THE INSINUATOR.

"Let him who is without sin first cast a stone." From a certain unreliable quarter, a source not burdened nor weighted to earth with a reputation for veracity nor fair dealing, comes the continued wail that the republicans put up a job and defeated certain men at the primary election.

Why does the brother so bother himself about what the republicans are doing? Deperation prompts it. It is necessary to exist, at least so it is presumed, and to keep soul and body together our friend must have a county rake-off. Cry "economy" in county affairs! Bah! What a farce, when our contemporary charges a good sum for printing matter which we run as news and have no thought of making a charge for. Why so economical all at once? Those thoughts should not be allowed to rise so suddenly and with such violence for they might do bodily harm to a soul of unusual purity.

Some people can make a remark and have their fellows feel that it was made in conviction of its truth—is this a case? And yet we hear the cry of jobbery. Did the man who now cries "jobbery and combine" in the columns of the Times ever job anybody in Corvallis? Can anybody prove that he is not jobbing the people of this city and county right now? And yet in the face of what his reputation is thought to be he dares to cry jobbery. Let him prove his job.

WILL SUPPORT THE TICKET

Men are republicans because they believe in and accept the principles and purposes of the republican party. They believe these principles and purposes embrace everything necessary to the welfare, prosperity and happiness of the individual citizen and for the development and progress of the state.

They desire to give place and influence to men who believe in and accept republican principles and purposes as earnestly as they themselves do. To this end they name a republican candidate for each office, from governor all the way down to precinct officers.

This constitutes the republican ticket. It must be elected by the republican voters. No man on the ticket has any right to demand other than republican support, but every man on it has a just right to the unflinching sup-

port of every republican voter. The candidates were placed on the ticket by vote of the rank and file of the party, and not at the behest of any self-constituted leader or aspiring "party boss." For this reason they have a peculiar and unusual right to expect the support of every republican.

Benton county is a republican county by a safe majority. If republicans will do their plain, simple duty in a straight-forward, manly way, the anomaly of democrats holding the most responsible and lucrative offices in the county will cease to exist. We are gratified by the multiplying assurances that republicans throughout the county will stand firm in the support of the county ticket, as well as of the state and congressional tickets.

No candidate should receive anything short of the entire republican vote that it is possible to cast for him, and no candidate receiving this can fail of election.

THE "LIFERS."

The declaration is made that Mr. Burnett is a very competent sheriff. This is true. Moreover, Telt is a good fellow. However, unfortunate as it may seem to certain interested ones, he has not a monopoly on all wisdom and clerical ability. A life time in office should make a man conversant with the duties of said office. Mr. Burnett has been in the sheriff's office for ten years, four as deputy and six as sheriff—and yet.

From what democracy would have us believe Benton would cease to be without Mr. Burnett in the sheriff's office. Really, this does not seem probable to us, notwithstanding the source of the proclamation.

ALWAYS A PARTISAN.

When any considerable number of men hold to principles and policies which they wish to apply to the administration of public affairs they naturally form a party for the propaganda of their tenets. This is the reason for the formation of parties and the only sufficient reason for their existence.

It sometimes may occur that a party once having distinctive principles, has, for some reason, come to a point where it really has no principles of its own and is unable to formulate any which men earnestly embrace. When such a party engages in a political campaign it must pursue three courses. It must resort to vituperation and misrepresentation of opposing candidates; it must steal and appropriate, as deftly as may be, the principles of the opposing party; it must decry drawing party lines. It must do these things because it has no principles of its own.

These things are exactly descriptive of the democratic party in the present campaign. It assails the republican nominees with vituperation and misrepresentation. Especially have they assailed Dr. Withycombe, republican candidate for governor. So mean, causeless and senseless have these assaults been that fair-minded and honorable democrats resent them and rally to the support of Withycombe.

When it attempts to palm off republican principles as its own no one is deceived, for everybody knows the democratic party has no principles, and for long has not had any that the people want.

For democrats, like G. E. Chamberlain and J. M. Gearin to deprecate party lines, is little short of amusing. When and where has Geo. E. Chamberlain done a political act with his eyes closed to the consequence to himself and party? So also of Senator Gearin.

Republicans have principles and policies. They know these are safe only in republican hands. They will be republican partisans until the polls close June 4th, and leave it to Gov-

ernor Chamberlain to be an intense partisan first, last and all the time.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take the natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or spots appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which Dr. Pierce's "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE BADGE OF HONOR on every bottle wrapper, in a full list of its ingredients.

Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.
