ROYAL BAKING POWDER CO., NEW YORK

Washington Sues Oregon.

Attorney-General Crawford has been advised by the Attorney-General of Washington that a suit is to be filed in behalf of Washington against Oregon in the United States Supreme Court to determine the boundary line at the mouth of the Columbia River between the two states. The boundary line as fixed by the enabling act admitting Oregon to the Union says that it shall be the center of the main channel of the river, and that where there are islands in the river, the boundary line shall follow the widest and deepest channel.

Since the enabling act was passed, the channel has changed considerably; in fact, it is changing all the time. The contention of Oregon is that the boundary line is the one fixed by the enabling act, and should remain the same now as then, regardless of the changing of the river channel. If the state of Washington's contention is correct, some of the islands that were originally in Oregon would now be in Washington.

The main point of interest is the control of the fishing grounds at the mouth of the river. Attorney-General Crawford was advised about a month ago that the complaint was to be prepared and a copy sent him at once. It has been agreed by stipulation between the two law offices that the complaint and answer should be filed at the same time. A copy of the original complaint has been furnished to Attorney-General Crawford in advance, so that he can prepare his answer and submit it to the Attorney-General of Washington before the latter files the complaint.

Next Friday Afternoon.

What will be by far the best football game of this season on OAC's field happens here next Friday afternoon. It is not certain that it will not be the best game played this year in the Northwest. The Willamette University and OAC will be the contesting eleven. Both stick closely to straight football, and in that department both have demonstrated a superiority over the Eugene eleven. Both present a formidable line with a powerful offense, and both have heavy, strong backs. There is no question of the ability of each to put up ball that will delight all admirers of the game. That the score will be a close one is without doubt. It stands a good chance to be a scoreless contest.

The OAC team will be in first-class shape for the game. There will be some changes in the lineup, and one or two old familiar faces will be missing. Floyd Williams will not play, which will make the team look a little strange, for no game during the past five years has been played by OAC without the well-known halfback in his usual position. There will be other changes too, that will make the team look different, but all the experts say they are changes that will make the team stronger than ever.

All the local enthusiasts are looking forward to the game with renewed interest. Willamette expects, it is said, to win the game without difficulty. A special excursion to bring 250 or 300 Salemites is being arranged for. A special train will also bring the usual quota from Monmouth and Independence.

BULL BALKS AT GOOD MUSIC

Charges Into Crowd When Organ Starts to Play Hymn—Couldn't Soothe the Savage Breast.

Philadelphia.—A rough shock was given to those who believe that "music hath charms to soothe the savage breast" when a large bull, taking offense at the strains from an organ in a Gospel wagon at Ridge avenue and Delmar street, lowered his head and swooped down upon the wagon.

The consequence was a wild scattering of the crowd which had surrounded the wagon and the running away of the horse attached to the Gospel wagon.

Hudson Gregory, a colored evangelist, was in charge of the wagon. The services had just begun when a bull, led by a small boy, came in view. At the first sound of the organ the bull pricked up his ears and at the second note he charged, breaking away from the boy who was leading him.

The horse attached to the wagon took fright and ran down Ridge avenue. It ran three squares before it was stopped by Mounted Police officers, who scattered the crowd and permitted himself to be captured.

He'd Lose There.

A distinguished German professor says coconut meat is its raw state is the natural food of man. But there are professors in Battle Creek, Mich., who can talk him blind on that proposition.

Out of Tune.

The labor union demands that the government raise the pay of its musicians and keep them away from competition with civilian bands. Somebody has struck a false note.

COPPER PRODUCTION.

CONSIDERABLE INCREASE IN OUTPUT DURING 1904.

Lead and Spelter Production Also Runs Far Ahead of Last Year's Figures—Interesting Particulars.

Washington.—Mr. Charles Kirchhoff, special agent of the United States geological survey, has computed the quantity and value of the copper, lead and spelter produced in the United States during 1904. He has in preparation detailed reports of these industries, which will be published in the survey's forthcoming volume, "Mineral Resources of the United States, 1904."

A very considerable increase took place in the production of copper during 1904. The production amounted to \$12,537,267 pounds, valued at \$105,629,845. The production for 1903 was 688,044,517 pounds. The most noteworthy increase occurred in Arizona, where both the Bisbee and Globe districts added largely to the product. The imports in ore and matte amounted to 38,947,772 pounds; the imports in bars, ingots and old bars to 142,344,433 pounds. The exports of copper amounted to 564,544,880 pounds, a noticeable increase over the exportation of 1903, which was only 320,322,627 pounds. The amount of copper consumed in the United States during 1904 was 485,294,592 pounds, a decline from the figure for 1903, which was 566,429,885 pounds. In spite, however, of this decrease in consumption, it was necessary to draw upon the stocks in producers' hands to the extent of nearly 56,000,000 pounds.

