B. R. Thompson exhibited some green fruit at this office a few days ago that was certainly out of the ordinary even for Oregon—land of wonders, that she is. An apple tree standing in Mr. Thompson's dooryard bloomed last fall and Mr. Thompson has watched patiently to see what the result would be. Little apples was the result and some were showed to us. They have attained the size of marbles. If Mr. Thompson or anybody else can assure us fresh apples in March the problem of apple dumplings for spring is solved.

Emery, secretary-treasurer of the association, will go down from this city to be in attendance. He will take down with him a choice bit of art entitled, "A Study in Chinamen." This is a photograph of China pheasants from a negative by E. E. Wilson; printed on tinted platinum and retouched by Mr. Emery. It is a very effective bit of work.

The Monthly Review, a journal devoted to photographic art, contains the following note of W. G. Emery: "The ever popular W. G. Emery, of Corvallis, Oregon, who made himself famous by his speech before the recent convention in Portland, although claiming to be only a country photographer, demonstrated to his brother professionals that location need not govern the quality of the work. His display showed a remarkable versatility and complete command of the possibilities of photography." In the speech referred to, Mr. Emery said, among other things: "I could never see any reason for crossing over to the other side of the street to avoid meeting a competitor. I assure you my friends, that we don't do that way up in Corvallis. If my competitor, Mr. Gardner, carries a razor in his boot leg I have never seen it. On the contrary, he has gone even so far as to introduce me to his wife and family."
