**SOME REASONS WHY.**

Do you know any good and sufficient reason why the republicans of Benton county should not support the whole republican ticket this year? We have practically put this question to every republican in the county. We have personally presented it to scores of republicans in different sections of the county. The invariable reply has been: "We know no such reason."

We have asked many republicans who have wide acquaintance in their section of the county: "Do you know of any republican who will not support the whole ticket this year?" The answer has uniformly been: "I know of none."

A number of reasons have been given for this decided unanimity of purpose. The ones most frequently given are that this year the rank and file of the party selected the candidates for the various offices and it would be sheer meanness and injustice not to vote for them. Another reason is that the whole ticket is one of unusual excellence and deserves the support of every republican. Yet another reason given is that the republicans have grown tired of seeing the most important county offices held, from year to year, by democrats.

All these are good and sufficient reasons for voting the entire republican ticket. We believe all the members of the party hold these reasons true and will vote accordingly. This means the election of the whole republican ticket. This is just what will be the result. All the conditions warrant this conclusion.

**FOR REPUBLICAN VOTES.**

We must continue to emphasize to republicans the absolute insincerity of the democratic leaders when they declare they stand with the President for those things which the people desire and look to him to accomplish.

Chief of those things are regulation of the railways, as to rates, rebates, etc., and the curbing of the rapacity of the trusts, as Standard Oil, The Beef Trust, The Paper Trust and other like combinations.

Since the first president the people, the whole American people, have had but two presidents, Jackson and Lincoln, who have been so earnestly, so persistently and so courageously the presi-

dent of the people as Theodore Roosevelt.

The people see this and have confidence in him—believe in him and support him. The leaders of the democracy see thousands of patriotic democrats supporting the president, and they are fain to say, "We stand with the president."

It is false. Their actions in the U. S. senate concerning the railway rate bill, if there were no other evidence, prove their absolute insincerity. Just as soon as they found they could not defeat the measure by obstructive tactics and cast the odium of its defeat upon the republican party, they gave out that they, with a few republicans, would pass the measure forthwith.

Days passed. The republican senators had practically agreed to support the bill as amended, in fact, by our Senator Fulton. The democrats, including J. M. Gearin, hastened to array themselves in opposition to the measure.

This should not, probably does not surprise republicans; but how about the hundreds of democrats in Oregon who honestly do stand with the president? Yet the republicans and the democrats who support the president are invited to support Mr. Gearin because "he stands with the president."

Geo. E. Chamberlain is now canvassing the state fishing for votes—republican votes, again to make him governor, and this "standing with the president" baits one of his hooks. Mark—it is republican votes that he seeks, republican votes that he must have, and a good many of them, too, or he cannot succeed himself.

Will he get them? Our advices from all sections of the state show republicans everywhere lining up in earnest support of Dr. Withycombe. The result of this will be his election by a decisive majority.

**Money in Cows.**

Dairying will do more for this country in the long run than any other branch of agriculture. The check for the cream comes once every month, and there's no such a thing as crop failure. A dairy community is independent of hard times. People must and will have butter, and they will pay more for fresh pure butter than they will pay for ordinary butter. The dairyman gets the benefit of this, as he can sell his cream to the creamery which receives the highest price for butter. Under the new way of paying for cream, the dairyman is paid on the basis of the selling price of the butter into which his cream is made. This method has proved a great success for the dairyman.

Get two or three good cows and a hand cream separator and start in. Separate the cream right after milking and cool it quickly. It will keep in fine shape if quickly and properly cooled. Feed the skim milk while warm and fresh to the pigs, or feed it sour to the chickens. Keep the promising heifer calves and build up your herd. Send the steers and the unprofitable cows to the butcher. Raise your own storage crops, and feed everything you raise. Your farm will increase in fertility and value. Invest every dollar you make in more good cream-making cows, and you will soon be growing rich and independent.