To arrive at the production of merchant lead obtained from the mines of the United States is a complicated problem. A careful study of the figures justified the statement, however, that it amounted to 307,000 short tons in 1904, valued at \$26,402,000. The yield in pig lead from ores smelted by works that do not argentiferous material is estimated, after undergoing the smelting, pulverizing and smelting operations, at 55 per cent. of the contents of the ores. The result is a tonnage of 218,000 for 1904 as contrasted with 199,000 short tons for 1903. To these figures are added 89,169 tons of soft lead for 1904 and 83,444 tons of soft lead for 1903, making an approximate total of 307,000 short tons for the lead production of the United States in 1904, as compared with 282,000 short tons for 1903.

Returns from all the producers of silver in the United States show that the production for 1904 amounted to 2,720 short tons, valued at \$18,670,200. The production of 1903 was 150,215 short tons. This extraordinary increase in production was due chiefly to the growth of the industry in Kansas, where a number of new plants built in 1903 were in operation. A partial report of the work carried by producers of zinc shows a reduction from 10,538 short tons on January 1, 1904, to 6,521 short tons on January 1, 1905.

FINGER-PRINT QUERIES.

Candidates for Police Job Are Puzzled by Examination Technicalities.

Chicago.—"What is an ulnar loop? What is an arch? Tented arches?" One of the 13 men who tried to answer these questions and many others in the way to a job in the city police department but the city hall members and employees who conducted an examination at the city hall yesterday confessed themselves puzzled. Some of the candidates had desperate and left blank spaces, and the examination was held in the vacant place in the bureau of identification.

"Maybe Paul's head Wilson, Mark's famous character, would know," said Secretary Corcoran, "but I suppose it's all right, as the questions were made out and forwarded to us by St. Louis identification expert at our request."

"I will have to take it for granted that the questions will bring out the qualifications of the candidates," said President.

The examination was designed to bring out the qualifications of the applicants as experts in the Bertillon system.

NURSED HER OWN SLAVE.

Her Former Mistress Rescues from Want and Cares for an Aged Negress.

St. Louis.—A bit of sentiment and pathos of the old south found expression when Rachel an ex-slave, was nursed by her former mistress, Mrs. B. Vaillant, wife of an associate justice of the supreme court of Missouri, from the fashionable family home, where for five years the aged negress had been cared for as tenderly as a child. She had been rescued, an invalid and penniless, after Mrs. Vaillant had spent two weeks traveling in search of her in the hope of seeing her during the last illness of her husband.

ORVALIS GAZETTE.

Corvallis, Oregon.

156 Christmas Presents For \$1.80

Good for every farmer. Good for every farmer's wife. Good for every farmer's son. Good for every farmer's daughter.

3 Christmas Presents every week in 1906.

A thoroughly practical, helpful, useful, entertaining Christmas gift to any member of a farmer's family will be a subscription for the year 1906 for the "Corvallis Gazette" of Corvallis, Oregon, your favorite home weekly newspaper, and a subscription for the year 1906 for "The New York Tribune Farmer," a twenty-page, high-class, illustrated, agricultural family weekly, thoroughly up-to-date in everything which advances the interests of the whole farm and household.

The two papers coming regularly every week in 1906 will be a constant reminder of the giver and a Christmas gift of the most substantial character continuously throughout the year.

These two papers will be sent to one subscriber both for one year for \$1.80 cash paid in advance to all new subscribers and to all old ones who will pay up all back subscription and the \$1.80 for the one year in advance.

A special contract enables us to furnish both of these papers for the entire year for \$1.80, but if subscribed for separately the regular price for both would be \$2.50.

In like manner the "Corvallis Gazette" and the "Tri-Weekly Tribune" will be sent to one subscriber both for one year for \$2.30 cash paid in advance to all new subscribers, and to all old ones who have paid up all back subscription due and the \$2.30 for the one year in advance.

In like manner the "Corvallis Gazette," the weekly New York Tribune Farmer and the Weekly Oregonian will be sent to one subscriber, all three for one year for \$2.85 cash paid in advance to all new subscribers and to all old ones who have paid up all back subscription due and the \$2.85 for the one year in advance.
