Notice of Publication.

United States Land Office, Portland, Oregon, August 19, 1905.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, I, VA SHERWOOD FATTY, of Corvallis, county of Benton, State of Oregon, has this day filed in this office her sworn statement No. 6824, for the purchase of 8 1/4 sq. ft. of Section No. 26 in Township No. 10 S., Range No. 6 West, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish her claim to said land before the Register and Receiver of this office at Portland, Oregon, on Monday, the 6th day of November, 1905.

She names as witnesses: Erwin R. Alexander, Thomas E. Graham, James H. Patten, all of Corvallis, Oregon; Robt. A. Miller, of Portland, Oregon. Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 6th day of November, 1905.

ALGERNON S. DRISNER, Register.

Registration of Land Title.

In the Circuit Court of the State of Oregon for Benton County.

In the matter of the application of Archibald N. McKee to register the title to the northeast quarter of the southwest quarter and lot 3 in section 3, township 11, south range, 4 west, of the Willamette meridian, in Benton County, Oregon, containing 78.50 acres more or less, against Henry Rickett, defendant.

To all whom it may concern: Take notice, that on the 16th day of November, 1905, an application was filed by said Archibald N. McKee in the Circuit Court of Benton County, for initial registration of the title of the land above described.

Now, unless you appear on or before the 23rd day of December, A. D. 1905, and show cause why such application should not be granted the same will be taken as confessed, and a decree will be entered according to the prayer of the application, and you will be forever barred from disputing the same.

VICTOR P. MOSSIS, Clerk.

L. L. SWAN, Plaintiff's attorney, Dated Nov 11, 1905.

COUNTRY CORRESPONDENCE.

BELLOUNTAIN.

Farmers here are making good use of the favorable fall by seeding a larger acreage than usual. Early sown grain and grass have made a good growth. Stock are for the most part in fair condition and in demand at a good price.

J. M. Baily is buying beef cattle for a party in Harrisburg.

Frank Dinges has gone to Portland with several carloads of sheep and hogs, besides the hundreds of cattle that he has shipped and sold on contract. One wonders where all the stock comes from.

This valley of the Willamette is regarded by stockmen of wide observation as one of the best breeding grounds for live stock in the world. If any one doubts this being a good place for the growth of cattle their doubts would soon be dispelled by going to Frank Dinges' and look at four steers that he bought over on Lake creek. The four steers weigh 8,000 pounds and are being fed for Christmas beef.

Ed. Williams and others have been busy for several days rounding up their cattle on prairie and maintain a bringing them off for the winter.

Mrs. Casterline and children have moved to Portland where Mr. Casterline has been for some time.

A literary society for mutual benefit has been organized under the auspices of the public school.

E. H. Belknap has been appointed by the presiding elder of the M. E. church, Dr. Wire, to take the place of Rev. Alford who was unable to fill the appointments.

Thanksgiving day will be observed by the people of this community by appropriate services at the Simpson chapel.

It is hardly to be wondered at that people should enjoy celebrating Thanksgiving Day by partaking of bountiful dinners, but it seems strange that so many make this a time for a special hunt and seem to get so much satisfaction out of just shooting the life out of some bird or beast.

There is being some good prices offered for homes here, but holders are rather slow to let go.

Floyd Bistow, who came home from a Portland hospital a week ago, seems to be getting along first rate.

Little Bado Tharp and Miss Dora Watkins, who have been under the doctor's care for some time, and both are much improved.

R. G. Hall, Sr., is butchering eight fine hogs today. Chas. Hout, of Corvallis, gets some of them.

Local Try-Out.

The local try-out for the OAC Intercollegiate Debating Team, will be held in the college chapel, Friday evening, Dec. 8. This is the first time in its history that the college has put out a debating team, hence, much interest is being taken in the local contest.

For the past few years each of the eight literary societies of the school has been represented by a team in a series of intersociety debates for the Gatch cup. This organization will still exist, but a team selected from all of these societies will be chosen to represent the school in contests to be held with other colleges.

Seven debaters will enter the contest, out of which three will be selected as the team. Four debaters of last year's society teams and three seniors will be the personnel of the aspirants and a lively discussion is insured. The question to be discussed is, "Resolved, That the government of the United States should own and control the railroads."

