Stir well."

The musical drama, "On Shore and Sea," given by the OAC vocal department, Thursday evening, at the opera house drew a large audience. A well-known young lady who resides less than 40 miles south of Corvallis, was driving to town alone a few days ago, when overtaken by her young man friend on horseback. Happening to glance back the young man discovered that while he still held the rein, his horse was nowhere to be seen. Returning in haste, the couple found the animal near the mill race, grazing beside the road. Just what topic was under discussion, to so engross the young people's attention is not stated, but it is thought that everyone will know this autumn.

There is fear that the continued rains may materially effect the crops, especially hay, in this section. Grass of all kinds was never so heavy on the ground, it seems, and as haying time draws near and the ground continues to be water-soaked, it is a reasonable conclusion that damage may be done unless a speedy change occurs.
