DISCRIMINATION.

According to the ruling of the Interstate Commerce Commission a newspaper man is prohibited from selving advertising to railroad companies and accepting his payment in transportation. Such an attitude does not savor of a "square deal" toward the newspaper man or the railroad companies by any means.

It would seem as though a newspaper man had a right to accept whatever pleased him for his advertising and if he published mat'er in the interest of the railroad company and accepted his payment therefor the transaction seems the same as though he ran an ad for his grocer and took butter and eggs as his pay. To us the transactions seem identical.

To interfere and inhibit a man for his services has the appearance of an unjust discrimination. The ruling of the Interstate Commission seems unjust, particularly as it infringes upon the right of contract. In this case the into eternity in the twinkling of newspaper man has space to sell; the railroad has transportation to sell The newspaper man wants transportation and the railroad wants advertising. The railroad is willing to trade its transportation for newspaper space and the newspaper man is willing to accept transportation for his space. From so plain a statement of affairs it would seem that it is only just that they be permitted to write their contract without the interference of a law which appears on the face of it an infringement of the rights of contract, which is one of the fundamental principles of liberty and law.

We have no desire to sit as a high court upon this question. It may be stated that the legal department of the Monon railroad company has made a test case of this matter in Chicago. Ill., and the supreme court of the United States is to be asked to pass upon the question of whether a railroad company can issue transportation in payment for newspaper advertising. The claim is made by the Monon company that the ruling of the Interstate Com- E Ireland, receivers receipt, 160 merce Commission denies the acres southwest of Philomath; freedom of contract to a particular class. The rule, as universally stated and upheld by the courts, is: "What the parties omath: \$400. agree shall constitute the payment, the law will adjudge to be acres southwest of Bellefountain; ed harbors constantly and insistthe payment. It is competent \$1. for parties to designate by the'r contract how and in what payment shall be made. 1t is by no \$1. means true that payment can only be made in money; on the contrary, it may be made in pro- \$1. perty or in services."

Senator A. J. Johnson, of Benton, has drafted a bill which, from perusal, we are convinced is a most excellent one. He

will introduce it in the legisla-isi. ture and it seems that its passage should be assured. It is very comprehensive, fair to all, both railroad companies and shippers,

and in no place is there the least venom apparent nor class favoritism. It is first and last based

upon the needs of Oregon and the protection of all transportation interests. The railroads are treated fairly and the only requirement of the bill is "a square deal" for all. We hope the bill receives at the hands of Senator Johnson's legislative colleagues that treatment which it merits

and which conditions not only warrant, but make necessary.

The terrors of an unseen power again-this time in the city of 9, Co Add Corvallis; \$1100. Kingston, Jamaica. Last Tuesday the world was informed that a seismic disturbance was in progress in Kingston, but the information was meager. Since then details have penetrated even to

the "county corners" and all are informed of the horrors, the desfrom accepting such payment titution and the loss of human tain; \$410. tife in the stricken city. The earth is said to be gaping open and the ruined city in danger of sinking into the sea. Thousands of people have been rushed an eye. All has not yet been told, nor is the end yet in sight.

> Today, in the legislative halls in Salem, two United States senators are to be elected. Rather, it will be an endorsement of the 'voice of the people" as it echoes from the state election of last June. The men to be chosen are Jonathan Bourne and Fred W. Mulkey, both of Portland. There is no promise of anything in the least dramatic in the election. What a contrast this will prove in comparison with like elections in the years passed.

C. B. Crosno received a letter Tues 'sy evening from Dick Abbey of Elk City, who is with a surveying party of the Astoria & Columbia River Railroad company, between Astoria and Tillamook. conveying the sail news that his son Ade had been missing since the evening of the 9th inst. Ade had been sick at Seaside and was returning to the surveying camp near the coast about thirty miles north of Tillamook. About 4 o'clock in the afternoon of the 9th a man named Gibson rowed Ade across Elk Oreek, a stream s few mi es from the camp, and that was the last seen of him. It is feared he was overtaken by daraness, became lost in the hills and has perished from exposure,

the weather being unusually severe is still hoped he may have reached the shelter of some home, but no trace of him has yet been discovered by searching parties. His father left Thursday morning to assist in the search, accompanied by Sheriff Ross and Harry Fant .- Liacoln Leader.

What we want and deserve out here is not occasional driblets of appropriations, but enough to push all these meritorious projects right through. The indications are that this congress will do a little better for us than we expected; but keep up the campaign for still larger and entirely sufficient appropriations by the next congress, not only for the jetty but for the Celilo canal, for the upper Columbia and Snake rivers, for Coos bay, Siuslaw and the rest.
