PARTIES NECESSARY.

So long as men differ concerning the principles which are most vital to the conduct and perpetuity of their political governments parties will exist. In fact men may not differ as to principles but simply as to policies, yet they will divide into parties. This is perfectly natural and right and necessary. Through the instrumentality of party organization and party machinery we seek to conduct government according to those principles and policies which we believe are best fitted to promote our prosperity and happiness as a people and to perpetuate our government. Thus far parties are not only necessary but beneficial, and for so long have men recognized this necessity and acknowledged those benefits, and been accustomed to the instrumentality of party they will continue to act with one party or another. It is wise and right they should for under our form of government the best results are reached through the agency of parties. This being true it follows that anything which would obliterate all parties or hamper men in the use of such agencies should be avoided. Factionalism, crude and unwise legislation, whatever tends to impair or destroy party organization is fraught with ill to representative republican government.

Factionalism has well nigh destroyed the republican party in several states. Here in Oregon what factional strife has not destroyed a mischievous primary law bids fair to do. But recently the republican party was the dominant party in this state, and it is doubtless true that the majority of voters believe in the principles and policies of the republican party, yet they see the party almost destroyed because of the selfish purposes and ambitions of its most active members. It is time personal jealousies were laid aside and the reasons for the existence of the party were brought to the front. In the presence of the principles and policies of the party the personal ambitions or jealousies of any man or set of men in the party are of no moment whatever and must be put aside.

No man, no coterie should longer be permitted to obstruct and defeat the unity of purpose which should bind and which certainly will again unite the members of the party to carry to the front those principles and policies which as republicans, they honestly and earnestly believe should be observed in conducting the government, of both state and nation.

A Distinction With a Difference.
A man may rant and a man may rail
When a honk-honk honks at him;
A man may rant and a man may wall
As the honk-honk-honk grows dim;
But the same man smirks and the same man smiles
And to honk-honk-honk is prone—
See the same man's quirk and the same man's wiles
When he gets a honk-honk of his own!

A Woman's Back
Has many aches and pains caused by weakness and falling, or other displacement of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.
If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It is the most potent purgative, tonic and strengthening medicine known in medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.
Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.
You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy of known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.
Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.
