, especially to trainmen, who are usually similarly afflicted." Graham & Wortham.

Bring your Job Work to the Gazette Office.
