LATEST FREAK.

The world is a stage and many freaks hold the boards. Freaks, human and otherwise, are becoming everlastingly common and have to be considerably out of the ordinary to attract even passing notice. During the past few days the most notable freak in the human line to receive attention is Miss Elizabeth Magie, a stenographer of Chicago. She offers herself for sale.

In quite a notable invoice of her charms and good qualities this young woman offers herself for sale to the highest bidder, as a "white slave." She does not state whether any and all bids may be rejected, but the presumption is that she makes a mental reservation of that right. From the statement of this woman it is evident she possesses silk underwear tastes and a pocketbook that will permit gauze.

Some way this whole scheme does not look nice and there is something of the gentleman lacking or Miss Magie could never make such a proposition public. The only conclusion is that she is gone, lost, or is going or "losing" rapidly.

Nearly a year ago the Forest Grove bank was robbed. Shortly thereafter Cary D. Snyder, of Hillsboro, was missing. His wife at that time seemed loath to give a very full and free account of the affair so far as related to the disappearance of her husband. She maintained, however, the declaration that she believed he had been murdered. Just exactly why she should believe this she never made clear. Recently Snyder's body was discovered in the woods near Hillsboro, and, as his revolver was found nearby, the first theory was that he had committed suicide. Later the idea that he had been murdered gained the ascendancy. So far as any definite action for the apprehension of those who might have committed the deed is concerned there seems to be nothing doing. At present the widow is charging the authorities with incompetency and so the case rests.

William Randolph Hearst aspires to the governorship of New York. From what can be learned of Willie he takes rank with the greatest montebanks the United States ever produced. He has given sufficient evidence that if he had the brains and the vocabulary he would say mean things of all who stand between him and the gratification of his ambitions. Arthur Brisbane, Mr. Hearst's hired brains, is doing good work for his employer, but all realize the difficulty under which he labors.

Co-education is to be abolished at the University of Chicago, according to the latest decree. As this institution of learning is supposed to be a hotbed for "freak" professors the thought presents itself that possibly this is some of their doings. So far as a reason for the abolishment of co-education is concerned silence is maintained. It seems a pity that the boys are to be denied the "refining influence" of the girls. We expect bitter protests from the students.

Oak Grove.

S. P. Lauranson is now a resident of Albany. He moved Wednesday.

Alfred Williams and wife who reside at The Dalles have been spending a few days with relatives at Wells.

Miss Tilda Workinger has

been employed to teach the Oak Grove school and began her labors Monday, October 8th.

Julius Miller moved this week to Linn county where he will hereafter make his home. Mr. Miller has been running the Pageat farm for the last few years but has concluded to change counties.

Will Tomlinson, who has spent his entire life as a resident of Benton county, has moved to Linn to reside. He moved onto the Flinn farm and will still continue to be a tiller of the soil.

D. N. Williamson and family of Oak Creek, Linn county, were visiting relatives at Oak Grove, Sunday.

Charles Baundy who has been a resident of this county for the past ten years, took his departure Monday, bound for the state of Washington where he goes to become a permanent resident of that state. We wish him success in his new field of labor.

The new school house that is being built is fast nearing completion and will probably be ready to begin school about the first of November. The structure is a good one and will add much to the general appearance of the neighborhood.

The late rains did much good in starting the pastures and clearing away the smoke, but the farmers who have ploughing to do would have been pleased with a little more for the ground is not wet sufficient for good farm work. There are some farmers at work sowing their summer fallow.

The last man to get his threshing done in this part of the country was W. D. Prettyman who completed his on October 7th.

Mr. and Mrs. Mayberry attended church at the chapel car at Wells Sunday.

Hay hauling is still in progress. There were about 300 tons here to be hauled and if the weather continues good the coming week the work of pressing hay will be completed.

Prune picking is at an end and the most of the driers that have been operated here will finish by the last of the week and close down for the year 1906.

Had a Jollification.

