Notice to Creditors.

In the Matter of the Estate of Mary A. Garlinghouse, deceased.
 Notice is hereby given to all persons concerned that the undersigned has been duly appointed executrix of the last will and testament of Mary A. Garlinghouse, deceased, by the County Court of Benton County, Oregon. All persons having claims against the said estate of Mary A. Garlinghouse, deceased, are required to present the same, with the proper vouchers, duly verified as required by law, within six months from the date hereof, to the undersigned at her residence one mile east of Monroe, Benton County, Oregon, or at the office of Yates & Yates, Corvallis, Oregon.
 Dated the 29th day of September, 1905.
 Executrix of the last will and testament of Mary A. Garlinghouse, deceased. MALINDA F. STARR, 80-92

"I Thank the Lord"

Cried Hannah Plant, of Little Rock, Ark. "for the relief I got from Bucklin's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I suffered for five years." It is a marvellous healer for cuts, burns and wounds. Guaranteed at Allen & Woodward drug store. 25c

GAZETTE—Independent phone No 433.

FOLEY'S HONEY AND TAR
 for children safe, sure. No opiate.

FOLEY'S KIDNEY CURE
 Makes Kidneys and Bladder Right.

Still Formidable.

The OAC football squad has again resumed training after the hard game with the varsity. The boys have by no means lost confidence. While it is true that Eugene scored a victory, everyone who witnessed the game is conversant with the fact that OAC lost the game because of other reasons than the inferiority of playing on the part of the team. The very fact that OAC carried the ball farther than her adversary signifies that her team is the stronger. But that game has become a matter of history. OAC lost and there is no need of commenting upon the result.

While the Oregon game has been played, the one with the strong eleven from Willamette will be played November 25. Coach Bishop's men proved themselves to be a stronger team than O-regon has. They lost from the varsity on exactly the same style of play that OAC did. Like OAC they plunged through Oregon's lines but could not make gains around the ends. The game to be played between Willamette and OAC will be looked forward to with keen interest. What can these two line-plunging teams do when they face each other on the gridiron?

Just at present a few hold the idea that OAC will be handicapped in this contest. Williams was put out of the game in the Eugene match and will probably not be able to play again. Lawrence, the heavy tackle, suffered a broken collarbone, hence is out for the season. Pilkington is out of the game. It is true that these men were good ground gainers for the orange and their places cannot exactly be filled, yet the team that faces W. U., unless some accident happens before that time, will be one of strength.

Dolan, the shifty tackle, who played a star game in the U. O. contest, will be at his old position. Walker will be found in a conspicuous position along the line. Capt. Root, Abraham and Griffith may appear behind the line. Griffith played the position of half the first part of previous game. His work was good. Taken all around it remains to be proved whether OAC's line has been weakened or not.

Will Play Willamette.

The OAC second team will play the second team of the W. U. at Salem tomorrow afternoon. This is the second game for the Junior team this season. In a game played almost entirely on Oregon's end of the field, the Farmers' second team defeated the Juniors Eugene eleven. They are expected to play a hard game against Salem.

The team will not be as strong as the day it played Oregon. Porterfield, the plucky little quarter, who made such a splendid showing this season and who laid it all over Eugene's punter, is out of the game with a broken leg. Another player will fill the position, however, and a hard bunch will be sent down to meet the Methodist brethren.

Walker and Sweek are counted as sure ground gainers; Darby

Administrator's Notice.

Notice is hereby given that the County Court of Benton County, Oregon, has appointed the undersigned administrator of the estate of Huldah A. Brown deceased, and all persons having claims against said estate will present the same according to law, to me at Corvallis, Oregon, within six months from this date.
 W. S. LINVILLE,
 Administrator.
 Dated September 7, 1905.

Notice of Final Settlement.

Notice is hereby given that the undersigned executrix of the estate of C. E. Moor deceased, has filed in the County Court of Benton County, Oregon, her final account as such executrix of said estate, and that Friday the 8th day of December, 1905, at the hour of ten o'clock A. M. has been fixed by said Court as a time for hearing objections to said account and the settlement thereof.
 PERSIS J. LINDEMAN,
 Executrix of the estate of C. E. Moor, deceased

ELASTIC PULP PLASTER.

and Hughes show up in good form at the tackle positions. OAC's strong second team has been in hard training all year. Almost every evening they face the first team for a short scrimmage, hence they are in good condition for the struggle.

COUNTRY CORRESPONDENCE.

OAK GROVE.
 Rev. F. W. Lauer was visiting at the Cady home Friday.
 Mrs. Gene Dodele, of Wells, was visiting in the neighborhood Saturday.
 Dan Rumbaugh has bought the remainder of the Dr. Hill place, consisting of 90 acres, and aims to put up a good house and barn on the property next spring, which will add much to that part of the country.

Mr. and Mrs. T. B. Williamson spent Sunday with relatives in Linn county.
 Mr. and Mrs. A. J. Carter, of Wells, were business callers at Albany, Friday.
 We understand that Al Holmes is soon to become a benedict, Good for Al. He is no longer a spring chicken and it is a wonder how he has been able to ward off the darts of cupid so long.

