THE CENTAUR COMPANY, NEW YORK CITY.

**\$4.00 To \$8.00 GAIN PER ACRE.**  
That's what a Spreader will do if used as it should be.  

**The Smith Great Western Endless Apron Manure Spreader**  
Spreads all kinds of manure, straw stack bottoms and commercial fertilizer regardless of their condition. Spreads as much in a day as 15 men can by hand. Spreads the largest load in 2 to 4 minutes. Makes the same amount of manure go three times as far and produces better results; makes all manure fine and immediately available for plant life.  
Non-Bunchable Rake forms a hopper, holds all hard chunks in contact with beater until thoroughly pulverized.  
Endless Apron is one continuous apron, (not a 1/2 apron) therefore always ready to load. You don't have to drive a certain distance to pull it back into position after each load or wind it back by hand; it is a great advantage in making long hauls.  
There is no creaking about our Endless Apron to break and cause trouble, it is always up out of the way of obstructions as it does not extend below axle. Spreads evenly from start to finish and cleans out perfectly clean.  
Head and End Gate keeps manure away from beater while loading; prevents choking of beater and throwing out a bunch when starting and acts as wind shield when spreading. It has a revolving lever and can be regulated while in motion to spread thick or thin, 3 to 2 1/2 loads per acre.  
Light Draft because the load is nearly equally balanced on front and rear axles. The team is as near the load as it can work. Front and rear axles are the same length and wheels track; beater shaft runs in ball and socket bearings, therefore no friction. Beater is 23 inches in diameter, cast iron over when loading. Machine turns in its own length.  
Simplicity. There are only two levers on our machine. One which raises the hood, locks it and throws the machine in gear at the same time. It can then be thrown in and out of gear without lowering the hood. One lever which changes feed to strong thick or thin, making it so simple that a boy who can drive a team can handle it.  
Strength and Durability is one of the most important points to be considered in a manure spreader. The Great Western has a good, strong, durable wheel. Extra strong spokes and rim. Heavy steel tires. Strong, well braced box with heavy oak sill. Oak tongue, hickory doubletrees, malleable castings, gears and sprockets all heavy. Galvanized hood. Every part is made extra strong, regardless of cost. It is made for the man who wants the best, made in four sizes, 35, 50, 70 and 100 bushel capacity.  
Guarantee Should any part break, wear out or get out of order within one year we replace free of charge. Send for free catalogue, showing latest improvements. It tells how to apply manure to secure best results.  
Write just these words on a postal card or in a letter: "Send me your book 'Practical Experience with Barnyard Manures' and catalogue No. 17158. They will be mailed to you free. Do it now before you haul your manure or prepare for a crop."  
**Smith Manufacturing Co., 162 Harrison St., Chicago**

**VALUABLE PUBLICATION.**  
Book for Farmer, Stock Raiser and Fruit Grower.  
An "Agricultural Log Book," prepared at great expense by the Central Publishing Company, in the Manufacturers, Exchange Building, consisting of reputable "up-to-date" Kansas Cityans, soon to appear, is not only novel in its design, but replete with valuable information, especially for all classes of farmers, breeders and raisers of all kinds of domestic animals; for dairymen, fruit-growers and others; with carefully written instructions as to various civil laws in which all wealth-producing classes are personally interested and with many strictly legal, blank and detachable forms of bills of sale, leases, mortgages, notes, receipts, warrant and quitclaim deeds, wills, etc.  
One of the most prominent features of the work is its systematic, easily understood, common sense and decidedly complete arrangements for recording all kinds of business transactions universally common among farmers and stock raisers, giving inventories of articles owned, and all liabilities at time of commencing business; clearly exhibiting at the close of each year the results of all kinds of investments, purchases and sales; explaining how and when entries of all "debts" and "credits" are made; how gains and losses are ascertained; interest and other tables, with much additional information to housekeepers, gardeners, and others. It is evidently a work not only of merit, but of genius; its whole "make up" is methodical, clear, scholarly and attractive; its authors certainly have the one thing required in such an undertaking, a complete, comprehensive and practical knowledge of the whole field presented; while their full purpose is to enable each farmer using it to know just where he is in his business at all times, as the mariner does by the aid of his compass and chart on uncertain seas. It is simply a mammoth production, not in size, but significance, in evidence of which several of the largest publishing companies in the United States presented bids for its publication, but the contract for many thousands of copies was finally given to Messrs. Hudson & Kimberly of this city, who are regarded by many as the most artistic as well as reliable publishers in the great West.  
The Central Publishing Company, which owns and controls the work, has ample means to bring it speedily and successfully to the front, and to give you the best employment in its production.

and sale to thousands anxious and deserving.  
We wish the company great success in placing the work in the home of every farmer, stock-raiser, dairymen and fruit-grower in this fair land of ours, as a stimulus not only to greater efforts of industry, but especially to the keeping before him a complete history of every business transaction in which he may be interested.  
**Additional Local.**  
Mrs. Henrietta Wells, after an extended visit in this city with her brother, Richard Turner, returned to her home in Buena Vista, yesterday.  
The members of the W. C. T. U. are urged to be present at the regular meeting this week, as an important business is to come before the society.  
Mrs. William Cress, who recently purchased the old Chinese wash house property on North Main street, has had the old shack torn down and moved away. In this connection it may be said that both the reading room and the cottage adjoining have been repainted recently.  
The Kline base ball team and that from Oak Grove played a game on the flat above town on Sunday afternoon. A good crowd was in attendance. The score was 16 to 10 in favor of the Kline team. W. A. Wrenn, well known in this city and who at one time played on the California League, umpired the game.  
The marriage of Benjamin Scott and Miss Clara Harding took place in La Grande, Eastern Oregon, Thursday. The bride is spoken of as a most estimable young lady and the groom is the son of Mr. and Mrs. John Scott, of this city. Ben is now a business man of Nampa, Idaho, at which place the newly wedded couple are to reside.  
Tony Fontana, the well-known bootblack of this city, expected to depart for Portland yesterday. Tony is looking for a new situation, and if he finds anything that suits him in Portland it is his intention to remain there. If he does not find anything to his satisfaction in Portland it is probable he will return to Corvallis.

