The subscription price of the GAZETTE for several years has been, and remains, \$2 per annum, or 25 per cent if by advance.

NOT CORRECT.

The Maverick, published in Baker City, in its issue of October 28, is at considerable pains to give a glowing account of the encouragement received by C. A. Johns to make the race for governor of Oregon during a recent visit of that gentleman to the Willamette Valley.

"On the west side the only candidacy that has thus far developed is that of Dr. Withycombe, of Benton county, who has the bee buzzing badly, but also has a fight on hand with Senator Daly, who announces that he will take the scalp of the medico right in his home county, where they have both done republican politics for years."

We hardly credit this in all its ugliness to Mr. Daly and incline to the belief that the Maverick or some other party has taken advantage of the opportunity to make the utmost of some statement our former citizen may have made. Anyway, Senator Daly has been so long from this county that he is no longer in such close touch with affairs as he was at one time.

It does not require much political sense on the part of any Bentonite to foretell a victory for Dr. Withycombe of 80 per cent of the votes cast in this county over any other man in Oregon for governor.

SUSPENDED BY CASTRO.

"Suspended by Castro" was the heading given a dispatch sent out from Paris a few days ago. For many months the leading metropolitan dailies have contained articles on the disturbances caused by President Castro, of Venezuela.

As a source of trouble Castro is second to no one. He is a thorn in the flesh of various full-grown governments.

Castro's latest act was a suspension of cable dispatches between Venezuela and the governments of France, England and the United States. The reason assigned for this action is said to be the nonreceipt of an answer from Paris to a diplomatic question put to the French authorities by Castro.

Rate Bill Discussed.

November 2, the following dispatch was sent out from Washington, D. C.:

The question of railroad rate legislation was considered at length at the White House today at a conference between the President and Senators Cullom and Dolliver, two of the men who are expected to lead the Administration's fight in the approaching session of Congress.

Senator Dolliver found it necessary to return to his home today, but he will be back in Washington within a few days to remain until the opening of Congress.

BAD FOR ANTI-PROTECTIONISTS.

The anti-protectionists used to say that we could not expect to sell if we did not buy and that the effect of Protection was to make the cost of American

manufactures so high that they could not be sold in the world's markets in competition with other nations. The anti-protectionists are not saying a word now in the face of the facts and figures, or if they are saying anything it is that we might sell more if the Tariff were lower and that we sell in spite of the Tariff and on account of our vast store of raw materials. Maybe this is so. It is true that we have larger and better supplies of coal and iron, copper and oil, and can probably produce them more cheaply than any other nation.

Things Forgotten.

Jacob Bromfield in the Scientific American says: It is surprising to an oldish man how many things of daily use the present generation seems to have forgotten.

1. To tell the points of a compass by a watch.—Point the hour-hand at the sun. Then south is halfway between the hour-hand and the figure twelve of the dial.

2. To measure an angle by a watch.—Lay two straight-edged pieces of paper on the angle, crossing at the apex. Holding them by where they overlap, lay them on the face of the watch with the apex at the center.

3. To start a tight screw.—Press the screwdriver firmly in place with one hand, but do not turn it. Then take hold of it sideways with flat-jawed pliers as close to the head of the screw as possible, and turn it with them. A hand vise is better than pliers. Leave just enough of the tip of the screwdriver outside the vise to fill the slot of the screw, but no more.

4. To put a pin through starched linen, rub the pin with paraffine. To push a collar button through a starched button-hole, rub paraffine on the back of the buttonhole.

5. To measure an angle by a watch.—Lay two straight-edged pieces of paper on the angle, crossing at the apex. Holding them by where they overlap, lay them on the face of the watch with the apex at the center.

Real Estate Transfers.

An abstract of Benton county real estate transfers for week ending Nov. 4th, 1905:

- S. E. Young and wife to T. W. Jones, 2 lots N. B. and P. Avery's addition to Corvallis; \$250.
C. F. Jabusch and wife to J. J. Mason, lot in Philomath; \$550.
Mary H. Whitby and husband to S. J. Fowles, land in Corvallis; \$737.42.
A. H. Limbocker to A. D. Limbocker, 2 lots in Corvallis; \$250.

Other members of the Senate committee on interstate commerce will be here soon, and those favorable to the Administration's ideas will give their undivided attention to the framing of a report setting forth these views and

recommending the legislative form to be given them. It was learned today that the report soon to be undertaken will be presented to Congress without regard to the attitude of the committee, and that it will be labeled, even though unofficially, as the President's views. Whether the report will be presented by a majority or a minority is a matter of speculation, but the belief was expressed today that a majority of Republican members will subscribe to the Administration measure.

