The activity in sidewalk building continues, and the improvement is so marked in the city's streets that the subject is frequently discussed by citizens. If the concrete ordinance is "aired" now and then to remind people of its existence, Corvallis will soon have new board walks all over town, and every resident will reap the benefit.

Monday was the 15th wedding anniversary of Mr. and Mrs. E. B. Horning, and their son and daughter, Emil and Helen, planned a very pleasant surprise for them. Twenty relatives and friends gathered at the family home in the evening and spent several very enjoyable hours with Mr. Horning and his estimable family. The visitors presented the host and hostess with some very pretty pieces of cut glass, and at a late hour ice cream and cake were served and the guests departed, wishing Mr. and Mrs. Horning many happy returns of the day. Master Emil and Miss Helen in their planning of the event proved plainly their ability to keep a secret, and the affair was fully as successful as it could have been if arranged by older heads.

The walls are up for the new postoffice building for Corvallis. The window frames are in and the building is rapidly assuming the form and general appearance of a modern brick. The weather has been good thus far for out-door work.

Clayton Herron was in from Bellefontain, Tuesday, having brought to market a load of hogs, one year old, that sold for \$15 each. Mr. Herron declares that the man with the get-rich-quick idea should go into the business of swine raising, as nothing yields quicker or better returns.

A. P. Johnson and family are to move tomorrow into their handsome new residence on Ninth street. This building is finished on the outside in the latest style, known as the "velvet" finish, and this effect added to the architectural beauty of the design renders the structure unusually attractive.

In Oregon, mild, sunshiny weather, r-r-s in bloom, fresh fruits in the market, ripe strawberries being gathered by the crate. In Colorado, a foot of snow on the level, hundreds of tons of sugar beets and thousands of barrels of apples damaged by the intense cold.—You pay your money and take your choice.

The latest in electric railroad building is a proposed line from Oregon City to Beaver creek, a distance of six miles. Judge Dimmick of Oregon City says of the project: In my opinion the Willamette valley offers the best field for electric railway development, and the time is coming when there will be a perfect network of lines. We propose to work in harmony with the Salem people who are interested in the building of a line between here and Silvertown and before another year rolls around it is hoped we will have extended our road from Beaver creek to Silvertown.

A fact that argues well for the industry of the rising generation is the zeal and energy with which the average small boy of today "tackles" nearly any job of work that comes his way. That the American boy of today is not lazy is demonstrated by his eagerness to secure work which will supply the dimes that are needful to provide the usual amount of hoecake, whips, marbles, tops and balls for the average youth. With his business abilities so early awakened and cultivated, the business man of the future will certainly be something "swift."

A prominent resident of the vicinity of Bellefontain, in town this week, stated that a petition is in circulation in that section for the purpose of attempting to force the S. P. railroad to extend its road from Corvallis through to Junction City. It seems that the S. P. company many years ago secured the right of way through this section with the understanding that work was to begin at once and that the road was to be completed on to Junction. Citizens of the southern part of the county believe that the right of way can be taken from the company unless the latter begins work, thereby fulfilling its part of the original contract.

Fashionable Dress Goods

Of all the articles of apparel, women's dress is the most conspicuous, and either makes or mars her appearance. The fashioning of the dress—the making—has much to do with this appearance, but after all the fabric approved by fashion must be provided and in such quality as to give elegance and character to the finished dress.

We have provided the most fashionable and proper dress and ask your attention to several numbers at from 75c to \$1.50 per yard.

<p>Plaid Suitings</p> <p>Fancy, large ombre plaids are quite the thing for immediate use. They come in a variety of fabrics, the most popular is an all wool 56in suiting of very rich finish, at per yard \$1.50</p> <p>A cheaper quality in patterns almost identical and satisfactory as far as service and appearance is concerned, we offer at \$1.00</p> <p>A still cheaper 36in to be had at .50</p> <p>Cheaper numbers in cotton mixtures are to be had at lower prices, but as we were talking about quality goods we quote only the above numbers.</p> <p>White Waistings</p> <p>The shirt waist is assured of a place for several seasons to come. At no time has the shirt waist been more popular than this season, and white or very light colored will be worn throughout the winter. For a dress waist we offer a fine assortment of fancy wove materials at per yard 15 to 50c</p> <p>Sublime Silk</p> <p>Everybody likes silk. Silk effects do please, and as the fashions just now favor the tailored effects silks are especially suitable. We wish to get your attention to a new silk called Sublime Silk. This will not split nor crack. It comes in black and is full 46 inches wide. This is not to be confused with the cheaper silks offered. We believe that you will be much interested in our Sublime Silk. Per yard 75c</p> <p>French Serge</p> <p>French Serge is really the narrow wale light weight serge that has so much character in its appearance. The present fashions favor serges as well as other plain fabrics, and made up with strap and button trimmings produce a very catching costume. The price on French Serge is \$1.00</p> <p>Some cheaper numbers sold as low as 50c</p>	<p>All Wool Henriettas</p> <p>Henrietta, because of its fine texture and rich appearance, will be a strong favorite this season. The plain draping of the present fashions make Henriettas especially desirable. Henriettas are to be had in all staple colors and widths, per yard from 50c to \$1.25</p> <p>Some cotton warp Henriettas at per yard 25c</p> <p>Braids</p> <p>Fashions for fall call for braid trimming. The most popular of these are the Radium Pull Braids. They are called Radium because of their silky appearance, and the word pull comes from the fact that one edge can be pulled, causing the braid to lay perfectly flat when pulled on in circular or curved designs. These vary in price per yard from 5 to 25c</p>

Why Not Use Electric Lights?

Stop scratching matches on your wall. Those streaky match scratches look mighty bad on any wall. But as long as you continue to use gas or oil you've got to use matches.

The "matchless light" is the electric light, — a simple twist of the wrist does it. We are improving and perfecting our lighting service in this city and can give better service for less money than ever in the history of the city.

The cost of wiring has been reduced until it is within reach of all.

If you would like to know more about it, call on us in our new office opposite the O. J. Blackledge furniture store or phone us, Ind. Phone 489.
