

# THE CORVALLIS GAZETTE

Published Tuesdays and Fridays by GAZETTE PUBLISHING COMPANY.

The subscription price of the GAZETTE for several years has been, and remains, \$2 per annum, or 25 per cent. discount if paid in advance. This paper will be continued until all arrearages are paid.

## THE PROBABILITIES.

As we go to press several hours before the polls close we cannot give even partial returns as an indication of the result of the election.

There is no doubt, however, of the success of the republican ticket. Chairman Westgate of the republican state central committee claims Withcombe's majority over Chamberlain will not be less than 10,000, while the remainder of the state ticket will be elected by majorities of from 20,000 to 25,000.

The contest for the state ticket has been largely confined to the candidates for governor. Chairman Westgate gives the balance of the ticket about the normal republican majority. Estimates by other well informed republicans give Withcombe from 15,000 to 20,000 and deny that he will fall more than 5,000 below the highest scored for the ticket.

The democratic committee claim Chamberlain will have a majority of 5,000 over Withcombe and that 2,000 of this will be given by Multnomah county.

The primary election showed that Withcombe was stronger in the other counties of the state and it would seem that Chamberlain might carry Multnomah and yet Withcombe have a majority of from 5,000 to 8,000 in the state. But republicans are firmly united and will carry Multnomah for the state ticket and we believe for her legislative and county tickets.

Throughout the state republicans are in earnest support of their candidates. This places Hawley for congress from this district with a decisive majority over Galloway, for whom the democrats are claiming a majority of 1000. It also warrants a belief that the entire republican ticket in this county will be elected by majorities ranging from 150 to 200.

It is absolutely sure that not in years have republicans been so determinedly, and earnestly united in support of their ticket.

Within twenty-four hours enough will be known to determine results though the full result of the election will hardly be known for several days because of the number of questions submitted to the voters. We may not know how some of these questions are decided until the entire vote is returned.

Whatever the result may be the Gazette felicitates itself that it made a good, strong, clear fight for the principles and policies it believes in, and for the men representing these, and that its vitality is unimpaired.

## Facts About the Earthquake.

The various commercial organizations of California are engaged in the appropriate and commendable work of placing before the world a true statement of facts and conditions as they existed in relation to the earthquake. San Francisco and San Jose, as well as a number of other places where minor damage was done, have suffered enough through direct loss by the great disaster to be immune in all justice from any additional loss resulting from the circulation of sensational and unwarranted reports. That such reports have been the means of frightening away capital and population is undoubtedly true to a certain extent, and it is with a view to calming the feeling of nervousness over the possible recurrence of such a disaster that publicity is now being given to a plain statement of facts.

As is stated in a circular issued by the Sacramento Chamber of

Commerce, had the damage ceased with the earthquake shock, the incident would by this time have passed away into history. The fires responsible for such an overwhelming proportion of the damage broke out mainly in buildings of an old type, which, of course will be replaced with modern structures so built as to withstand such tremors if any should ever again occur, and a repetition of the conflagration that wrought such havoc will be an impossibility. But it is not alone San Francisco that is suffering an injustice by the circulation of sensational reports, magnifying the possible danger from future earthquakes. All of the rest of the big State of California is affected to a degree unless the facts are fully impressed upon the minds of the people.

No damage at all was done throughout the San Joaquin and Sacramento Valleys, or in Northern and Southern California, and, in comparison with the area unaffected by the earthquake, that which suffered is small indeed, although the damage done was of great proportions. Earthquakes of similar and greater severity have been felt in many lands, and although thousands of years have elapsed since some of them were recorded in history, they have never been repeated. There is no reason why San Francisco should not enjoy a similar immunity for perhaps many thousand years. As for the rest of the state, with its great and diversified natural resources, nothing can prevent it from going ahead with the development of those resources. The opportunities are as good as before the disaster, and the liability of loss is no greater than it was.

Business is going ahead throughout the greater part of the state without the slightest interruption, and it will be but a short time before matters will be adjusted and the commerce of the state again flow seaward through the magnificent Golden Gate. With such a harbor and such wonderful resources behind it, time will speedily repair all the damage wrought by the great disaster. Few can tell the year or age of the last preceding dangerous earthquake on the San Francisco peninsula, and the risk of a recurrence within a few hundred years is remote.

## To Expel Senator Burton.

Washington June 2. The first steps looking towards the expulsion from the United States Senate of Joseph Ralph Burton, convicted of a crime against the United States, whose case was recently affirmed on appeal by the United States Supreme court, has been taken by the senate committee on privileges and elections. Senator Bailey, of Texas, has offered in the committee a resolution declaring that Burton "be and hereby is expelled from his seat as a senator of the United States from the state of Kansas." The second part of the resolution directs the secretary of the senate to inform the governor of the state of Kansas of the action taken.

The resolution would have been agreed to unanimously at the meeting of the committee yesterday, had it not been decided to give the Kansas senator a further opportunity to submit his resignation. It was also decided that the committee should have before it, when action was taken, the record of the court in the case, and that will be ready at the special meeting of the committee called for next Tuesday to consider Mr. Bailey's resolution. The committee agreed to vote on the resolution that day unless Burton resigns in the meantime.