Human Nature.

The human family is an odd one as the following story of good-fellowship will prove:

Give a man a ten-cent cigar and he will beam all over and love you for six hours; offer him ten cents with which to buy it for himself and he will throw it in your face. Give a man a pass to a show and he will call you a good fellow in all the language at his disposal; offer him the money to buy a ticket and he will call you a fool. Ask a man to your home to take a "pot luck" and he will jump at the chance; give him \$2 and tell him to get a good meal at a cafe with your compliments and he will knock you down.

The dollar is mighty, but it is not warm. Nothing chills hospitality and good fellowship more than cold metal. You may spend money on a friend, but you must not ask him to touch it. Silver isn't a good conductor and you can't transmit half as much cordiality and hospitality to a friend through the medium of a dollar as by a means of a bad cigar. Money substitutes for good looks and good sense with great success, but can't take the place of good fellowship worth a toothpick.

Winter Courses in Agriculture.

The Oregon Agricultural College at Corvallis will offer this winter, as usual, two special courses along agricultural lines, which will be designated The Short Course in Agriculture, and The Special Dairy Course.

The Short Course in Agriculture will open on Monday, January 8, 1906, at 9:30 A. M., and continue two weeks, closing on Friday, January 19. The course consists of a series of popular lectures along lines suited to aid horticulturists, dairymen and others engaged in agricultural pursuits in developing the great natural resources of our State.

The Special Dairy Course will also open on January 8, 1906, and will continue six weeks, closing on February 16, 1906. The purpose of this course is to familiarize students with the modern forms of dairy apparatus, and teach the underlying principles of the production, care, and manufacture of milk into butter and cheese.

Students will meet for work six days per week. The forenoon of each day will be devoted to practical work in the dairy rooms. In the afternoon of each day, except those devoted to cheese making, lectures and recitations will occupy the time during two or three hours.

In addition to the regular teaching force, the services of an expert cheese maker, Mr. W. W. Grant, have been secured. Mr. Grant is at present instructor in the California Dairy School, and has had a wide experience as traveling dairy instructor in Canada.

There will be no charge for tuition and no educational entrance requirements for either of these courses. Board and room can be had in Corvallis at \$3 to \$4 per week.

A cordial invitation is extended to all persons interested to enroll in one of these courses. An outline of the course can be had for the asking. For further information address F. L. Kent, Corvallis, Oregon.

CASTORIA For Infants and Children.

The Kind You Have Always Bought Bears the Signature of

The Amen! of marriage is always a baby. Without it, wedlock is a summer field that never blooms, a flower that never buds, a night without stars, a sermon without a benediction, a prayer without an Amen. There never was a husband worthy of the name, who did not aspire to be the father and the grandfather of healthy, capable children, to hand down his name and the fortune accumulated by the sweat of his brow, from generation to generation.

- W. A. Wells to J. R. Harlan, lease of land; \$87.50.
B. F. Russell and wife to M. E. Simpson, 18 acres of land near Albany; \$1,000.
N. M. Cartwright to B. F. Hyland, 2 lots, block 15, Corvallis; \$175.
J. C. Taylor and wife to B. F. Hyland, 2 lots, block 15, Corvallis; \$300.
Paul Seidel and wife to Anna Winkler, 80 acres near Summit; \$1,550.
M. L. Frantz and wife to O. A. Frantz, q c d to 159 acres near Hoskins; \$900.
Bradley Mulkey et al to T. C. Mulkey, 22 acres near Summit; \$1.
E. H. Taylor and wife to L. V. Flint, 4 lots, Job's addition; \$600.
S. S. Henkle and wife to John W. Foster, land near Philomath; \$1.
J. R. Sellers to L. V. Flint, 3 lots, County addition to Corvallis; \$800.

Hoskins School Report.

School began October 9 with an enrollment of 14; number in regular attendance 14; number of visitors 8.

For the month ending Nov. 3 those perfect in attendance: Maud Frantz, Dora Frantz, Katie Frantz, Murl Frantz, Vern McTimmonds, Hattie Seifert, Linnie Seifert, Bert West, C. Bush, Zetta Bush, Elden Price. Those having above 95 in deportment: Lily Frantz, Bessie McTimmonds, Maude Frantz, Hattie Seifert. The highest average made was 95. Patrons and friends are cordially invited to visit our school. EDNA THOMPSON, Teacher.

Dragging Pains

2825 Keeley St., Chicago, Ill., Oct., 2, 1902. I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Maud Bush Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief.

For advice in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.
