Why Not Use Electric Lights?

Stop scratching matches on your wall. Those streaky match scratches look mighty bad on any wall. But as long as you continue to use gas or oil you've got to use matches.

The "matchless light" is the electric light,—a simple twist of the wrist does it. We are improving and perfecting our lighting service in this city and can give better service for less money than ever in the history of the city.

The cost of wiring has been reduced until it is within reach of all. If you would like to know more about it, call on us in our new office opposite the O. J. Blackledge furniture store or phone us, Ind. Phone 469.