DOG A MOTHER TO CHICKS

Canine Shelters Wee Feathered Creatures—Chases Cats with Criminal Intentions.

Bloomfield, N. J.—Edward G. Neumann is the owner of seven little chickens which were brought to him as an incubator. Mr. Neumann is also the owner of a pet dog. The dog was lacking in the number of legs, and one of the little chickens, which was hatched under his care, took shelter under his heavy tail. The dog did not resent the intrusion and the chickens made themselves very much at home, making short excursions from their shelter, and when the dog got up and moved he was followed by the batch of little chickens, and when he lay down again the chicks again used him for a shelter. The intimacy thus formed developed into a mutual attachment, and the dog assumed a guardianship over the chickens.

The dog, Mr. Neumann says, is a wonderful guardian and protector. While there are no fences around the little chicken premises, yet such is the sagaciousness of the dog and his intuitive ideas of surveying and geography that if the chickens attempt to cross the line of the Neumann place, the dog noses them back to their proper bounds, and if a cat appears in the neighborhood the dog puts it to flight. The dog is very considerate of his charges and when they want to rest he lies down and the chickens cuddle up against him.

LETTER LIST.

ICE THIRTY FEET THICK.

Remarkable Discovery Made by Connecticut Man Seeking Cold Water in a Well.

New Haven, Conn.—The people up in Coventry have been astonished to find this year in the early summer a well in a farm yard which is still frozen to the depth of 30 feet. Not long ago this has been known in Connecticut in years, the heavy ice banks of 1898 having receded by this time of year.

"So fishy" did this story seem that a Hartford reporter, exceptional for his veracity, personally looked the matter up. He found that the well had not been used recently, and that when the farmer on whose premises it was thought he would like a drink of cold water tried to draw it his bucket struck a hard substance.

Getting into the well, the farmer found that the top of the well was thick with ice, which reached at least 30 feet in a solid chunk to the bottom. The well has performed unusual feats in keeping ice in recent years, but nothing so remarkable as this.

FLASHES FIGURES OF FIRE.

New Cash Register Gives Further Protection Against Dishonest Clerks.

Washington.—A cash register appears to be an essential piece of apparatus in all mercantile establishments, and the elaborations and embellishments that have been devised for the greater protection of the purchaser and the seller have made this device the most complicated piece of mechanism in use by the general public.

Not content with the protecting feature already provided, one of the largest manufacturers has just secured a patent which affords still greater protection for both parties to a transaction. The distinguishing feature of the new improvement is a display of the amount of the sale at a distance from the cash register. This unique end is attained by the introduction of electric commutators, contacts and electrically lighted universal numerals, operated automatically by the manipulation of the register keys. The numerals are formed of black letters, illumined with electric lights and so designed that any numeral can be flashed out of the same space by varying the contacts—that is, by observing certain lines and illumining others.

Whenever a sale is registered the amount of the sale is flashed out in large figures on a conspicuously located electric sign, so that there does not appear to be the slightest opportunity for false registration without detection. The indicator comprises a rectangular frame with a semiopaque front of frosted or ground glass.

MAIL BOXES TO BE GREEN.

Aluminum Color Is Found to Be Detective After Having Been Given Long Trial.

Washington.—Green soon will be the color that will guide writers of letters when they wish to commit their missives to the care of Uncle Sam. Aluminum-colored post boxes are doomed, and the order has gone forth that boxes in Chicago and everywhere else are to become of a brilliant grass hue. Transformation of the 4,000 boxes in this city will commence soon, and by the late fall, it is expected, aluminum-tinted boxes will be a thing of history.

The change is because aluminum paint has not proved satisfactory. "There's nothing like green," declared Assistant Postmaster Hubbard yesterday. "Green retains its brilliancy and freshness much longer than does aluminum. Aluminum paint becomes dirty, dingy and rusty, while green remains spick-and-span. The change is simply a common sense move and is a return to the green boxes that preceded the present ones. Twelve years or so ago the old green boxes were done away with. Boxes in other cities also will assume an emerald hue, and the citizen will recognize his good friend the post box by its complexion anywhere in the country."
