WHITE COTTON BATTING

FOR

10 Cents Per Pound.

A good quality too; the only trouble with it is that it has been delayed in transit and a trifle soiled through being so long on the cars. In some cases the papers are broken and consequently they don't look as fresh as when nicely wrapped, but the quality is there and the weight just the same, but 1000 pounds is rather too much for us to handle just now so we have cut the price right in half to afford it's speedy departure.

CARPET WARPS.

We have just received a shipment of 500 pounds of Carpet Warp, all staple shades.
