IS USING HIS EDUCATION.

In Practical Way-What He Says of Dairying.

W. H. Weeks of La Grande, who visited Corvallis friends last week and returned home Friday, is an OAC graduate who is making practical and profitable use of the education acquired at the Agricultural College. He is interested in dairying, having been connected with the Blue Mountain Creamery Company of La Grande for the past year. He says:

"There is a great future for the dairying business in Eastern Oregon, and much of that country is like Western Oregon, naturally adapted to the business which I represent and have made my life work. I took a course at the State Agricultural College, and our company is handling five plants. Our head office is at La Grande, and we are operating at Pendleton, Union, Wallowa and Enterprise. Some months in the year we pay out \$7000 to \$8000 to the farmers, and can sell all that we make at good prices.

Wallowa county is especially adapted to dairying, as it is a natural alfalfa country, and has plenty of water. The same is true of parts of Baker, Union and Umatilla. Two of the largest producers of dairy products are Walter Pierce and Judge Hailey, of Pendleton. The Grand Ronde country is coming to the front very fast. There is a great future for dairying in Oregon, and I would advise any young man who has a taste in that direction to get a first-class scientific and commercial equipment, and there

are plenty of positions waiting for him."

Burglars Abroad.

Burglars were abroad in Corvallis Friday afternoon and the residence of James Berry was ransacked from one end to the other.

The affair happened about 4: p. m. while Mrs. Berry was away from home. On leaving the house she did not lock the doors, and upon returning the front door stood ajar. Entering the dwelling, she found that everything had been thoroughly overhauled in the hope of finding valuables, but as yet nothing has been missed. Dresser drawers were pulled out and the contents tumbled out on the floor, the beds were torn up and the mattresses turned back, showing that the prowler had searched carefully in every place where money is generally supposed to be hidden, and trunks had also been turned upside down in the hunt for plunder.

The officers visited the place and made a careful investigation, and as there is a strong clue as to who did the work, it is very probable that the guilty one may meet his just desserts.

Why

Should your baby suffer? When he is restless and fretful don't experiment with him and see how long your neighbor's baby will live. Buy a bottle of White's Cream V. It will cure all children's diseases. It will build up a strong, healthy child. It will make him puny babies fat. "My baby was thin and sickly, could not gain its food and cried all night. I used one bottle of White's Cream V. and in a few days baby was laughing happy and well." Sold by Graham & Wortham.