**Another Endorsement.**

From all sides we hear nothing but praise of Fred C. Peil, republican candidate for the office of sheriff. This praise is on account of both his clerical fitness and his character as a man.

A. T. Gragett, a well known and popular salesman in the establishment of S. L. Kline, states that he succeeded Mr. Peil in a store position on the Siuslaw a number of years ago. Mr. Gragett, states his employers and all others spoke in the highest commendation of Mr. Peil, both as regards his business qualifica-

tions and as a man of strictest integrity.

In Mr. Peil the republicans have a candidate whom they should feel it an honor to support. Give this young man whose name is on your ticket your hearty support. Not only should you make up your mind to vote for him when the time comes, but speak a good word for him on every opportunity. When he is elected you will be glad to recall the fact that you assisted in his election. We do not bespeak office for Mr. Peil for a decade, but we do insist that he and the republicans are entitled to the office of sheriff at this election and the indications are strong that we shall have our wishes fulfilled.

**He is the Man.**

Regardless of what political opponents may say, George W. Smith is going to be the next commissioner of Benton county. The selection will be a good one. Friends and republicans all over the county will not turn down so good a man. He is a conservative and successful business man and will assist in giving a good administration of the affairs of the county.

Mr. Smith has been here too long, for his worth not to be known to the people. Whatever he promises that you may depend upon. His republicanism and loyalty to the party and its principles cannot be questioned and he now calls for and is entitled to your support. That he will get it is scarcely a matter of doubt with those who are at all posted on political events.

**U. of O. Win.**

Our boys suffered defeat at the hands of the university boys at Eugene, Friday. They take their defeat with good grace and say that the trick was turned fairly by Eugene. An exchange gives the following:

The University of Oregon today met and defeated the OAC of Corvallis in the field meet, taking 76 points to 46 for the OAC athletes. A large crowd was in attendance and the meet was one of the best ever held in the state.

Two new coast records were established. Dan W. Kelly, U. of O., made the long jump 24 feet and 1 1/4 inches, and the 100-yard dash in 9 and 4-5 seconds, breaking coast records in each instance.

McKinney, also of the U. of O., established a new northwest record for the shotput, making a distance of 45 feet and 3 1/2 inches.

G. W. Hug, U. of O., made a new Oregon collegiate record in the hammer throw, 132 feet and 9 inches.

**OPEN PUBLICITY THE BEST**

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broad, and full list of all its ingredients, in English, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for women's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world-famed medicine is advised. No other medicine for women has any such professional endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's free for the asking.

**Impudent and False.**

To induce republicans to support democrats for county offices all sorts of subterfuges are used. Some of these are already worked to death; others are so impudent and brazenly false they deceive no one; but others assume a plausible form and will be kept at work until the polls close on election day.

Standing with the president is, in the language of the street, played out. This never deceived many republicans and now that the national leaders of the democracy have given such a convincing demonstration that it was a mere subterfuge we may regard it as dead,—murdered in the house of its false friends.

That none but certain democrats are at all qualified to fill certain county offices is a claim so impudent, and of such brazen effrontery, that it must amaze even those in whose behalf it is made. We know it disgusts republicans and will be rebuked as it should be at the polls. It is an impudent assumption, too, that because certain men have held certain important and lucrative offices, as county clerk and sheriff, for long periods there are no other men in the county qualified to fill them. Republicans do not believe any such tommy-rot.

They have selected good, trustworthy and competent men for these offices and they propose to elect them. Finally our democratic friends say "there's no politics in county offices, and it is but fair they should be divided between the parties," and heretofore they have usually succeeded in gathering the most important ones.

Sentiment is a good thing, a most excellent thing—to keep out of politics. For years not a few republicans have been swayed by sentiment. They are heard saying of it as King Richard did of patience; "Sentiment is stale, and I am weary of it." They will vote the whole republican ticket this year and refuse to entertain a sentiment which benefits only a few democrats who have held office so long that they would be an endorsement of the claim that they are hyper-superlatively qualified therefor.