Burton is now at his home in Abilene, Kan., and it is believed here that he will hand his resignation to the Governor of Kansas in time to forestall action of the committee next Tuesday. Republican senators and influential friends of Burton will make every effort to induce him to resign, for it is a foregone conclusion that he will not be permitted to draw a single day's salary as senator after next Tuesday.

Burton's case presents some pathetic features. He is ab-

solutely penniless and when he was elected to the senate, he was \$50,000 in debt. He has said to members of the committee that every day's salary was an additional morsel of food for his family. He has been frank enough to say that he needed the salary to sustain his family while he was serving his jail sentence, which shows that he has little or no hope that the supreme court will grant his motion for a rehearing.

## James E. Edwards.

James E. Edwards died suddenly Saturday at the Bellefontaine picnic. Deceased was aged 81 years and 1 month. The funeral service was held at four o'clock Sunday afternoon, conducted by Rev. Waltz, who was assisted by E. H. Belknap.

Mr. Edwards was born in Pennsylvania and his father died when he was a small boy, and when about ten years old he went to Ohio with his mother and brothers. His brother Isaac died when only twenty-one. Lewis, the eldest of the three, passed away twelve years ago.

When twenty-six he was converted and joined the United Brethren church to which he belonged the remainder of his life.

He married Mary Longworth Dec. 31, 1884. During the summer of 1853 they came to Oregon with the United Brethren colony whose leader was Rev. T. J. Connor.

The first four years in Oregon were spent in Alsea. The last forty-four years he has spent at the old home near Bellefontaine where he saw his family grow from childhood to maturity and twenty-one years ago buried his devoted companion. Of the nine children six survive.

When a boy deceased had poor health and only attended school about six weeks, yet he was a constant reader and took great interest in current events. He was a man of strong convictions, a loyal citizen of his country and firmly established in his Christian faith. Thus reads the brief record of his 89 years.

Miss Ethel Ingram, formerly of this city and a sister of M. T. H. Welcher, was married to Eugene last Wednesday to Berny Seitz, of Eastern Oregon. They will reside on the Ingram farm near Monroe, and many friends unite in good wishes for their future.

B. A. Senger has moved his plumbing business into his father's shoe store on south Main street, where he may be found at any time.

Floyd Rowland left yesterday for Coburg, where he is to run an engine for the Booth-Kelly Lumber Company during the summer.

## Treating Wring Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some urticarial disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system. As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing nervous symptoms commonly attending organic and functional disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a day. Easy to take as candy.

# W.L. DOUGLAS

UNION \$3.50 SHOES FOR MEN MADE

W. L. Douglas shoes are better this season than ever before. This means that there has been distinct improvement in their style, in their fitting qualities, and in their wear. Each year gives us additional experience which we turn to account by constantly improving our shoes. Nothing is too small to merit the minutest attention.

Things which might be considered trivial in other factories have infinite attention from our workmen for the simple reason that the Douglas standard is nothing short of the best possible. If it were not for the immense facilities and the right motive it would be impossible for the W. L. Douglas \$3.50 shoe to rival the \$5.00 and \$7.00 productions of higher priced makers.

Millions of satisfied patrons know through actual service that Douglas \$3.50 shoes hold their shape better, fit better, wear longer and are of greater intrinsic value than any other \$3.50 shoes on the market to-day.

NEW YORK

FREE TRIAL ON YOUR FARM OF A

## U.S. CREAM SEPARATOR

We know from our dealings with over 2,700 dairymen in the Pacific Northwest and from our own practical experience in dairying that the U. S. Cream Separator is the best and most practical separator for every-day farm use. It is such a well-made piece of machinery that it will last a lifetime, giving every day the quickest, easiest service. It is the best value for the money and we guarantee it ourselves. In addition to the guarantee of the factory, to show our confidence in this separator we will ship you one on ten days' free trial. Then if it don't prove as represented the best and most practical for your own use, you may return it at our expense.

Hazelwood today stands with its guarantee behind thousands of U. S. Separators, and there has never been a day when we have regretted having guaranteed this fine separator. We are thoroughly and practically familiar with the advantages and disadvantages of every separator on the market and we are handling the U. S. Separator because we know it to be the best there is.

SKIMS CLEANEST—In addition, the U. S. Separator skims the milk cleaner than does any other machine. This is demonstrated over and over again. The world's record for clean skimming has been held by the U. S. Separator for many years. No other hand separator has been able to equal the record made five years ago at the Pan-American Exposition, and yet this record was lowered by the U. S. Separator in the official test at the Lewis and Clark fair last year.

It will outwear any other separator, it is more easy and simple to operate, it is easier to keep clean and it will keep right on year after year doing its daily work, giving perfect satisfaction.

PAYS FOR ITSELF—The U. S. Separator will pay for itself in one year in extra cream saved over what could be skimmed in the old-fashioned way. If you don't believe it take advantage of our free trial offer and make the test right on your own farm. Skim in both ways and figure out the result in your own way. You will find the separator will pay for itself in a year. We sell it on easy terms and will take the cream and pay you the rest of the year the machine will all be paid for.

Write today for catalog and full particulars. Mention this paper.