Arthur Beamis, of Albany, has moved his family to this part, and is now domiciled on the Emmett Williamson farm.
 Hugh Karstens left on the noon train Saturday for his Lincoln county ranch to spend a couple of weeks improving the same.

Mrs. Jane Coffey, who has been spending several days visiting her mother, Mrs. Wentz, left for her home at Salem, Friday.

Geo. Beamis and wife returned from Waterloo, Tuesday, where they had been spending a few days with friends.
 W. A. Williamson went over to Tangent, Wednesday, to look after some stock which he has on his farm near that place.

Mr. Waldron has sold his 50 acre farm to one Mr. Pearce, a new arrival in this state.

Lewis Wentz had the misfortune to lose one of his best cows, Wednesday.

Mrs. McElmurry, of Oak Creek, has been visiting at the home of her daughter, Mrs. Willard Cauthorn, for the past week.

Paul Johnson made a business trip to Tangent, Wednesday, looking after some goods that he had bought in that part.

BEAVER CREEK.

John Duffy and family have moved to Corvallis, where Mr. Duffy is working in the saw mill.
 J. S. Ireland is at present visiting with relatives at Lotis, Wash.
 Mrs. Joseph Gray is visiting her daughter, Mrs. Otis Skipton, at Portland, where Mr. Skipton is working in a saw mill.

Frank Bennett has been hauling posts from the mountains near the Coon mill.

Frank Peterson and family, formerly of Inavale, but recently of Eastern Oregon, have moved to Portland, where he has secured a situation.

County Judge Waters inspected the county roads out to Beaver Creek one day last week.
 Ezra Thomson made a business trip to Polk County last week.
 At last reports Mrs. Mercer has not been quite so well as usual.

Mr. McFadden, of Corvallis, came up the valley a few days ago looking for sheep. While here he purchased the Gates Brothers' sheep.

CAPTURE BEAR AFTER FIGHT

Big Specimen of Bruin Family Is Taken by Hunters After Strenuous Conflict.

Montrose, Col.—One of the largest black bears ever killed in this country was brought in from the Cimarron by Uri Hotchkiss and Maurice Diehl. They conquered the big fellow only after a lively fight.

It seems that Mr. Diehl had gone over into that country with a load of trout fry, intending to place them in Deep lake. He found the snow so deep he could not get in with the fish, so he started back to the Harris ranch. He heard Uri Hotchkiss, who was riding for cattle, shouting, so he went over the ridge to see what the trouble was.

Uri and the bear were contemplating each other. Uri had wounded the big fellow, but having but one cartridge left, he didn't feel like risking it until he had to do so. Just then the bear took a notion to do some hunting for himself, and though Uri is almost as big as a common bear, Bruin started after the hunter, and down the hill they went through the deep snow.
 Uri and the bear were contemplating each other. Uri had wounded the big fellow, but having but one cartridge left, he didn't feel like risking it until he had to do so. Just then the bear took a notion to do some hunting for himself, and though Uri is almost as big as a common bear, Bruin started after the hunter, and down the hill they went through the deep snow.
 Mr. Hotchkiss probably thought it would be a good plan to coax the wounded bear down near the wagons before he killed him, but he almost missed his guess, for the bear came on with a rush, and it looked as though it was all day with Uri. Maurice peited the bear with rocks in an effort to stop him, but he got pretty close to Uri, when the latter fired his last bullet, striking the brute in the end of the nose and rooseveltizing him in good shape. The bear was brought to Montrose.

WILL WEAR GAY GARMENT.

According to This Authority the Schoolmaster of the Future May Be Fashionably Attired.

Chicago.—Washington Irving's Ichabod Crane soon will be forgotten. Legends of the future will not include him, for the conventional schoolmaster belongs to the changing order, and is swept along in the current.

No longer will the pedagogue of Sleepy Hollow in his long black coat, standing collar, black tie, and high black felt hat, be pointed out as the model schoolmaster. He is to be crowded off the fashion plate. Then, too, he is to lose his popularity, because he is too serious.

In his place will come Prof. John Adams, of London, told University of Chicago students a few days ago, the professional dandy, a schoolmaster with gay clothes, perhaps a new Beau Brummel. His coat may be cut long, but it must have a tinge of color in it. His tie may still be of the bow fashion, but there must be streaks of red, green, or brown interwoven into it. His collar may be high or low, but it must have the proper season's dip to it.

On the New schoolmaster's countenance there must lurk radiant smiles. Frowns and scowls will be abandoned, and accordingly there will be wrinkles on his happy, care-free face. He will beam with happiness, and such an adjective as melancholy will be missing in his vocabulary.

Prof. Adams holds the chair of pedagogy in the University of London. His address recently was scheduled to be on "Soul Building," but in his enthusiasm for his profession he turned from the main theme to give his opinions on the pedagogue of the future.

NEW TEST OF WIRELESS.

Thunder of Great Guns May Interfere with Accuracy of Telegraphy.