This morning Henry Ambler, of the real estate firm Ambler & Watters, will depart for England, accompanied by his wife. It is twenty years since Mr. and Mrs. Ambler left England, their native land, and thirteen of these have been passed in Benton county. They are to be absent until October 1, visiting relatives and friends and reviewing the scenes of their childhood. Prof. and Mrs. S. I. Pratt will accompany Mr. and Mrs. Ambler as far east as Michigan, where they will make an extended visit with relatives in their old home. The Gazette wishes all of them a most enjoyable visit.  
"In Oregon, with its diversified resources, no country has the same prominence, either latent or developed," said A. L. Craig, general passenger agent of the Harriman Northwest lines, in Pacific Northwest. "In point of location we are supreme. Along the borders of the state washes the waves of the mighty Pacific, with its thousands of palatable fish and many varieties of beach inhabitants in the form of clams, crabs and others of the shell family. On its ranges roam cattle and sheep which the Eastern markets are seeking with a heavier demand than can be safely supplied. Timber for all commercial purposes grows so closely in some foothill sections that it is next to impossible to run a line through. Fruits of every kind found in temperate zones, vegetables of every class that can be cultivated where neither sun nor moisture are excessive and a wealth of mineral in a dozen forms make up a summary of life's needs on which any people would be content."  
Three young ladies were received into the M. E. church Sunday through baptism. The baptizing occurred at three o'clock in the afternoon in the Willamette river just above the E. W. Strong sawmill.

Men Wanted.—Saw mill and lumber yard laborers \$2.25 per day. Woodsmen \$2.25 to \$3.00. Steady work. Apply to Booth-Kelly Lumber Co., Eugene, Ore. 431f

**A PRETTY WEDDING.**  
Benton County Couple Wedded Sunday—Cooper-Whiteside.  
The Whiteside home, two miles west of town, was the scene of a very pretty wedding Sunday, when Miss Kate J. Whiteside, the only daughter, became the bride of George E. Cooper, the youngest son of Hon. and Mrs. T. H. Cooper, of Benton.

Ten o'clock was the hour set for the ceremony, and at the appointed time the wedding march was heard, Miss Grace Lowe being the performer. The bridal party came down the stairs and marched to a position under a beautiful bell of bride roses in the center of a canopy of ivy. Here the young couple was met by Rev. G. H. Feese who performed the ceremony in the presence of fifty relatives and friends.  
After congratulations a delicious wedding breakfast was served on the lawn, during which the bride's bouquet was tossed, and was caught by Miss Mae Guthrie.  
The bride was dainty and modest in a costume of white silk crepe de chine, carrying a shower bouquet of bride's roses and asparagus fern. The bride's maid, Miss Lilli Gellatly, was prettily gowned in white organdie. Samuel Whiteside, Jr., was groomsmen.

The rooms were beautifully decorated with Oregon grape, evergreens and white lillies.  
Mr. and Mrs. Cooper left on the 1:20 train for Portland. They will be at home to their hosts of friends after July 6th.

at the Whiteside home west of Corvallis. Hearty congratulations are extended.  
From what we learn there was a "hot time" in Albany Saturday night. This was the last night of the old liquor law and the sports undertook to drink all the liquor on hand that it might not become insipid during the long dry spell which is promised. On the other hand, it is stated that the prohibitionists burned much powder in celebration of their victory. Altogether the celebration was a memorable one.

The woodsman went into the camp in the fall to stay during the winter in earlier times, the facilities of getting out being limited and in marked contrast to those of later days when the pine regions were threaded with iron rails. The woodsmen were fed well, says a writer in the Pilgrim, because they were expected to work hard, drones not being tolerated, and to do good work plenty of "grub" was required. The bill of fare of an average camp consisted of pork and beef, potatoes, beans, bread, dried apple sauce, tea, molasses and occasionally cabbage, onions

**All The World**  
Knows that Ballard's Snow Liniment has no superior for Rheumatism, Stiff Joints, Cuts, Sprains, Lumbago, and all pains. Buy it, try it and you will always use it. Anybody who has used Ballard's Snow Liniment is a proof of what it does. All we ask of you is to get a trial bottle. Prices 25c, 50c and \$1.00. Graham & Wortham.

**We Offer—** (Subject to prior sale)  
**\$10,000.00 CONDON [Oregon] 6% Water Bonds.** This is a portion of an issue of \$30,000.00, all of which we own. Denomination, \$500.  
Condon is the town to which the Condon branch of the O. R. & N. Co. was built. It has a tributary country which produces splendid crops of wheat and a large clip of wool. The merchants of Condon get the trade of this district.  
The town has twelve stores, three banks, two grist mills, four warehouses, three lumberyards and one brickyard. It is a prosperous town with a good future.  
We bought these bonds primarily for our own investment. We will sell \$10,000.00 in blocks of \$500.00 or multiples thereof at a price which will make the investment net 4 1/2% per annum.