A real live bunch of good fellows got together at the home of C. V. Johnson at Airlie Saturday evening last, and engaged in one of their semi-occasional whist tournaments. The party consisted of Postmaster B. W. Johnson, Deputy Dist. Attorney E. R. Bryson of Corvallis and State Senator A. J. Johnson, all of Benton county, the former home of C. V. Johnson. The boys are old time friends and it is their custom to get together two or three times a year and engage in the pleasant pastime that was indulged in on Saturday evening. The West Side Enterprise failed to learn of the results of the evening's doings or it would be pleased to give them. However, the evening was doubtless a very pleasant one for the participants as their previous meetings have always been.—West Side Enterprise.

Real Estate Transfers.

C J Harrison to L S Broy, part of lot 87, block 19, Philomath; \$150.

E S Murray to A Holmstrom, lots 3 and 6, block 15, Jobs add to Corvallis; \$450.

S Jensen and wife to J Heeszel and wife, lots 4, 5, 6, 10, 11, 12, Avery & Wells addition to Corvallis; \$1,000.

M E Nichols to R H Hewitt, 200 acres southwest of Monroe; \$1,050.

M H Mengas and husband to E Crisinger, lot 3, block G, Avery & Wells addition to Corvallis; \$600.

J M Porter and wife to F A Smith et al, 160 acres north of Corvallis; \$7,000.

J W Foster and wife to SW Ray, 20 acres south of Corvallis; \$250.

E Crisinger to T D Campbell, lots 7, 8 and 9, block 14, County addition to Corvallis; \$1,030.

K Kropp and wife to E Simp-

son, 19 and 26-100 acres, near Albany; \$550.

S A Miles and wife to W A Laidlaw, lot 7 and north 1/2 of lot 8, block 5, Corvallis; \$1.

S S Ball and husband to A Smith and wife, 929 64 acres near Wells; \$1.

Opera House Billings.

The present season will bring to our city an unusual number of first-class attractions.

The following eastern companies are already booked to appear in the order named. Oct. 17, "Uncle Josh Perkins," a rural comedy; November 1, "The Holy City," the beautiful religious drama; November 8, Beach & Bowers Minstrels; Nov. 17, "A Royal Slave," which is dramatized from "The Fair God" by Lew Wallace; December 15, "Jerry from Kerry," a musical comedy; January 1, John Griffith in "King Richard the Third;" January 8, that gorgeous musical comedy, "The Belle of Japan;" January 31, Stetsen's Uncle Tom's Cabin; February 12, "The Cow Boy Girl;" February 28, "Nettie The News Girl."

Wedded and Gone.

Another couple of Benton county young people have joined fortunes for life. The event happened Wednesday noon at the home of Mr. and Mrs. Reuben Taylor, and the bride was their charming daughter, Miss Janetta Taylor, while the happy man was Chester Edwards, son of Mr. and Mrs. I. N. Edwards of Southern Benton. The ceremony was performed by Rev. Gardner of Peoria in the presence of 30 guests.

The bride looked very attractive in white silk, and carried a beautiful bouquet of roses. The parlor was prettily decorated with choice roses and ferns.

After congratulations the party enjoyed one of the tempting dinners for the cooking of which Benton county women are famed.

Mr. and Mrs. Edwards were to go to Portland yesterday on their wedding trip, after which they will take up their residence at the home of the groom's parents near Eugene.

The sincere good wishes of many friends follow them.

LETTER LIST.

The following letters remain uncalled for in the Corvallis postoffice, for the week ending Oct. 6, 1906:

Mrs Edith Adams, George P Alexander, W E Clarke, B P Oramer, William Hyde, Mrs J W LaBara, T W Scott, Mrs Josephine Wheeler.

B. W. JOHNSON, P. M.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce of Buffalo, N. Y., took time by the forelock, as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now of known composition. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, such ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black cohosh, and other ingredients, and in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black cohosh, and other ingredients, and in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, and supporting nutritive.