New York.—It was said at the Brooklyn navy yard that the next experiments by the North Atlantic fleet in wireless telegraphy will be in the nature of observations on the efficiency and accuracy of the wireless instruments when all the guns are being fired. Observations made at Pensacola last spring showed that there is little to fear from the effects of shock and jar of one gun, but what is sought now is information as to whether the same immunity will be enjoyed when all guns are fired, as in case of battle. There is some apprehension that the instruments will not survive this test of "battle efficiency" as the thunder and air vibration caused by the firing of numerous big guns is very great.

Much of the present work in experimenting with wireless telegraphy has to do with a comparison of direct communications with the shore stations which are in close touch with the naval laboratory. The change from the "clicking" work as it is called to the broader field of battle serviceability is somewhat interesting not only to those who are directly engaged with the wireless apparatus, but also to the officials of the navy department, who expect important conclusions will be derived from the tests.

FENCE IN GAME WITH WIRE

Several State Preserves to Be Established in the Forests of Pennsylvania.

Harrisburg, Pa.—The board of state game commissioners of Pennsylvania has decided to preserve game in this state. The plan is to establish several state game preserves on land owned by the state forestry department.

These preserves are to be enclosed by a fence with a single wire strung about three feet from the ground—high enough for small game to pass under and low enough for deer to jump over. Within these inclosures hunting will be prohibited, not only in the regular "close" seasons, but at all times, and the state game wardens will be empowered to enforce this regulation.

The last legislature appropriated \$6,000, which can be used for establishing the proposed single wire fences. A commission composed of ex-State Treasurer Frank G. Harris, of Clearfield; W. Heyward Myers, of Williamsport, and Secretary Joseph Kalbfus, of the state game commission, will select the sites.

PEARL FROM THE WABASH.

Thousand-Dollar Gem Found in Mussel Shell Taken from That River.

Montezuma, Ind.—Emory Moore, while opening mussels to obtain bait for his trotline, the other day, found a pearl valued by experts at about \$1,000. This is the second pearl found in the Wabash here within the last two months, of near the same value, the latter, however, being a much finer specimen than the former. Pearl hunters are becoming numerous at this place. A Wabash river pearl that is sold here for from \$100 to \$200, will sell for \$1,000 to \$1,500 by the time it reaches Paris, which is the best market. The majority of the pearl hunters here, not knowing the real value of such gems, sell them for what they are offered. The Wabash pearls are considered the finest of the fresh water pearls.

Sexton Mistook Day. The inhabitants of Middlesex, Mass., were alarmed the other morning by the ringing of the church bell. Leaving their work, they seized palls and started thinking that an alarm of fire was being rung. Investigation proved that the sexton had mistaken the day, and supposed that he was ringing the bell for the Sunday morning service.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since his infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA
 Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
 Bears the Signature of

Wm. D. Gifford

THE SECRET OUT.

A Wide Open Statement.

To refute the many false and malicious attacks, bogus formulae and other untruthful statements published concerning Dr. Pierce's World-famed Family Medicine, the Doctor has decided to publish the ingredients entering into his "Favorite Prescription" for weak women and his equally popular tonic alternative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native medicinal roots. The ingredients of the "Golden Medical Discovery" being a non-alcoholic extract of Golden Seal root, Queen's root, Black-cherry bark, Mandrake root, Blood-root and Stone root, preserved by chemically pure glycerine.

Dr. Pierce's Golden Medical Discovery, being made of native medicinal roots, is next to Nature and is the best tonic you can use. It fills the blood with rich, red blood corpuscles. It gives you a feeling of strength, and it puts sunshine into your system as no other remedy can. That is why Dr. Pierce's Golden Medical Discovery has been such a favorite for the past forty years. No man or woman can be either healthy or handsome who has impurities in the blood, for it will show in pimples, boils, and eruptions, in the dark circles under the eyes and in the sallow complexion. After taking "Golden Medical Discovery" you are bound to have pink cheeks and a fresh complexion. The muscles get a good, rich, red blood, that puts on strength. It is a flesh builder, but not a fat builder.

As an example of the good results thus obtained, note the following letter:

"In the year 1880, I had an attack of indigestion and got so bad that my home doctor said he could not do me any good." writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak I could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my bowels as large as a man's two fingers passed and I had a great deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterwards, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since."

Medicines of Known Composition.
 If suffering from an obstinate malady which would not naturally prefer to take, a medicine of known composition, every ingredient of which has the endorsement of the most eminent medical practitioners and writers, or one which, for aught you may know, may be made up of very inefficient and even harmful agents? Is it not best to insist upon knowing what one is taking, as is every one's right, whether being prescribed for by the family physician or making use of a proprietary remedy? We think so, especially in view of the disparaging articles concerning various advertised remedies with which the drug and medical journals have been filled for months past. Doctor Pierce courts the severest criticism of the medical profession as to the value of his published formulae, confident that he will receive fair treatment from all fair-minded, well qualified brethren of the medical profession who cannot be blamed for not endorsing medicines of the composition of which they and the people are kept in ignorance.

These are the Original Little Liver Pills, first put up over 40 years ago, by old Dr. R. V. Pierce. They've been much imitated but never equaled. Smallest, easiest to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and concentrated vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. Permanently cured, too. By their mild and natural action, these little Pellets gently lead the system into natural ways again. Their influence lasts.
